Evacuation of Facilities in Disasters System

OBJECTIVES

Proficiency in the eFINDS application.

Your advanced eFINDS skills will help you to train other facility staff, and allow you to support your colleagues during a real or practice evacuation- whatever your professional background is, or role in a response.

4

AGENDA

- **Module 1:** eFINDS Introduction
- **Module 2:** Hands-on Exercises (*work independently*)
- **Module 3:** Teach Back/Exercise Rotations

5

Ground Rules

- Please turn off email, phones, instant messaging tools and clear other distractions away from your training area
- **Participate and Stay on Track** – don't work ahead unless directed
- **Raise hand or send Chat** if you have a question or comment
- Breaks will be incorporated during this session.

6

Module 1:

eFINDS Intro

7

eFINDS is...

A Secure Evacuee Tracking System

- Where did person come from
- Where are they now
- What is their evacuation status

eFINDS isn't...

- A planning tool for where to send evacuees
- A platform for sharing medical information
- A way to tracking employees

Facilities still need to communicate with each other during an event!

8

eFINDS Evacuee Statuses:

Registered: person to be evacuated is in eFINDS

Evacuated: person has left evacuating facility, and is enroute to intended destination

Received: arrived at intended destination/receiving facility and current location is updated

Repatriation Initiated: receiving facility returns evacuee to their original facility

Repatriated: evacuees arrive back to their original location/evacuated facility

Will Not Repatriate: evacuees will not be returning to their original facility

SIP (Shelter in Place): If the Chief Elected Official issues a mandatory evacuation order that includes a SIP option, evacuees can only remain in the defined evacuation zone with consent of NYSDOH.

9

Basic Evacuee Flow:

- Registered
- Evacuated
- Received
- Repatriation Initiated
- Repatriated
- Will Not Repatriate
- SIP (Shelter in Place)

eFINDS Roles for Facilities

18

eFINDS Reporting Administrator (@admin)	eFINDS Data Reporter (@user)
Same as eFINDS Data Reporter (user) plus: - Create an operation when evacuation event impacts a single facility (e.g., fire or no heat) - Create temporary locations - Order eFINDS supplies - Register or update info in tracking history - Generate Barcode Assignment: Scannable Log (PDF log) or Download or Upload Spreadsheet (Excel) - Register people without having barcodes to scan using the Multi-Person Input	- Register people with or without scanner - Update info in tracking history - Upload the eFINDS spreadsheet (Excel) to register evacuees

19

Don't get hung up by the *electronic* process!!

If all else fails....

- ❖ Grab your supplies and move to a safe location
- ❖ Wristband your evacuees and transport
- ❖ No wristband? Print labels or handwrite barcode number on person's medical record
- ❖ OR Document on barcode log for initial tracking

SCENARIO 3

31

Add an Operation (reason for evacuation)

- Your facility has a power outage, and there is not enough generator fuel to support the residents for more than two days.
- A full facility evacuation is warranted.
- This event only affected your facility.
- An evacuation operation needs to be added.

Add Operation

32

eFINDS Administrator Role Only

1. Click **Admin**.
2. Click **Manage Operations**.
3. Review list of Active and Inactive Operations.
4. Select **Begin Date**.
5. Select **Event Type**.
If you select Blizzard, Hurricane, Ice Storm or Snow Storm, then enter the Storm Name.
If you select Other, then enter Other Description.
5. Enter location, e.g., your **facility name**, town/city/village
6. Verify **Active Status**
7. Click **Add Operation** **Note:** You may need to click Add Operation twice
8. **Verify** Operation YYYY-MM-DD EVENT TYPE LOCATION was created in table below.

NOTE: Email confirmation is sent to all NYSDOH eFINDS Application Administrators: "eFINDS Operation has been added".

SCENARIO 4

33

Add a Temporary Location [TMP]

- Due to the Power Outage (operation created in scenario 1), you will be sending some evacuees to the High School across the street until another facility can accept them.
- Add a unique Temporary Location [TMP] to send evacuees to.

Note: You do NOT need to create a Temporary Location for any New York State hospital, adult care facility or nursing home.

NYS Hospitals [HO], Adult Care Facilities [AC] or Nursing Homes [NH] are available in eFINDS when you select the Intended Destination Org. Type and then Intended Destination facility name next.

Add Temporary Location

e-FINDS Administrator Role Only

34

1. Click **Admin > Manage Locations**
