
**DISASTER TRIAGE TRAIN-THE-TRAINER
FLRTC-DTttt-BP1**

Background:

START/Jump START is the disaster triage methodology that has been adopted by the EMS and healthcare community in New York State. An indepth review of START/Jump START will be conducted during this training session.

Training Objectives:

- Define a Mass Casualty Incident and the unique challenges of an MCI
- Understand the differences between day-to-day triage and triage during an MCI.
- Increase provider competency in the use of START/Jump START triage.

Those interested in becoming facility instructors will be given access to training materials and resources needed to conduct training.

Prerequisites: NONE

Target Audience:

First Receivers (Hospital providers)
First Responders (EMS providers)
