Dr. J. Chad Teeters

To say that 2021 was a year of change would be an understatement. From the retirement of my long-tenured, distinguished predecessor, Amy Pollard, to emerging from the first waves of the pandemic only to be thrown into the highest peak of the COVID surge since the outbreak began, Noyes Health and our dedicated staff have persevered and continued to provide exemplary care for our community. My first months in this role have been tremendously rewarding as we have begun to turn the page in Noyes' history and become the regional leader in providing care for Livingston County and the surrounding region. As we close out the first 50 years of Noyes Memorial Hospital operating in our current location, we are beginning to see a path towards new possibilities that will sustain us for the next 50 years and beyond. Throughout this report we will highlight new facilities and programs that are allowing us to offer advanced clinical services and keep care here at home. We have entered this year with the guiding motto: *the care you need in the place you trust.*

No summary of the health system's performance can start without first calling attention to our talented and dedicated employees

PRESIDENT'S REPORT

and Medical Staff. We began 2021 with new hope and vaccines being administered. We ended, like all hospitals around the country, by weathering high vacancy rates due to vaccine mandates, early retirements, and an unprecedented move of health care professionals leaving their jobs to pursue sometimes lucrative travel positions. Through all of this, I am proud to say, our staff not only endured, but thrived. Our quality ratings improved and we were cited by the US News and World Report as a High Performing Hospital in Maternity Care with the highest rate of breastfeeding achievement in New York State and one of the highest in the country, an uncommon citation for a Hospital our size. We ended the year with patient beds filled to capacity and routinely boarding patients in our Emergency Department to care for the high influx of patients, and yet the staff never wavered. Without question, they are deserving of enormous praise for their efforts under the most trying of circumstances.

2021 saw some significant upgrades to facilities and technology within Noyes Health. First with the opening of the E. Michael Saunders Medical Imaging Center we welcomed staff and patients into a state-of-the-art Imaging Department with new PET/CT scanner, newly-refurbished Interventional Radiology Suite and Nuclear Imaging camera. This was made possible

through a gift from the Saunders Foundation and allows the region to have access to high caliber medical imaging close to home. Next, the new Noyes 3D Mammography Unit opened with advanced breast imaging capabilities in a newly-renovated suite thanks to a gift from Jane Schryver. Finally, as we look to the conclusion of 2021, we anticipate the completion of the new Avon Mental Health Center thanks to matching gifts from Ann and Carl Myers and New York State and a final grant from Livingston County to support the extension of this critical service line. Last, but certainly not least, we ended the year by opening the first half of the newly-renovated Jon Shay Medical Surgical Unit at Noyes in honor of a dear friend and benefactor to Noyes and the entire community. Both Avon Mental Health and the completed Jon Shay Medical Unit will open fully in 2022.

Finally, at a Board level, we thanked Jim Culbertson for his years of service as Chairman of the Hospital Board and we welcomed Domenick Martello as our new Board Chair. Fortunately, Jim Culbertson will be staying on with us as Treasurer, Richard Rizzieri is now First Vice Chairperson, and Matthew Cole is Second Vice Chairperson with Marilyn Moore continuing on as Secretary. We also welcomed two new Board members this year with Barb Frazer and John Quinlan joining us. We

FOUNDATION BOARD REPORT

Thomas Wamp

are fortunate to have such excellent and dedicated community stewards leading our Board.

In conclusion, it has been a tremendous first six months for me since taking over as President/CEO. This community has been so welcoming, and the dedication to this organization has been so palpable from staff and community members alike. I consider myself very fortunate to have been chosen to helm this organization that is as rich in promise of things to come as it is in history of what has come before. It is my commitment to this community to revitalize Noyes Health to become the beacon for healthcare delivery in the Southern Region and to growing existing service lines while developing new. I anticipate many great developments in the years ahead, and I look forward to being able to share them with all of you.

**J. Chad Teeters, MD,

President/CEO

NOYES WELCOMES NEW PROVIDERS

Irene Elliot, RNFA
Michael Farrell, CRNA
Christine Lavorato, NP
Mathew Meyer, CRNA
J. Chad Teeters, MD
Javeria Zaidi, MD

When we began 2021, our expectations were high that the worst was behind us, but it was quite the opposite. COVID cases were on the rise and controversy ensued over vaccination mandates. As a result, Noyes Health lost many employees and worked diligently to provide quality health care to our area residents. They should be recognized for their extraordinary efforts. At the same time, the Foundation was tasked with continuing to support the programs and services of Noyes Health, and I commend the Board members and the community for stepping up to the challenge.

