

# Have you been diagnosed with Migraine?

Do you experience  
2 to 8 migraines per month?

Are your Migraines usually  
moderate to severe in intensity?

You may qualify to be in research study of  
an investigational inhaled migraine drug.

The University of Rochester Eye Institute  
is conducting a clinical study evaluating  
this investigational drug.

If you are interested, contact  
The University of Rochester Eye Institute  
at **(585) 276-8734** to see if you qualify.

*Compensation for time and travel may  
be available.*
