Creating an Interdisciplinary Care Continuum

An Overview for Medical Providers

Thursday
September 17, 2015

The Main Place
251 Main Street
Hornell, NY 14843
6:00 p.m. - 8:30 p.m.

**Southern Tier
Neuromedicine**
a division of
Rochester Neurosurgery Partners

Department of Neurosurgery
University of Rochester Medical Center

This conference will take place at:

The Main Place Restaurant
251 Main Street
Hornell, NY 14843

Who Should Attend

This activity is intended for primary care physicians and mid level providers, chiropractors, pain management physicians, ER doctors, neurologists, neurosurgeons, spinal surgeons, podiatrists, & other providers who care for patients with spinal disorders.

Objectives

At the conclusion of this activity participants should be able to:

- Explain the basis for back pain without trauma, introducing flexibility and ergonomics.
- Define anatomical and clinical considerations of stenosis and radiculopathy.
- Describe MR imaging and appearance of common spinal disorders.
- Explain how to ‘demystify’ the MRI report.
- Describe the use of longitudinal multidisciplinary care in the management of back pain.
- Explain the importance of improved communication and decreasing variability as a way to improve back pain care outcomes.
- Explain the importance of shared decision making and patient active care.
- Describe how to manage the ‘curative fantasy’ in back pain patients.
- Recognize non-spinal causes for back pain.

Schedule of Events

5:30 pm	Registration
6:00 pm	The Epidemiology & Etiology of Spine Disorders.
6:30 pm	Model for Spine Care in our Community: Challenges and Solutions
7:15 pm	Question and Answer
7:30 pm	Access to Spine Care: The PCP Perspective
8:00 pm	Use of a Multi-Disciplinary Approach to the Treatment of Spine Disease
8:30 pm	Session Close