The Dansville area and especially Noyes Health were extremely saddened by the passing of our community leader and mentor, Jon Shay. His unending passion and commitment to all of us will surely be missed. However, I am pleased to report that a memorial fund was established in his honor to renovate the Third Floor of the Hospital and the Foundation has currently received donations and pledges in excess of \$440,000. Many individuals, organizations and community groups have found ways to support this fund in Jon's memory, such as the Dansville Rotary Club,

Dansville Lions Club, Empire Realty, Tom Welch Golf Tournament and the 5k Turkey Trot. In addition, the Cancer Center has continued to receive strong support from a number of individuals and groups such as Sickly's Squad and Footin' It for Family Team, who have again raised significant dollars to improve our quality of care. We also salute Jane Schryver, Phil and Carole Saunders, and Ann and Carl Myers, who are always thinking about the well-being of Noyes.

Noyes Health has always received strong support from our service area, and this year was no exception. The new Mental Health Facility in Avon is about to open. In addition to a large contribution from Ann & Carl Myers in 2020 and many personal donations, generous gifts were received from Commodity Resource Corporation, Barilla America, the Noyes Health Auxiliary, and a golf tournament, held in memory of the late Liz Green, who was a large part of the Avon community. In addition, our annual appeal was a great success, having raised over \$53,500, of which we are truly appreciative.

We have had several changes in our organization's leadership structure this year with the retirement of CEO Amy Pollard and the departure of Foundation Director Mary Sue Dehn. Both were very dedicated and did a great job for Noyes and we wish them well. At the

same time we welcome Dr. Chad Teeters as our new CEO and Lynn White as our new Foundation Director. They bring considerable experience and enthusiasm to the table, and we look forward to working with them. We also welcome Kelly Shay Hoag as our newest Board member. She will help us to carry out the Foundation's mission.

When I look back at all the obstacles that our service area has encountered with the pandemic and all its restrictions, I am always amazed by the outpouring of support our Hospital has received from its employees, volunteers and donors. Noyes Foundation is forever grateful for this support, and I can say with some level of confidence, that we will be holding some type of "Gala" event in 2022 to thank everyone. We are really fortunate to be living in a community environment where people really care about the health and well-being of their neighbors. Thank you again for all your support and we look forward to getting back to some type of normal in 2022.

CHIEF MEDICAL OFFICER REPORT

Dr. Bilal Ahmed

In late 2020, the first COVID vaccines were administered to frontline healthcare workers, which we hoped marked the beginning of the end to the pandemic. Over the course of 2021, more vaccines were developed and administered.

In August, New York Governor Andrew Cuomo

announced that all healthcare workers would have to have the first dose of the COVID vaccine by September 27 in order to keep their jobs. Noyes was very diligent to adhere to the law and did very well as far as staff retention was concerned. That said, it was very sad to see some people choose to leave rather than receive the vaccine.

As the year went on, the virus became less aggressive, but more virulent. Livingston County mirrored the state-wide numbers, ending 2021

with the highest rate of positive COVID tests since the beginning of the pandemic. This made it clear the virus wasn't going away. We needed to continue with all of the preventative measures, social distancing, masking, disinfecting, etc.

Everyone in the Hospital began preparing for the transition to the Epic Medical Record System that would be happening in March 2022. This would allow information to be shared more easily, improve care, generate more contact with

outpatients and improve healthcare in general.

Looking ahead, Noyes aims to fortify its Intensive Care Unit to reduce the need to transfer patients to Rochester. Our aim is to make Noyes a destination for highly complex patients.

Throughout the year one theme was constant: staff retention and recruitment. We appreciate our staff and will continue to create an environment where people feel valued and respected, which is the best way to retain employees.

BOARD CHAIR REPORT

Domenick Martello

Just when you thought the worst of COVID was over, the pandemic came back with a vengeance. Lives were lost, and federal and state regulations impacted hospitals and healthcare providers across the state.

