DEPARTMENT OF NEUROLOGY
50TH ANNIVERSARY GIFT CAMPAIGN

Since 1966, UR Medicine's Department of Neurology has established a legacy of enduring excellence as one of the top neurology departments in the country, excelling at research, education, and patient care. As we enter our 50th year, this is a wonderful occasion to reflect on the Department's significant impact on our lives and the lives of people around the world.

You have the opportunity to join us in honoring our semicentennial with a gift that will make a difference now or for the life of the University. Gifts can be made in honor of a faculty member who had a memorable impact on you, and there are many ways in which you can help. Three of our funding priorities are listed below and on the back of this piece. Please contact Brenda Geglia at: (585) 276-4570 • bgeglia@admin.rochester.edu for additional opportunities. Visit event.urmc.edu/neuro to make a gift or learn more about the 50th anniversary celebration. Please join us.

Funding Priorities

ROBERT C. AND ROSALYNE H. GRIGGS PROFESSORSHIP IN THE EXPERIMENTAL THERAPEUTICS OF NEUROLOGICAL DISEASE

Robert C. Griggs, M.D., ’71M (Res) is professor of Neurology, Medicine, Pathology and Laboratory Medicine, Pediatrics, and the Center for Human Experimental Therapeutics at UR Medicine. He served as chair of the Department of Neurology and as Neurologist-in-Chief at Strong Memorial Hospital from 1986 to 2008, during which time the department witnessed major growth in research funding and faculty. Dr. Griggs is a leading authority on muscular dystrophy and channelopathies and has received numerous awards and recognitions. In 2013, the Griggs Professorship was established with a lead gift from Dr. and Mrs. Griggs. We seek to acquire additional gifts to fully fund and award a professorship in their names.

Goal: $600,000

(Additional priorities on back)
**ROBERT J. JOYNT NEUROLOGY RESIDENT EDUCATION FUND**

Dr. Robert Joynt was one of the most influential neurologists of the last half century, and the founder of UR Medicine’s Department of Neurology. Thanks in large part to Dr. Joynt’s teaching prowess, Rochester quickly became a top choice for young neurologists in training. The purpose of the fund is to provide financial support to adult and child neurology residents for travel to educational meetings and international electives, and to support other educational initiatives for our residents that could not be funded otherwise.

**Goal:** $400,000

**NEUROLOGY ALUMNI RESIDENT OFFICE**

Our Neurology Residency Program is considered one of the premier programs in the nation whose graduates hold distinguished careers in academics and practice that encompass research, education, and patient care. Due to this reputation, our program has grown to six residents per year. In order to meet the demands of this growth, we seek to create a new and larger adult neurology office and state-of-the-art equipment to provide the best training environment for our talented residents.

**Goal:** $150,000

For more information about making a gift, please contact Brenda Geglia at: (585) 276-4670 • bgeglia@admin.rochester.edu
