

Active Shooter Workshop Hamburg, NY - 8 March

Overview: Preparing employees for a potential active shooter event is an integral component of an organization's incident response planning. Because active shooter incidents are unpredictable and evolve quickly, preparing for and knowing what to do in an active shooter situation can be the difference between life and death. Every second counts.

This workshop will go into greater detail than the 2-hour monthly active shooter webinar that CISA offers. Attendees will leave with a running start on developing an active shooter preparedness program for their own organization.

Objectives:

- Provide information about best practices, communications protocols, and resources that will assist stakeholders to develop or enhance their emergency planning, preparedness, and response to active shooter incidents.
- Discuss the elements of active shooter incident response planning with guidance from expert instructors.
- Describe common behaviors, conditions, and situations associated with active shooter events.
- Discuss how to recognize potential workplace violence indicators.

Registration Instructions: **Advance registration is required.**

On the calendar inside the registration link above, please navigate to March 8th and select the 8:00 AM timeslot that appears on the right, then add your information at the bottom of the page to complete your registration.

Questions: For additional information please contact Central NY Protective Security Advisor Pete Owen at peter.owen@hq.dhs.gov or Cyber Regional Training and Exercise Coordinator Phillip Milbouer at phillip.milbouer@cisa.dhs.gov.
