Rochester joins late-stage COVID-19 vaccine study
URMC is conducting Phase 3 clinical trials of a potential coronavirus vaccine developed by Pfizer and BioNTech. Four volunteers in Rochester were the first in the U.S. to receive the experimental vaccine.

URMC clinical trials offer extra treatment options for COVID-19
When the first COVID-19 cases hit, there were no proven treatments available, but experimental therapies were emerging. URMC researchers and clinicians quickly mobilized to bring the most promising clinical trials—from antiviral drugs and monoclonal antibodies to convalescent plasma—to Rochester.

Reshaping and strengthening URMC's inclusive culture
A change in URMC leadership has dedicated more resources to building an anti-racist culture, while establishing a new center to advance gender and leadership.

UR Medicine opens city's largest mental health services center
City residents now have easier access to mental health services with the July 27 opening of UR Medicine's Adult Outpatient Mental Health Services center on North Chestnut Street.

Our youth's mental health in challenging times
Thursday, August 27, noon—1 p.m. Learn how to help the children, adolescents, and young adults in your life cope and build resilience with today's most prevalent mental health struggles in this virtual event presented by Dr. Michael Scharf, chief of the Division of Child and Adolescent Psychiatry. This event is part of the Experience Rochester series, created to bring the very best of UR directly to you with topics and speakers unique to the University.
