

***University of Rochester Medical Center's Division of
Allergy, Immunology and Rheumatology***

***15th Annual Lupus Education Day
November 13, 2021***

Location: Virtual Webinar (Link will be sent via email once registered)

Time: 10:00 am – 11:30 am

We have brought this free symposium to the Rochester community yearly in order to provide state-of-the-art information to individuals with lupus and their families. It is certainly an unusual time now, and even though we cannot be with you in person, we look forward to sharing the latest news on clinical trials and new treatment approaches. It continues to be an interesting time in the world of lupus with lots of active research studies.

We hope to bring back an in-person education session in a new Spring 2022 edition.

Symposium Organizer: Jennifer H. Anolik, M.D., Ph.D.

Professor of Medicine, Pathology, and Microbiology and Immunology

Interim Chief, Division of Allergy, Immunology and Rheumatology

Associate Chair for Research, Department of Medicine

Program Director Internal Medicine Physician-Scientist Training Program (PSTP)

University of Rochester Division of Allergy/Immunology & Rheumatology
