

The Schmitt Program for Integrative Brain Research

Support Mechanisms

Symposia

Colloquium
Presenters

Visiting Scientists

Research Awards

History

2010 Schmitt Symposium: Got Memory? Neuroinflammation and Cognitive Dysfunction in Chronic Disease and Aging

Program of Events

All lectures are in the Class of '62 Auditorium

Time	Speaker	Event
8:00 - 8:20 AM		Continental Breakfast
8:20 - 8:30 AM	Gary Paige, <i>Chairman, Department of Neurobiology & Anatomy</i>	Welcome Address
8:30 - 9:20 AM	M. Kerry O'Banion, <i>University of Rochester</i>	Neuroinflammation associated with sustained IL-1 β expression clears amyloid plaques, but impairs hippocampal learning and neurogenesis
9:30 - 10:20 AM	Staci Bilbo, <i>Duke University</i>	Enduring consequences of early-life infection for neuroinflammation and cognition throughout the lifespan
10:30 - 11:20 AM	Marina Lynch, <i>Trinity College</i>	Factors which affect age-related neuroinflammation and the associated deficit in synaptic function
11:30 - 1:00 PM	Lunch and Poster Session	Located in the Flaum Atrium
1:00 - 1:50 PM	Howard Gendelman, <i>University of Nebraska</i>	Cell-based nanoformulated drug delivery to the CNS: A new frontier for neural repair
2:00 - 2:50 PM	Bill Bowers, <i>University of Rochester</i>	Elucidating the cell- and stage-specific role(s) of TNF-alpha during Alzheimer's disease pathogenesis
3:00 - 3:15 PM	Coffee Break	Located in the Flaum Atrium
3:15 - 4:05 PM	Harris Gelbard, <i>University of Rochester</i>	The brain that changes itself in a model of NeuroAIDS
4:15 - 4:45 PM	Panel Discussion	Moderator: Stephen Dewhurst, <i>University of Rochester</i>
