

# Emergency Medicine Research & Academic News

## Highlights

SIM WARS is a competition between emergency medicine residents in simulated medical cases. A big shout out to our residents **Andrea Miglani**, **Joe Bettendorf**, **Joshua Zwart**, and **Lars Peterson** who have been selected to participate in the 2013 SAEM Annual Residency Simulation War Competition in Atlanta Georgia (May 17, 2013). They will be led by their ferocious coaches **Linda Spillane** and **Julie Pasternack**. The teams will be tested on their effective teamwork, communication and management skills with an unknown critical EM case. Please congratulate the team and wish them good luck the next time you see them.

## 2013 SAEM Annual Meeting Presentations

Abstract Title	URMC Authors
Differences in Noninvasive Thermometers in the Adult Emergency Department	Joshua Zwart, Sean Toussaint, Acquisto M. Nicole, Ryan P. Bodkin
The Ability of the Physiologic Criteria of the Field Triage Guidelines to Identify Children Who Need the Resources of A Trauma Center	Jeremy T. Cushman, Manish N. Shah
A Comparison of Injury Severity and Resource Utilization between Motorcycle Trauma and Gunshot Trauma	Peter W. Crane, Sarah Fabiano, Matthew Daul, Harry Groenevelt, Sandra Schneider
Does Anticoagulant Use Necessitate Triage To A Level 1 Trauma Center?	Jeremy T. Cushman, Manish N. Shah
Do the 2011 Revisions to the Field Triage Guidelines Improve Under- and Over-Triage Rates for Pediatric Trauma Patients?	Jeremy T. Cushman, Manish N. Shah
Distributive Education Can Be Used To Train Basic EMTs To Treat Opioid Overdose With Intranasal Naloxone	Jeremy T. Cushman
Performance of an Emergency Care Telemedicine Program for Older Adults	Manish N. Shah, Erin B. Wasserman, Suzanne M. Gillespie, Dallas L. Nelson, Nancy Wood, Matt Doyle, Shirley Li, Kenneth M. McConnochie
A Consensus-Based Gold Standard for Who Needs a Trauma Center	Jeremy T. Cushman, Manish N. Shah
Performance of Plain Pelvis Radiography in Children with Blunt Torso Trauma	Madelyn Garcia
A Qualitative Exploration of Emergency Department Revisits by Older Adults	Stacy Salerno, Manish N. Shah
Oral Contrast in the Evaluation of Intra-Abdominal Injuries in Children with Blunt Torso Trauma	Madelyn Garcia
Importance and Performance of the Abdominal Examination to Identify Children with Abdominal Injuries	Madelyn Garcia

## Upcoming Events

**Sandy Schneider** will be teaching the **'The 2013 LLSA Exam Study Session with Study Guide'** on May 7, 2013 from 11am-1pm which is worth 22 CME credits. The study session will consist of 1.5 hours of lecture/discussion followed by a 30 minute question and answer segment where you can get your specific questions and concerns addressed by Dr. Schneider.

The annual **Health Professions' Faculty Development Colloquium** will be held from 7:30 a.m. to 4 p.m. Wednesday, June 5, at the School of Medicine and Dentistry. The featured speakers will be Pat Croskerry, MD, PhD, professor of Emergency Medicine, director, Critical Thinking Program, Division of Medical Education, Dalhousie University Faculty of Medicine, Halifax, Nova Scotia; and Jack Coulehan, MD, MPH, professor emeritus of Preventive Medicine, fellow, Center for Medical Humanities and Bioethics, Stony Brook University, Stony Brook, New York.

## Grant Opportunities

ACEP (American College of Emergency Physicians) is offering a **Pediatric Emergency Section Research Seed Grant** for the 2013-2014 year beginning July 1, 2013 for \$3,000. The deadline for submission is June 1, 2013 at 11:59 PM (PST). Applications will be reviewed in June and an announcement will be sent out sometime between the 15th-25th of June.

## Conducting Research in the Emergency Department

In addition to managing and supporting our faculty in their research interests, the Emergency Medicine Research Office also coordinates the conduct of research in the ED by outside investigators. With more than 130,000 combined annual visits, the Strong Memorial and Highland Hospital Emergency Departments offer a rich research environment. The Emergency Department Research Associate program at Strong Memorial Hospital also offers investigators a dedicated resource to identify and enroll patients in research studies. Please contact us for more information.
