

UNIVERSITY AT BUFFALO TOXICOLOGY RESEARCH CENTER
UNIVERSITY OF ROCHESTER FINGER LAKES REGIONAL TRAINING CENTER
Hazwoper for the First Receiver Operations Level Training

COURSE DETAILS:

This 8 hour initial course meets the requirements of 29 CFR 1910.120 (q) (6) (ii) and (q) (8) (i) for initial and annual Refresher Operations Level Training. The intent of the OSHA Letter of Interpretation is to cover the contents of the "OSHA Best Practices for First Receivers" document

COURSE CONTENT:

Participants will receive instruction in the defensive actions needed to protect themselves, nearby persons, property and the environment. The course will provide information to the responder on the extent of their own actions, and their role in the response, so they can maintain their own safety. Topics such as hospital emergency control plans, patient decontamination and the protective equipment available to them are included. Classes are a blend of lecture and hands-on practice donning and doffing PPE and DECON by the students.

TARGET AUDIENCE:

This course is specifically designed for healthcare (e.g. hospital emergency room, etc.) personnel who have been assigned to participate as a member of a patient decontamination team for victims who may be contaminated when they come in for medical assistance.

INSTRUCTORS:

Ralph Estep, PhD, RN, CIH, CSP
Principal Consultant
Health Systems Safety

Joseph Syracuse, PhD
Director, Atlantic OSHA Training Center
Hazardous Materials Worker Education
Program (WNY)
