Have a tooth that needs replacing?

If you have a tooth that needs to be extracted and replaced with a dental implant, you may qualify for a tooth socket restoration research study. Researchers at the University of Rochester Eastman Dental Center are evaluating a socket-augmentation procedure that may improve the appearance and functioning of dental implants.

Qualified participants over age 18 will receive:

- A screening exam
- Study-related visits and monitoring by oral surgeons
- An honorarium of \$150 at the completion of the study

If you or someone you know would like to learn more,
contact Rita Cacciato at (585) 275-9001
