1 DAY

SEPTEMBER 17, 2018

CENTRAL NEW YORK

ANNOUNCED: JULY 12, 2018

Description:

This course focuses on the use of social media in disaster preparedness, response, and recovery. Social media has shown to help people communicate and collaborate about events as the events unfold. Social media can provide rapid and immediate real-time information that helps provide greater situational awareness leading to better decision making. Participants are provided with the knowledge and skills to integrate social media into their current communication plans. The course defines social media and its uses and identifies the tools, methods, and models to properly make use of social media in the context of disaster management and provides the information and hands-on experience necessary to help the participants create social media disaster plans.

Course Modules Include:

- Introduction to Social Media
