

Strong CMSR Representation at the 2020 ORS Meeting

The Center for Musculoskeletal Research continues to be among the best represented at the Annual Meeting of the Orthopaedic Research Society (ORS). The 2020 meeting took place in Phoenix, Arizona Feb 8-11, 2020.

The CMSR had more than 30 scientists presenting work at the meeting, including podium presentations from CMSR Trainees: Anne Nichols (Loiselle Lab), Gowri Muthukrishnan (Schwarz Lab), Yugo Morita (Schwarz Lab), Katie Best (Loiselle Lab), Mark Ninomiya (Schwarz Lab), Keshia Mora (Buckley & Loiselle Labs), Phong Nguyen (Kuo Lab). The excellent work by CMSR trainees was further highlighted as Katie Best (Loiselle Lab) and Keshia Mora (Buckley & Loiselle Labs) received Podium Presentation Awards from the ORS Tendon Section, while Anne Nichols (Loiselle Lab) received an Education Grant from the OrthoRegeneration Network, and Yugo Morita (Schwarz Lab) was a finalist for a New Investigator Recognition Award (NIRA).

In addition, Dr. Hani Awad presented a Spotlight Talk “Emerging Paradigms in Tendon Healing”, while Dr. Schwarz co-organized a Research Interest Group Session on Musculoskeletal Infection, and Dr. Loiselle organized a Career Development Session on Leveraging Sabbaticals.