Once again, the Noyes workforce demonstrated their dedication to the Hospital, the community and patients who came in to seek treatment. This is yet another example of our great staff doing great things.

The surge may have returned, but forward progress was not at a

standstill in 2021. Business improvement plans were developed and put in motion. The E. Michael Saunders Medical Imaging department was completed, bringing state-of-the-art imaging services to Dansville.

The Avon Mental Health Building went from being a field off of Interstate 390 to a full building, nearly ready to see patients in just a few months.

The business unit and finance department saw positive change and an upgrade in service delivery. The entire Hospital Staff was, and still is, dedicated to making their mission each day the provision of outstanding care to everyone. An example of great people doing great things.

As Board Chair, I want to extend to each of our 500+ employees the Board's gratitude for your hard work each and every day. Your efforts make Noyes a Hospital of distinction.

One of the biggest changes the hospital saw was the change in leadership, with former CEO Amy Pollard retiring, and Dr. J. Chad Teeters talking the helm.

Excellence was replaced by excellence.

The Board has thoroughly enjoyed working with Dr. Teeters and has welcomed his ideas to continue to bring new service lines to Noyes and grow the Hospital.

His relationship with staff, his work ethic, his plans for growth at Noyes, based on data and metrics, are to be admired. The Board looks

forward to a long and fruitful relationship. He is truly a great person doing great things.

While we hope the worst of COVID is behind us, I have complete faith the staff at Noyes is prepared to handle anything thrown at them with grace and professionalism. It will be exciting to see what 2022 brings.

Noyes Health received hundreds of holiday cards from Dansville and Hornell school students to brighten their spirits.

MESSAGE FROM NOYES CHIEF FINANCIAL OFFICER

Mark Prunoske

The last year continued the evolution of the healthcare landscape.

In 2021, Noyes was the benefactor of Provider Relief Funds which bolstered our revenue to address the continued impact of COVID on the healthcare system. The Hospital experienced declines in volumes related to state imposed elective procedure restrictions and patients delaying seeking treatment.

At the same time, the Hospital experienced spikes in volumes related to COVID testing and emergent and urgent care services. Staffing challenges continued throughout the year with a record number of job openings, a greater reliance on agency and contract staff and environmental pressures that required significant investment in salary and wages.

As we look forward, our financial focus will be on growing our revenue through growth of new services in Diagnostic Imaging, increasing occupancy in the Hospital through transfers, expansion of our Pain Management program and growth in our Mental Health program with our new location in Avon.

Noyes Health Capital Expenditures

Reinvestment into our facilities and equipment are essential to Noyes' ability to deliver high quality care in a setting that meets the patient's expectations. The following major projects were completed or started in the last year: Update and renovation of the Third Floor including room renovations and a new nursing station. Diagnostic Imaging space to house our new PET Scan and Interventional Radiology Suite. Construction of a new building in Avon to house our new Mental Health site. Significant investments into a new Electronic Medical Record and Enterprise Resource Planning systems.

Footin' it for Family

The annual Footin' it for Family 5K raised a record \$25,000 for the Ann and Carl Myers Cancer Center at UR Medicine Noyes Health. This brought the total they have donated to the Cancer Center to over \$70,000 since 2012.

DR. J. CHAD TEETERS NAMED CEO

services throughout the communities we serve, Dr. Teeters was clearly the best candidate to successfully lead Noyes," said then-Board Chair James Culbertson. "His energy and enthusiasm were palpable during his interview."

Teeters served as Chief of UR Medicine Highland Hospital's Cardiology Division from 2009 to 2020, and has also served for three years as Executive Medical Director for Accountable Health Partners (AHP), a clinically integrated

network of hospitals, University of Rochester medical faculty and community physicians.

Teeters received his medical degree from the University of North Carolina at Chapel Hill and completed his residency in Internal Medicine and fellowships in Cardiovascular Disease and Preventive Cardiology at the University of Rochester. He is board certified in Internal Medicine and Cardiovascular Disease.

