

JAMES P. WILMOT CANCER INSTITUTE
19TH ANNUAL SCIENTIFIC SYMPOSIUM
 Thursday, November 13, 2014
 Sarah Flaum Atrium and Class of '62 Auditorium
 University of Rochester Medical Center

8:00 – 8:50 a.m.	Coffee	Sarah Flaum Atrium
9:00 a.m.	Welcome and Introduction	Class of '62 Auditorium
Hartmut (Hucky) Land Director of Research & Co-Director, James P. Wilmot Cancer Institute		
9:00 – 10:40 a.m.	SESSION I:	Chair: Dirk Bohmann
Archibald Perkins, Pathology “Deregulation of hematopoietic progenitor self renewal and differentiation by the evil oncoprotein”		
Jacques Robert, Microbiology and Immunology “An intravital tumor microenvironment model in the <i>Xenopus</i> tadpole”		
Minsoo Kim, Vaccine Biology "Optogenetically engineered T cells for cancer immunotherapy"		
Lynne Maquat, Biochemistry & Biophysics “Attenuation of nonsense-mediated mRNA decay activity during chemotherapeutic treatment”		
10:40 – 11:00 a.m.	Coffee Break	Sarah Flaum Atrium
11:00 a.m. – 12:15 p.m.	SESSION II:	Chair: Aram Hezel
David Linehan, Surgery “Targeting the tumor microenvironment in pancreatic cancer”		
David Hicks, Pathology "The challenge of pre-analytical variables in surgical pathology specimens"		
Michelle Janelsons, Surgery-Cancer Control “Clinical and translational approaches to understanding and ameliorating cancer-related cognitive impairments”		
12:20 – 1:00 p.m.	Davey Award and Lecture	Chair: Hucky Land
DAVEY AWARD PRESENTATION Davey Family		
2014 DAVEY AWARD LECTURE: Andrei Seluanov, PhD (Presenter) and Vera Gorbunova, Biology “Mechanisms of cancer-resistance in the naked mole rat”		
1:00 – 3:00 p.m.	Lunch & Poster Competition	Sarah Flaum Atrium
3:00 – 3:45 p.m.	Underberg Lecture	Chair: Hucky Land
INTRODUCTION Joyce Underberg		
UNDERBERG LECTURE: Lewis C. Cantley, Weill Cornell Medical College, New York City “Targeting phosphoinositide 3-Kinase for cancer therapy”		
3:45 – 4:00 p.m.	PRESENTATION OF POSTER PRIZES	Hucky Land
