

MOC Part IV Credit – Active Multi-Specialty Program Approved Efforts

The efforts listed below have been reviewed and approved by the UR Medicine MOC Program. Only active efforts are included. These efforts may have attestations submitted for MOC Part IV credit, given the physician meets all requirements of the **Meaningful Participation Criteria**. All attestations must be signed by the Effort Lead(s) and include information regarding the physician's **individual involvement in the QI effort**. Please contact [Pat Reagan Webster](#) if you would like to participate in any of these efforts.

<u>Effort Title</u>	<u>Effort Lead</u>	<u>Patient Population</u>	<u>Applicable Specialties</u>
