Restoring Dignity: Providing Care for Older Adults Experiencing Homelessness

Course Description: This webinar offers an in-depth look at the complexities of homelessness, focusing on the unique challenges faced by senior citizens. We will explore the Northwell Health Street Medicine team's innovative approach to delivering compassionate clinical care and addressing social determinants of health for this vulnerable population. The session will include insights into the program's mission, operations, and impact, illustrated through a compelling case study.

Course Objectives:

By the end of this presentation, learners should be able to:

- Understand various types of homelessness and their health impacts
- Gain an overview of the Northwell Health Street Medicine team's work
- Identify the specific challenges encountered by homeless senior citizens
- Assess relevant social determinants of health for older adults experiencing homelessness
- Formulate a comprehensive, clinically driven care plan for a homeless senior
- Discuss ethical considerations pertinent to the care of homeless older adults .

Available Course Sections:

July 24, 2026 10am—12pm.

Live Online, NYS DOH Learning Management System

Recorded session will be available after the webinar
