

Burn Care ONLINE Program - FLRRC-008

Background:

The Online Burn Care Program is a series of 7 online video modules created and presented by faculty and staff from the University of Rochester Kessler Burn Center in 2011.

The information presented is intellectual property of the University of Rochester Kessler Burn Center. This course and its content is copyright of the University of Rochester Kessler Burn Center.

Purpose of Training:

The goal of this course is to build on the concepts and clinical guidelines presented in Advanced Burn Life Support as well as provide healthcare providers the University of Rochester Kessler Burn Center's guidelines for care if housing a burn patient for an extended period of time.

Online Video Modules Include:

- FLRRC-008.1 Initial Evaluation and Triage
- FLRRC-008.2 Airway Management
- FLRRC-008.3 Transport and Transfer
- FLRRC-008.4 Fluid Resuscitation
- FLRRC-008.5 Wound Care and Dressings
- FLRRC-008.6 Physical Therapy
- FLRRC-008.7 Nutrition

Prerequisites:

Prior training in Advanced Burn Life Support (ABLS) is recommended but not required

Target Audience:

Hospital-based healthcare providers.

How to Register:

To register for this online training please click <https://www.nylearnsph.com> and search course catalog for: **FLRRC-008** and “enroll” for desired module(s).

***The University of Rochester Kessler Burn Center Burn Care On-Line Program is a NYSDOH HPP Pre-Approved Training. To qualify, staff must complete all modules.**

Questions Regarding LMS:

Direct questions to edlearn@health.state.ny.us.

Module Length and Objectives:

FLRRC-008.1 Initial Evaluation & Triage (50 min)

Instructor: Derek E. Bell, MD

- Classify and describe burn injuries
- Identify what injuries require a referral to a Regional Burn Center
- Prioritize assessments and treatments
- Understand & acutely manage different types of burns

FLRRC-008.2 Airway Management (13 min)

Instructor: Robert Dorman, BSN, RN-C, CCRN, C-NPT

- Discuss the three types of inhalation injuries
- Initial management and treatment of inhalation injuries

FLRRC-008.3 Transport and Transfer (12 min)

Instructor: Robert Dorman, BSN, RN-C, CCRN, C-NPT

- Criteria for a Regional Burn Center referral
- Stabilization and preparation for transfer and transport
- Transfer process

FLRRC-008.4 Fluid Resuscitation (20 min)

Instructor: Brent LaRiccica, RPA-C

- Initial Interventions
- Determining total body surface burn percentage
- Fluid calculations

FLRRC-008.5 Wound Care and Dressings (1hr 40min)

Instructor: Matthew Klapetzky, MS, RN

- Wound care
- The principle function of dressings
- The different types of dressing
- The different types of burn wounds and dressing management
