

Molly MacLean, RPA-C

Molly graduated from the Le Moyne College Physician Assistant program in 2001 with special recognition in surgery. She received her master's degree in 2004 from University of Nebraska. Her background includes geriatrics and inpatient medicine at Highland Hospital. Molly joined Clinton Medical Associates in 2005 and has enjoyed working with her supervising physicians to provide quality and compassionate patient care. She has special interest in smoking cessation and nutritional/weight loss guidance to help in the prevention of diabetes. Molly greatly enjoys her work as a physician assistant along with being a wife and mother.

Gregory Rosinski, RPA-C

Greg moved to Rochester in 1996 where he completed the Physician Assistant program at Rochester Institute of Technology. Greg's initial career path began as an engineer with GE Aerospace in Utica, NY, while earning a Master's Degree in Electrical Engineering from Syracuse University. After changing careers and completing his PA degree Greg joined the emergency department at F.F. Thompson Hospital in Canandaigua. He later moved to critical care medicine and held PA positions at The Genesee Hospital ICU and Rochester General's SICU. He left the hospital setting in 2003 for a rewarding position with a private internal medicine practice. Greg joined Clinton Medical Associates in February 2009 where he supports the physicians in the practice and provides both compassionate and quality medical care to their patients. In addition to practicing medicine, Greg enjoys strength training, summer gardening, travel, and free-time with his family.
