## HANDS-ON WORKSHOP:

Developmental Endoscopy Lab at University of Rochester (DELUR)

**Objectives:** Participants will learn best practice paradigms in routine endoscopic care and the latest advances in therapeutic and interventional endoscopy.

**Target audience:** GI nurses, technicians and advanced practice providers who are interested in improving their endoscopy practice and learning about new technologies, techniques and devices in endoscopy.

**Format:** Didactic lectures, live case presentations and a "hands-on" workshop utilizing models, animal explants and live animal platform. The program will focus on current general and advanced endoscopic therapies for treatment of benign and malignant disorders of the gastrointestinal tract, liver, pancreas and biliary system.

**Attendance:** Limited to 240 people for the didactic component of the course. Hands-on workshop limited to the first 84 (of above 240) registrants.

Special thanks to all the providers, nurses and staff of the Division of Gastroenterology & Hepatology who made this event possible.