"I am grateful for this opportunity to begin

working with the dedicated, talented Noyes team and getting to know the community we serve," Teeters said. "This century-old institution with strong roots embedded in community care has evolved to become what it is today: a comprehensive healthcare hub that ensures high-quality, high-tech care, close to home for Livingston County and its neighbors. I look forward to helping Noyes further flourish in the years ahead as we continue improving the health of this great community."

Effective May 1, Dr. J. Chad Teeters took over as Noyes Health's new President and CEO.

"Given our strategic goals, which include expanding

AMY POLLARD RETIRES

Noyes Health CEO Amy Pollard retired in April after leading the hospital for a decade.

Noyes became an affiliate of UR Medicine in 2016, shepherded by Pollard as she worked to attract new specialists and other providers to the region. Under her direction, Noyes expanded emergency

services, cancer care, mental health and wellness programs as well as the imaging center.

"Our Board expresses its sincere gratitude and respect to Amy Pollard for the outstanding job she has done as President and CEO over the last 10 years," James Culbertson said. "Under Amy's leadership,

Noyes has expanded services and facilitated the affiliation process that made Noyes Health part of UR Medicine, increasing access to coordinated care for the region. Amy leaves Noyes Health with a solid foundation for continued growth based on the relationships she has cultivated with providers, staff, local and state government, civic groups and

the University of Rochester."

After her retirement, the Board Room at Noyes Memorial Hospital was officially renamed the Amy A. Pollard Board Room.

The furniture in the Board Room was replaced, thanks to a generous donation from the Shay family, and a sign now hangs outside the door bearing her name.

A huge **THANK YOU** goes out to the Sick family who donated the proceeds of their annual Chicken BBQ/Pork Roast/raffle fundraiser to the Ann & Carl Myers Cancer Center at Noyes. The 2021 total came to over \$10,000!

MENTAL HEALTH AND WELLNESS BUILDING IN AVON NEARLY COMPLETE

UR Medicine Noyes Health's new Mental Health and Wellness Center in Avon held its groundbreaking and nearly finished construction by the end of 2021.

The groundbreaking, attended by nearly 100 people, emphasized how welcome the new building is in the community.

The \$1.06M property will house eight patient treatment rooms, waiting area, and a group treatment room. There will also be an area outside where visitors and community members alike can enjoy the outdoors. The practice will be located in the James Steele Commerce Park in East Avon, just off Exit 10

on Route 390.

Once the need was identified, then the task of finding funding was underway. Noyes received a \$348K grant from New York State, which was matched by a generous \$350K donation from Ann and Carl Myers.

The building will be dedicated in memory of Elizabeth "Liz" S. (Griswold) Green, a beloved member of the Avon community. Green passed away unexpectedly in February of 2019. She was the Social Worker at the Avon Primary School, as well as the Livingston County Violence Prevention Trainer for over 18 years.

The official groundbreaking for UR Medicine Noyes Mental Health and Wellness building in Avon was held June 16. The building is expected to open and start seeing patients at the end of 2021 or beginning of 2022.

LUNG CANCER SCREENING NOW AVAILABLE AT NOYES

Detecting cancer early is the best chance to have a positive outcome. That's why Noyes Memorial Hospital is excited to announce the addition of a state-of-the-art low-dose lung cancer screening program. Patients can schedule appointments in Dansville and Hornell. The program will expand to Jones in early 2022.

What is a low dose CT Scan?

The low-dose CT scan uses X-rays to create detailed 3-dimensional photos of your lungs. A minimal amount of radiation is used for this test compared to some other diagnostic CT studies.

For this painless test, patients will lay on a table as it passes through the CT scanner. The scans are read by a University of Rochester Radiologist.

Who should get screened?

You, or a loved one, should be screened if you meet the following criteria:

- Are age 50-80
- Are a current smoker or have quit in the past 15 years
- Have at least a 20 pack-year history of smoking. A pack-year is 1 pack of cigarettes per day per year. So, 1 pack per day for 20 years or 2 packs per day for 10 years would both be 20 pack-years.

"We are thrilled to be able to offer this program and testing at Noyes," said Dr. J. Chad Teeters, President and CEO of Noyes Health. "Livingston and Steuben Counties have some of the highest smoking rates in New York State. It is important to catch cancer early to assure the best possible outcome. The addition of the low-dose lung screening program is a large step toward that goal."

To schedule your screening, call 877-728-4543 or talk to your healthcare provider.

