Driving away fear and improving outcomes
When Dr. Julie Natale, RN, noticed how fearful her pediatric patients were when they had to walk from the waiting room to the radiation treatment area, she knew she needed to do something to ease their fears.

Helping kids in crisis
There is no single solution to the mental health crisis emerging among our youth. The new Golisano Pediatric Behavioral Health and Wellness building will help meet the urgent demand for care in our area.

Immune cells repair, rewire brain while we sleep
New URMC research has broad implications for diseases like autism, schizophrenia, and dementia, as well as the brain’s ability to fight off infection and repair damage following a stroke or other traumatic injury.

Pioneering minimally-invasive heart surgery
Pioneering efforts by UR Medicine surgeons led to FDA approval of a new technique for implanting a life-saving heart pump. The procedure is less invasive and allows patients to recover faster and go home sooner.

The Discovery Ball
May 2, 2020
The Wilmot Cancer Institute leads the region in cancer treatment and is internationally known for research discoveries that have changed the standard of care. As Churchill Downs comes to town, join us for a night to champion continued excellence in cancer research and care.

Make a gift to the medical center
Private philanthropy helps us recognize outstanding scholars, supports vital research, bolsters life-saving facilities and technology, and provides the best possible care for our patients and their families. You can make a difference.
