

JOIN US: 16th annual Dr. David Satcher Community Health Improvement Awards and Special Public Health Grand Rounds

When: Noon – 1:30 p.m. Friday, May 9

Where: Class of '62 Auditorium, G-9425, University of Rochester Medical Center (425 Elmwood Ave., Rochester)

Featured Speaker: Janette Berkley-Patton, PhD, professor in the University of Missouri-Kansas City (UMKC) School of Medicine Biomedical and Health Informatics Department and director of the URM Health Equity Institute

Presentation: “Engaging Community and Health Partners in Designing and Delivering Large-Scale Health Interventions for Increased Reach, Influence and Impact”

For continuing education credits, please visit www.cchp.urmc.edu/satcher.

Dr. Berkley-Patton is a professor and the Merl and Muriel Endowed Chair (Internal Medicine) in the UMKC School of Medicine Biomedical and Health Informatics Department. She is also the director of the UMKC Community Health Research Group and the UMKC Health Equity Institute.

Her expertise is in engaging African American communities and health agencies in testing and disseminating large-scale prevention, health screening, and linkage to care interventions. These culturally tailored, community-engaged interventions have focused on diabetes, COVID-19, HIV/STI, mental health, dementia, and more in socially vulnerable Kansas City communities with multisectoral community partnerships, particularly in African American faith-based settings.