For more information, visit lungcancerscreening.urmc.edu

FALL RATE GREATLY REDUCED

DeNae Gibson, Director of Performance Improvement/Quality

At the end of 2020 Noyes started to see an increase in falls. This is attributed to the rise of COVID, an increase in the acuity of patients and stopping visitation of friends and family.

This increase led the Quality Department choosing falls to be the focus for performance improvement and safety project for 2021.

A committee was created to decrease falls in 2021 and bring awareness to our rates.

Every chart where a patient fell was audited. Following the audits, staff were educated in real time on fall prevention, and provided clarity of their roles and expectations of their actions in falls prevention.

Guiding principles related to fall prevention and protection from injury:

- Some falls cannot be prevented; in these cases, the focus should be on proactively preventing fall injuries and decreasing the frequency of falls.
- Fall prevention is a shared responsibility within healthcare and throughout the institution.
- Person and family-centered care is foundational to the care of people at risk for a fall, and fall injuries. The risks and benefits for the person should be considered

when implementing interventions to fall prevention and protection from injury.

Preventing falls and minimizing injuries is difficult and complex. Our organization has competing priorities which lead to fall prevention. Protection from injury management is being placed under one discipline addressed by Nursing. Fall prevention and protection from injury must be an organizational focus with all employees understanding their role and the impact that they can have in creating a culture of safety.

To help prevent falls in 2021, we implemented the following measures:

- New beds that can be set lower to the floor and have three settings of exit alarms for high risk patients. Floor lights from the beds can be seen from the door way so staff know that safety settings are appropriate.
- The new Fall Risk Scale went into use July 1, 2021, and staff was educated on its use. This begins when the patient is admitted and is used throughout the patient's stay to monitor for status changes.
- New door markers for confused patients allowed all staff the ability to see that the patient in that location was at fall risk so they could help to increase

monitoring.

- Installed Fall Tips Posters in patient rooms. These communicated the needs of patients to staff, patients and caregivers. They helped to identify patient fall risks and equipment needed to help prevent falls.
- Ongoing education with staff during fall audits.
- All future employees will be oriented to this quality plan

and be expected to understand the importance of fall prevention and protection from injury actions.

- For any falls that do occur, we use them as teaching points when appropriate.

As a result of the implementation of these actions, fall rates fell from 13 falls per 1,000 patients to 5 falls per 1,000 patients.

Chip In Fore Noyes Annual Golf Tournament

The Chip In Fore Noyes Annual Golf Tournament was a huge success. The event, organized by the Noyes Health Auxiliary, is one of the biggest Auxiliary fundraisers of the year.

NOYES BIRTHING CENTER CLASSIFIED AS HIGH PERFORMING

UR Medicine Noyes Health has been recognized as High Performing in Maternity Care (Uncomplicated Pregnancy) by U.S. News & World Report.

“High Performing” is the highest rating U.S. News awards for that type of care.

To be recognized among the Best Hospitals for Maternity, hospitals had to excel on multiple

quality metrics that matter to expectant families, including complication rates, C-sections, whether births were scheduled too early in pregnancy, and how successfully each hospital supported breastfeeding. Only one-third of the hospitals evaluated by U.S. News for maternity care earned a ‘High Performing’ rating.

Roughly 400 babies are born per year at Noyes.

3D MAMMOGRAMS NOW AVAILABLE AT NOYES HEALTH

A new Tomosynthesis 3D mammography machine was installed in the Hospital. This uses the most advanced technology to take images of your breast from different angles, and combines them to create a more complete and accurate image than regular 2D digital mammography.

Studies have shown that Tomosynthesis finds invasive cancers at a 40% higher rate than regular 2D mammograms. It can also pinpoint hard to find cancers that may otherwise be unnoticed, particularly in areas of dense tissue.

3D mammography follows the same basic procedure that you’re probably accustomed to with regular 2D digital mammography. In addition to the new machine, the Mammography Suite also got a complete renovation.

