ANNOUNCED: SEPT. 29, 2015

Description:

MGT-433 Management level course, instructor-led course designed to provide small, rural, and remote communities with the knowledge, skills, and abilities to effectively plan for and respond to events that require isolation and/or quarantine of their populations in a variety of low- and high-impact situations.

PER-308 Performance-level, instructor-led course designed to follow the prerequisite course, MGT-433 Isolation and Quarantine for Rural Communities. This course expands on concepts introduced in MGT-433, and consists of two customized training modules specifically tailored toward course participation in the public health and medical fields. In this module, participants will become familiar with guidance that assists communities in planning for isolation and quarantine (I&Q), such as the National Response Framework and its implications in the healthcare community. Participants will be introduced to actions public health and medical facility planners should consider when planning I&Q.

Prerequisite:

- Review of Module 5 content and video prior to class attendance
