UNITED STATES DEPARTMENT OF ENERGY (DOE)

Hospital Emergency Department Management of Radiation Accidents
RTC-RAD-BP1x

Overview: This 8-hour course is designed to introduce hospital medical care providers to ionizing radiation, its biological effects, facility preparation, radiological instrumentation, patient decontamination, and patient care/treatment. Upon completion of the classroom training, a hands-on exercise will allow hospital care providers the opportunity to demonstrate prompt and appropriate care for accident victims while minimizing exposure and preventing the spread of contamination.

The course is targeted at all medical care providers who may be responsible for managing or treating a patient that has been exposed to radiation or is contaminated with radioactive material. The modular design of the program has been structured so non-medical care providers (e.g., maintenance, security, etc.) can attend the first 3 or 4 modules and then return in the afternoon for the hands-on exercise. Upon successful completion of this training hospital personnel will have developed the knowledge and skills necessary to safely perform assigned duties to handle and treat victims from a radiological incident.

Target Audience: Hospital medical care providers who are interested in expanding their understanding of managing and treating patients that have been exposed to radiation or are contaminated with radioactive material.

Prerequisites: Successful completion of Orientation to Hazardous Materials for Medical Personnel (**FEMA IS-346**). This training will assist hospital medical care providers in developing an understanding of and the skills needed to handle and treat patients that have been exposed to radiation or are contaminated with radioactive material

Training Dates:

July 24, 2018 @ 8:00am-5:00pm (Lunch on own)
North Area Volunteer Ambulance Corp
Training Room
603 N. Main Street - North Syracuse, NY 13212

July 25, 2018 @ 8:00am-5:00pm (Lunch on own)
University of Rochester Medical Center
Center for Experiential Learning (2-7520)
415 Elmwood Avenue - Rochester, NY 14642

July 26, 2018 @ 8:00am-5:00pm (Lunch on own)
Erie County Fire Training Facility
Auditorium
3359 Broadway – Cheektowaga, NY 14227

Instructors:

- David Simpson, CHP, PhD
- Mark Linsley, CHP
- John Lund

Technical Resources Group, Inc
Contractor to the U.S. Department of
Energy Transportation Emergency
Preparedness Program
