Natural Disasters: The Importance of Preparation, Resources & Resilience

Live Webinar

Wednesday November, 2025 @ 7:30am

Faculty: Kira Geraci-Ciardullo, MD, MPH & Arthur Cooper, MD

Educational Objectives:

- Outline evidence-based strategies for pre-disaster preparation to minimize disruption to patient care
- Identify and locate essential local, regional and national resources critical for sustaining operations and patient health during and immediately following a natural disaster
- Develop an initial response plan that addresses immediate challenges to enhance resilience in staff, family and patients
- Evaluate current preparedness plans against established best practices to enhance overall disaster readiness
