

PER-335 CRITICAL DECISION MAKING FOR COMPLEX COORDINATED ATTACKS

NO. OF OPENINGS: MIN: 20/MAX: 45

ERIE COUNTY

2 DAYS

JUNE 29-30, 2020

WESTERN NY

ANNOUNCED: MARCH 4, 2020

Description:

This course provides first responders from multiple disciplines with skills to manage the initial response to a large-scale attack in a chaotic environment during a complex coordinated attack (CCA). It aims to train responders in how to use intuitive skills such as observation, analysis, anticipation, and awareness to recognize the possibility of an attack involving multiple incidents of an extreme magnitude that inundate resources, exceed conventional tactics and strategies, and often require a joint response involving members from multiple disciplines and jurisdictions. Participants will learn to gather and disseminate critical information accordingly in order to facilitate rapid analysis.

They will also learn to recognize and prevent potential response obstacles or risks to safety including self-deployment and over convergence of assets. Participants will apply the skills learned in Critical Decision Making for Complex Coordinated Attacks through interactive activities, facilitated discussion, and practical application in a training environment. The featured practical exercise will allow participants to interact with responders from other disciplines to effectively address a variety of CCA scenarios.

Topics:

- Recognizing the Characteristics of a Potential CCA
- Coordinating and Integrating the Response of Multiple Disciplines and Agencies
- Managing Resources
- Using Information Sharing and Intelligence Gathering to Develop Awareness
- Solving Problems Using Creative Thinking
