Making Autism Care Ever Better!

The new William and Mildred Levine Autism Clinic is now open!

2

Making Autism Care Ever Better!

Key attributes of the new clinic:

- Patient and family-friendly space designed specifically for children with autism and other developmental disabilities
- Fully accessible to children who require wheelchairs, or other mobility devices
- Special attention to safety needs of children with autism and other developmental disorders
- Calming sensory environment
- Physical layout and visual supports to assist children with transitions
- Specialized space for behavioral treatments and feeding therapy
- Sensory calming room
- Family Library, where parents can meet with our Family Navigator
- Improved collaboration between Developmental and Behavioral Pediatrics, Child Neurology, and Child Psychiatry
- Convenient and free parking

3

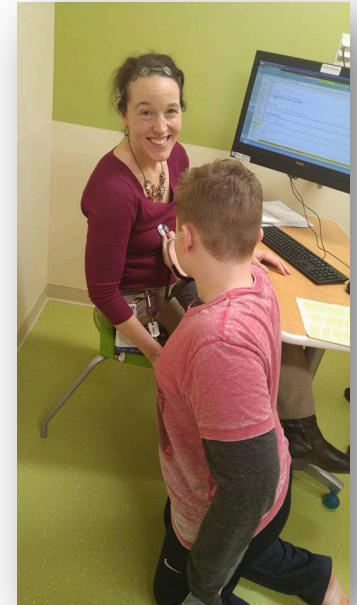

Making Autism Care Ever Better!

The new Developmental and Behavioral Pediatrics Clinical Services location, including the William and Mildred Levine Autism Clinic, will immeasurably improve the way children and youth with autism experience their care.

Making Autism Care Ever Better!

The services patients need, and the providers they see, are together in one space to provide care that is truly patient and family oriented.

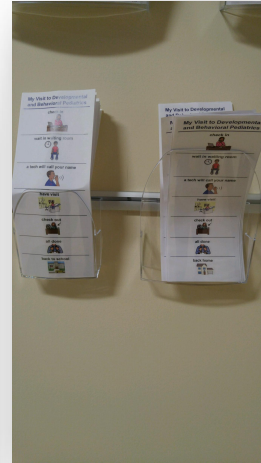

Making Autism Care Ever Better!

Our sensory waiting rooms provide the quiet space our patients require, patient rooms are less distracting, and we have several “touch down spots” where patients who are experiencing difficulty are able to calm themselves in private alcoves.

Making Autism Care Ever Better!

The layout of the new clinic along with the implementation of visual supports helps make transitions easier for our patients.

Making Autism Care Ever Better!

Patient rooms are now less distracting and we even have specialized rooms for behavioral treatments and feeding therapy.

Making Autism Care Ever Better!

We have plenty of new storage space for ADOS kits and other supplies used to provide care for our patients.

Making Autism Care Ever Better!
