The University of Rochester’s 28th Annual Intensive

INTEGRATED CARE AND MEDICAL FAMILY THERAPY:
The knowledge, skills, and interpersonal process

June 7 – 11, 2021

The Annual Intensive on Integrated Care and Medical Family Therapy is one week (Monday—Friday) of interdisciplinary training that blends clinical presentations* (see Faculty & Presentations), small group learning, and skill development. The primary goal is to provide training for professionals interested in health care and mental health collaboration when working with patients and families dealing with illness, health concerns and trauma.

Participants will develop individualized goals at the beginning of the intensive. Goal attainment will be discussed and assessed during the final group discussion.

Participants will work in small groups, each convened by a core faculty. These groups will focus on the influence of family of origin and personal experience in one’s professional work. The groups will also provide context for case and systems consultation.

Registrations Begins: April 1, 2021

Registration Deadline: April 29, 2021