Thomas Welch Golf Tournament

Thomas Welch Memorial Golf Tournament organizers graciously gave a check for \$1,500 that was raised at holes 9 and 13 during the tournament. Pictured are: Joshua Conklin, Bill Bacon and Kelly Hoag of the Foundation for Noyes Health, Marcia Miller, Dr. Chad Teeters - President and CEO of Noyes Health, Anne Murphy, Sarah Roberts Welch, and Katie Infantino. Tom Welch was a native of Dansville and 1982 graduate of Dansville High School. His passion was information technology, engineering, and, of course, golf. Tom was a dedicated husband to his wife of 28 years, Sarah. After Tom passed away in 2014, his friends and family chose to honor his memory by establishing a scholarship fund to support local college students studying IT and engineering.

PET/CT SCANNER

E. MICHAEL SAUNDERS MEDICAL IMAGING OPENS

The new department features the addition of a PET/CT scanner, supporting the patients of Noyes' Ann and Carl Meyers Cancer Center and others with the medical imaging they need right in Dansville, rather than having to travel to Rochester or farther.

The facility was made possible in large part by the Saunders Foundation, which in 2018 provided a generous \$1 million gift to support the project and to honor the memory of E. Michael Saunders, the son of Phil and Carole Saunders. In addition, a Statewide Healthcare Facility Transformation Program grant provided over \$1.5 million in funds.

E. Michael Saunders Medical Imaging includes:

- A new PET/CT scanner
- A new interventional radiology (IR) suite
- A 1.5T MRI scanner
- An advanced GE630 nuclear medicine camera that provides advanced imaging and an enhanced patient experience, cutting scan time or radiation dose in half

- Ankle-brachial index (ABI) equipment to support vascular, wound care, invasive, and podiatric specialists. Additionally, it offers complete care for port and catheter insertion, biopsies, maintenance of dialysis fistulas and other invasive procedures.

MEDICAL/SURGICAL FLOOR TO BE NAMED AFTER JON SHAY

Noyes and the surrounding community suffered a huge loss with the passing of Jon Shay on January 18, 2021.

Noyes Health lost a leader, supporter and tireless champion. As a Hospital Board member and a Foundation Board member for decades, Jon's singular focus was always what was best for his community.

"The passing of Jon Shay is a loss to the entire community, but a particularly devastating one for all of us at Noyes,"

says Amy Pollard, former President and CEO of Noyes, "Jon's pick-up truck was a familiar site in the circle in front of the Hospital where he would leave it briefly to come in and share yet another idea he had come up with to promote the Hospital. All of his ideas were about making the Hospital the best it could be to serve the people in Dansville and the surrounding region. But Jon didn't just have ideas, he gave of his time and his money to make

those ideas a reality."

His passing led to the creation of the Jon Shay Memorial Fund. With initial gifts from Jon's friends Phil Saunders, Kent Johnson and Les Cole, and a larger group of donors inspired by their generosity, the fund continues to build momentum.

To further honor Jon, construction officially began on the Jon Shay Medical/Surgical Unit. The project is expected to cost \$1.1M.

"We will be completely renovating the entire floor," said Dr. Chad Teeters, President and CEO of Noyes Health. "This means new rooms, new walls, new ceilings, new beds, new chairs. The whole unit will be completely brand new.

CHRISTINA KRANZ POSTHUMOUSLY GIVEN DAISY AWARD

After a valiant battle with cancer, Christina Kranz passed away August 21 at the age of 36.

Kranz was a labor and delivery nurse, as well as a midwife at Noyes for years, and is credited for delivering over 450 babies during her career.

She was given the Daisy Award for Nursing posthumously in November.

"Christina was the epitome of beautiful, patient, kind and nonjudgmental," read one of the nominations. "She's hands down one of the best nurses I've ever met."

Lions Club Donation

Members of the Dansville Lions Club delivered a check for \$15,000 raised at the annual Lions "Fore" Noyes Golf Tournament on June 25. The funds will be used for the Third Floor renovations at Noyes Memorial Hospital. When complete, the floor will be named in memory of Jon Shay. From left: Dave Mapes, Lou Colella, Cheri Mapes, Tom Wamp, Dan Beiswenger, Dr. J. Chad Teeters, President & CEO of Noyes Health, Karen Schleyer, Elizabeth Jackson, Dansville Lions Club President, Kelly Shay Hoag, Marlene Mark, Kaylee Walker Lohrmann and Barry Haywood.
