

Financial Assistance Summary

Noyes Health has a Financial Assistance program for patients who are unable to pay medical bills. Noyes Health recognizes that there are times when patients in need of care will have difficulty paying for the services provided. Noyes Health's Financial Assistance program provides discounts to qualifying individuals based on income.

A free copy of our Financial Assistance Policy and application is available by mail, by contacting our Financial Assistance Office at 585-335-6778. This information is also available on our website and available in other languages: <https://www.noyeshealth.org>

Who qualifies for a discount?

Financial Assistance is available for patients with limited incomes and with either no insurance or with limited health insurance.

Everyone in New York State who needs emergency services can receive care and get a discount if they meet the income limits and complete the Financial Assistance application process. Everyone who resides in the Hospital's primary service area (Livingston, Steuben and Allegany counties) can get a discount on non-emergency, medically necessary services provided by Noyes Health if they meet the income limits and complete the Financial Assistance application process.

You cannot be denied medically necessary care because you need financial assistance. You may apply for a discount regardless of immigration status.

What are the income limits?

The amount of the discount varies based on your income and the size of your family.
