Peter Crane's "Entropy: A Conceptual Approach to Measuring Situation-level Workload Within Emergency Care and Its Relationship to ED Crowding" has been accepted for publication in The Journal of Emergency Medicine in which he is also the first author.

Grant Opportunities

Announcement	Letter of Intent Due	Cycle	Maximum Budget	Maximum Project Period	Funds Available Up To
Assessment of Prevention, Diagnosis, and Treatment Options	10/15/2013	December	\$500,000 direct costs/year	3 Years	TBD
Improving Healthcare Systems	10/15/2013	December	\$500,000 direct costs/year	3 Years	TBD
Communication and Dissemination Research	10/15/2013	December	\$500,000 direct costs/year	3 Years	TBD
Addressing Disparities	10/15/2013	December	\$500,000 direct costs/year	3 Years	TBD
Improving Methods for Conducting Patient-Centered Outcomes Research	10/15/2013	December	\$250,000 direct costs/year	3 Years	TBD
Assessment of Prevention, Diagnosis, and Treatment Options	2/1/2014	April 2014	\$500,000 direct costs/year	3 Years	TBD
Improving Healthcare Systems	2/1/2014	April 2014	\$500,000 direct costs/year	3 Years	TBD
Communication and Dissemination Research	2/1/2014	April 2014	\$500,000 direct costs/year	3 Years	TBD
Addressing Disparities	2/1/2014	April 2014	\$500,000 direct costs/year	3 Years	TBD
Improving Methods for Conducting Patient-Centered Outcomes Research	2/1/2014	April 2014	\$500,000 direct costs/year	3 Years	TBD

Conducting Research in the Emergency Department

In addition to managing and supporting our faculty in their research interests, the Emergency Medicine Research Office also coordinates the conduct of research in the ED by outside investigators. With more than 130,000 combined annual visits, Strong Memorial and Highland Hospital Emergency Departments offer a rich research environment. The Emergency Department Research Associate program at Strong Memorial Hospital also offers investigators a dedicated resource to identify and enroll patients in research studies. Please contact us for more information.
