

Hospital Grade Breast Pumps – Medela Symphony breast pumps will be available to rent from the Family Maternity Center at Highland Hospital for families with babies staying in the Special Care Nursery. We will submit to your insurance company, as this service is generally covered if a baby remains hospitalized beyond mom’s discharge.

Otherwise, pump rentals can be obtained outside of the hospital. Please contact any of the local suppliers listed below, or contact Medela directly. If you have W.I.C., they may be able to assist you with a pump rental.
