Journal Cover & Description December 2018; volume 86, issue 12

Cover image

Cover photograph: Transmission electron micrograph of *Staphylococcus aureus* bacteria in the canaliculus and osteocyte lacunar space of a patient with a diabetic foot infection. An immunoassay to detect and track such infections is presented by Oh et al. in this issue. The patient from whom this sample was prepared was one of the cohort of infected patients described. (See related article at [e00629-18](#).) (Courtesy of Karen L. de Mesy Bentley, University of Rochester Medical Center, Rochester, NY; reprinted with permission.)
