

AUGUST 2017

Congratulations!

Kenneth Conner was just notified that he was awarded a 3-year, \$682,000 grant by the NIH National Institute on Alcohol Abuse and Alcoholism to study a brief treatment intervention for use with patients who made a suicide attempt prior to presentation to our ED. **Tim Wiegand** will be serving as a co-investigator. The project will begin with a ramp up phase including an open trial, followed by a randomized controlled trial (RCT).

Beth Race received UR Lean Practitioner certification. The certification consisted of 7 training modules and a final project. The EM Research "Mannschaft" project included forming a subcommittee developing an improved process for submitting grant proposals.

Tim Wiegand was appointed as an Ad Hoc Member to the NIH CSR System Science and Health in the Behavioral and Social Sciences (ZRG1 HDM-W), Special Emphasis Panel in July 2017.
