Drew Costanza: Grateful to be alive

February is American Heart Month, a time to recognize what our community can do to prevent and treat heart disease. It is also a time to celebrate the incredible stories of our patients. This heart month, 61-year-old Drew Costanza is thankful to be alive thanks to expert medical care at the University of Rochester Medical Center (URMC).

Advances happen here

Every day at UR Medicine locations across our region, you’ll find people seeking answers—seeking cures—seeking hope. And that’s why we’re here. From breaking down the barriers to equitable care, to making a child’s stay less scary, see how we’re advancing care and transforming medicine.

Can hearing loss be reversed?

The most common cause of hearing loss is progressive because hair cells—the primary cells to detect sound waves—cannot regenerate if damaged or lost. Now, researchers at the Del Monte Institute for Neuroscience are getting closer to identifying the mechanisms that may promote this type of regeneration in mammals.

Save the date: Stroll for Strong Kids and 5K

Sunday, June 4

Let’s gather teammates, lace up our sneakers, and get moving for a great cause: the Golisano Children’s Hospital. This fan-favorite fundraiser goes to support important programs that serve our mighty kids and loved ones. Whether you pledge, walk, or run, it’s a fun event that makes a big impact on little lives.
