

Pediatric Emergency Assessment, Recognition & Stabilization (PEARS)

FLRTC-PEARS2019-BP%

Background:

This course is set up for healthcare providers who infrequently see critically ill children and any healthcare provider who might encounter pediatric patients. This course is not intended for those credentialed for advanced pediatric skills that routinely provide pediatric care.

Course Description:

PEARS teaches providers how to recognize respiratory distress, shock and cardiac arrest, and provide appropriate lifesaving interventions within the initial minutes of response until the child is transferred to an advanced life support provider. The goal of PEARs is to improve the quality of care provided to seriously ill or injured infants and children, resulting in improved outcomes.

- Improves competency in pediatric basic life support
- Learning stations and practice reinforce essential skills
- Course video allows students actually see and hear critically ill children
- Enhances skills in recognizing shock, respiratory failure and cardiopulmonary emergencies

Target Audience: PEARs is for healthcare providers such as medical and surgical nurses, school nurses, emergency medical technicians (EMTs) and any other healthcare provider who infrequently sees critically ill infants and children.

Instructor:

Mindi Meath, EMT-P

Students will be provided a PEARs reference card at class. If interested, students can also purchase a PEARs eBook at the following link:

<https://www.worldpoint.com/en/aha-ebook-pears-provider>

There is no charge for this class. HOWEVER, NO SHOWS will be charged \$50.00 for the cost of the materials and course expenses.
