

Packages 1 and 2 MUST be completed within one year. Package 3 must be completed within 18 months. Any live birth completes the contract for the package including any unused embryo transfers.

While the packages include embryo transfer, this is only if embryos are available. NO guarantee is made to receive any embryo transfer and NO refunds are made of unused transfers.

Payment is due no later than your baseline ultrasound. At the end of your cycle, services rendered to you by our medical and IVF lab personnel will be forwarded to the billing department. The lab that processes your sample will bill for your Blood work charges. Medication fees will be payable to your pharmacy.

All outstanding self-pay balances with this office are to be paid in full before participation in the IVF program. This also includes any accounts that have been sent to a collection agency.

We accept MasterCard, Visa and Discover or bank check we DO NOT accept personal check for payment.

Packages include:

Injection teaching visit, single trial transfer, Office visits during the treatment cycle beginning with the baseline ultrasound, all ultrasounds for follicular monitoring, oocyte retrieval, surgery fees associated with oocyte retrieval, anesthesia associated with retrieval, fertilization and culture of the oocytes, sperm preparation, assisted hatching if needed, embryo preparation for transfer, embryo transfer, post treatment consult (done within 4 months of completed cycle) and ICSI if needed

The packages are considered complete when pregnancy occurs or included transfers have taken place. Services must be completed in the prescribed time frame. The fees for either the case rate or multi-cycle packages are due in full at the beginning of the cycle. If there are no embryos for cryopreservation all fees still apply to the multi-cycle packages.

Should the cycle be cancelled prior to completion of retrieval for medical reasons, \$1500 will be charged and the remainder of the paid fees refunded. There is no refund of payment for a failed cycle.
