

## Pediatric COVID-19 Vaccination Training (Just-in-Time Training): Administering COVID-19 Vaccine for Children 5-11 Years Old

### Background

An FDE Emergency Use Authorization (EUA) has been approved for administration of the Pfizer “Pediatric Formulation” to children ages 5-11. This 45 minute training will review key clinical considerations for the COVID-19 vaccine and minors, determining eligibility and obtaining consent, and pediatric vaccination administration.

### Objectives

1. Review CDC and FDA recommendations for the Pfizer BioNTech COVID-19 vaccine for children 5-11 years old
2. Summarize workflow of offering the Pfizer vaccine to children at the state-operated Mass Vaccination Sites
3. Provide a demonstration of pediatric vaccination technique
4. Explore options for managing typical childhood fears of receiving vaccines

### Target Audience

Any staff member working at a state-operated Mass Vaccination Site offering pediatric vaccination.

### Registration

To enroll in the training, please go to [www.NYlearnsPH.com](http://www.NYlearnsPH.com) and either register or login to the LMS. Search Course Catalog for: [NYSDOH-COVID-19-PEDIATRICS](#) OR click this shortcut to the course enrollment page on the [LMS](#).
