## Methamphetamine Awareness Workshop

**Wednesday, September 30, 2015**  
1PM – 4PM  
Jamestown Community College

### Presented by:
Western Region Health Emergency Preparedness Coalition (WRHEPC)

### Target Audience:
Hospitals, Public Health, EMS, Public Safety Officials, Home Health Care Organizations, Departments of Transportation

### Location:
**Jamestown Community College**  
Katharine Jackson Carnahan Center  
525 Falconer Street  
Jamestown, NY 14702-0020

### Speakers, Topics, Objectives:
The goal of the Workshop is to increase understanding and knowledge of the growing prevalence of methamphetamine use and manufacture in the Western New York Region. Experts will share how they approach the issue, potential hazards in the manufacturing and waste products and clinical challenges that result from users and burn victims.

**Law Enforcement**  
Sgt. Nathan Stobert  
Contaminated Crime Scene Emergency Response Team Leader  
New York State Police  
- Understand the current levels of meth lab activity in Western New York and how law enforcement uses detection and enforcement when encountering a meth lab.

**Public Health**  
Nathan Walz  
Public Health Specialist  
NYSDOH Bureau of Toxic Substance Assessment  
- Discuss the potential residential and environmental health issues in the manufacturing of methamphetamines.

**Hazmat**  
Bruce Oliphant  
Fire Protection Specialist, Special Operations Branch,  
NYS Division of Homeland Security & Emergency Services, Office of Fire Prevention & Control.  
- Explore the current guidelines regarding the hazards and mitigation strategies for Responders, Health Care, and victims seeking care for exposure and/or contamination to methamphetamine events.

**Medical Care**  
Kristen Murphy, RN, MS, CCRN  
Burn Program Manager  
University of Rochester Medical Center - Kessler Burn Center  
- Describe the Kessler Burn Center experiences and challenges in providing care for meth related burns and injuries.
