

On May 24th we hosted a Listening Session with URM Fitness Center members to preview what could be a potential location for a new URM Fitness Center. The attached fact sheet provides more details, but in summary, it would be housed in College Town in the site of the former Bar 145 location, providing ample room for cardio/weight training areas, an aerobics/multi-purpose room and locker/showers. As outlined in the proposed fact sheet, we would maintain the current rate structure, with the added bonus of a reciprocal arrangement with the University's Goergen Fitness Center for a small monthly fee. We will continue to seek feedback from this group and URM's Wellness Committee as this project moves along.

In the meantime, we are continuing to follow up on various requests that have come from this group including:

- Temporarily make available showers/lockers within the current Fitness Center or elsewhere within the Medical Center
- Explore parking arrangements for Goergen, along with an online reservation system to reserve courts/pool availability

Finally, some members have inquired about the possibility of purchasing equipment. At this time, it's our intent to use most of the equipment in the new location. If that changes, we will reach out directly to those who expressed interest in purchasing the equipment
