INCIDENT COMMAND SYSTEM - NATIONAL TRAINING CURRICULUM

Description:

This course reviews the Incident Command System (ICS), provides the context for ICS within initial response, and supports higher level ICS training. This course provides training on, and resources for, personnel who are likely to assume a supervisory position within the ICS. The Emergency Management Institute developed its ICS courses collaboratively with:

- National Wildfire Coordinating Group (NWCG)
- U.S. Department of Agriculture
- United States Fire Administration's National Fire Programs Branch

Course Objectives:

To learn basic information about the Incident Command System (ICS) and National Incident Management System (NIMS):

- Describe how the NIMS Management Characteristics relate to Incident Command and Unified Command.
- Describe the delegation of authority process, implementing authorities, management by objectives, and preparedness plans and objectives.
- Identify ICS organizational components, the Command Staff, the General Staff, and ICS tools.
- Describe different types of briefings and meetings
- Explain flexibility within the standard ICS organizational structure.
- Explain transfer of command briefings and procedures.
- Use ICS to manage an incident or event.

Prerequisite:

The prerequisite to enroll in this course is a verified completion of the IS-100.c An Introduction to the Incident Command System. Information on the IS-100.C course can be found at
