

Introduction to Continuity of Operations Planning (COOP) in the Health Care Sector – Recorded Session AMCRTC-COOPBP1-REC

Description of training:

Today's complex healthcare environment requires that emergency planning go beyond the traditional approach to preparedness. Clinical and Business Continuity planning identifies key clinical and business functions and the strategies required to recover them with minimal disruption to operations. This program will present an overview of basic tenets of continuity for healthcare.

Training Objectives:

- Explore why business continuity is an essential component of a comprehensive overall emergency management program
- Describe the elements and importance of healthcare COOP, including steps to achieve and how effective COOP has benefits to everyday operations
- Provide strategies to sell COOP to others in the organization and community
- Use case scenarios to demonstrate both value and applicability
- Review the most recent changes in CMS requirements related to COOP planning for healthcare organizations

Target Healthcare Audience:

Personnel from Hospitals, Nursing Facilities, Clinics, Medical Offices, County Health Departments, and other health related organizations that are involved or interested in emergency planning and recovery.

Presented By:

Global Vision Consortium – A company with extensive experience assisting healthcare
