

Registration Instructions for Existing MyPath/Achieve Users:

[Existing MyPath or Achieve User? Click Here to Login](#)

This link will take you to the MyPath login page. Once here please click the appropriate button to login to MyPath/Achieve.

The image shows the MyPath login page for the University of Rochester. At the top center is the University of Rochester logo and name. Below this, the page is divided into several sections. On the left, there is a 'Guest Users' section with input fields for 'Username/Email Address' and 'Password', a 'Login' button, and a link for 'Forgot your password?'. Below this is a 'Need Assistance?' section with a question mark icon and a link to 'Contact the MyPath Support Team'. On the right, there is a section for 'Employees of either the University of Rochester or an affiliate' with three buttons: 'MyPath University of Rochester', 'Achieve Highland Hospital', and 'MyPath Jones Memorial Hospital'. At the bottom right, there is a section for 'periFACTS® OB/GYN Academy' with a logo and text: 'Customers of the periFACTS® OB/GYN Academy should use this button to access the periFACTS® Learning Management System.' Below this is contact information: 'Need Help? Email: periFACTS Support Customer Service: 1-800-285-2366'.

Upon completing your search please click the link for the Rochester Improvement Science Education Certificate Course, please note you may need to scroll to locate the link.

On the Training Details page please click “Request” to register for the Spring 2019 course.

Rochester Improvement Science Education Certificate Program

Program - URM: Quality & Safety

This is a “mini” certificate course designed specifically for health care professionals, trainees and students from medicine, dentistry, nursing, pharmacy, hospital administration and health services research. Many of the senior clinical and administrative leaders of the University of Rochester Medical Center will serve as faculty for the sessions.

The program is designed to increase your knowledge of how to improve healthcare quality and safety and to educate you on the latest thinking and theories regarding improvement science. The program will consist of eleven individual sessions and will combine presentations and discussion. The program will include leadership’s role in nurturing a culture of high reliability, an understanding of the science of errors and safety, the model for improvement in clinical practice, identification of “measures that matter” in healthcare, teamwork and communication techniques, performance improvement tools, ways to create a safer medication system, the challenges of health literacy and patient diversity, event reporting systems, designing care to maximize value and safety, the impacts of information technology and safety and the business case for safety.
