

Continuity of Operations Planning in the Health Care Sector HPP Deliverable #10

Background

This training is the first in a series of trainings to be offered over the next several contract periods. It is designed to address one of the key gaps and concerns cited by hospitals during the COOP Informational Sessions conducted in the 2014-15 contract period; that of applying continuity planning principles designed for Governmental agencies in the health care setting. Future phases will include training on various continuity planning tools and procedures that will build the competencies needed to develop a continuity plan in your facility.

Goal

Training is designed to:

- Explore why business continuity is an essential component of a comprehensive overall emergency management program;
- Describe the elements and importance of healthcare COOP, including steps to achieve and how effective COOP has benefits to everyday operations;
- Provide strategies to sell COOP to others in the organization and community; and
- Use case scenarios to demonstrate both value and applicability.

Recommended Prerequisites

- [FEMA IS 546.a: Continuity of Operations Awareness Course](#)
- [FEMA IS 547.a: Introduction to Continuity of Operations](#)
- [FEMA IS 524:Continuity of Operations Planner's Workshop](#)
