### Opportunities for APP (NP or PA)

#### Job Qualifications

External applicants interested in applying should apply online. To access our website go to [www.rochester.edu/people/nursing](http://www.rochester.edu/people/nursing).

Internal applicants should email their resume to Nursing Recruitment.

The candidate must have or be eligible for NYS NP/PA certification along with licensure.

#### Ambulatory Services

##### ***Abdominal Imaging Advanced Practice Provider, within the department of Imaging Sciences (251446)***

FT position available, Monday - Friday.

The Abdominal Imaging Advanced Practice Provider (AI APP) is responsible for providing competent medical care in accordance with the professional scope of practice and current State of New York Regulatory Statutes. The position is designed to be onsite-at SMH. There is future potential for reading at other affiliated sites covered by the Abdominal Imaging Division. As an AI APP, you will be expected to become proficient in the full spectrum of Abdominal Imaging applications to problem solving for diagnostic challenges affecting the GI System and GU System, Vascular System and other body systems found in the abdomen and pelvis. Problem solving will include providing guidance to clinicians in the planning/selection of studies and review of studies after completion. The timeline for proficiency will vary depending upon the candidate's prior scope of practice. Examination reviews are in conjunction with interpretation with the supervision of a licensed Radiologist. Our patient population includes ED patients, inpatients, and outpatients. Exam preparation encompasses the planning and protocolling of studies followed by real time review of imaging, especially for acutely ill patients. AI APPs are educated to become proficient in rapid response assessment and treatment of patients with contrast reactions. The AI APP collaborates with all members of the Imaging Sciences team in the promotion and provision of our common goals of optimizing patient care. The AI APP will participate in the education of learners (students and new employees) using clinical learning experiences, knowledge, sharing and skill training. Key characteristics for a practitioner in these roles include an ability to work independently and in the framework of a team. The ability to meet the intellectual and physical challenges of this rewarding position are key elements of the success of our team efforts. **QUALIFICATIONS:** Current New York State License as a Physician Assistant or Nurse Practitioner. Current RT license or eligibility not required but a plus. 3-5 years minimum practice experience. Radiology experience not required.

## Available Positions

### ***Ambulatory Nephrology (Dialysis) - Nurse Practitioner/Physician Assistant (252269)***

FT position available (40 hours), M-F days with some early evening work or 4 10 hour days as this position is flexible. No week-ends or holidays.

We are looking for an energetic, self-motivated individual with exceptional organizational skills to provide direct patient care to ambulatory hemodialysis patients at various off site locations. This individual should possess excellent communication & documentation skills, be flexible & be able to work independently. Responsibilities will include assessment of patients undergoing hemodialysis treatments, evaluation and treatment of nephrology related problems, yearly histories and physicals, participation in patient care conferences with other members of the health care team & the ability to respond & adapt to meet the challenging needs of this diverse population. The position requires certification in NYS as a NP or PA and national certification in the respective field. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

### ***ENT - Outpatient Otolaryngology - Nurse Practitioner/Physician Assistant ,opportunities available at Rochester, Geneseo, and Canandaigua (251843)***

FT position available (40 hours), daytime hours, no weekends or call

This is an exciting opportunity for an experienced NP/PA to join our team, working in an interdisciplinary otolaryngology office that integrates education and clinical care. Responsibilities will include diagnosing and treating patients with a variety of acute otorhinolaryngologic problems. Opportunity to learn/complete many in-office procedures. This position is suited for a self-motivated NP/PA who possesses strong organization, effective communication, and critical thinking skills. Must be a team player but also feel comfortable seeing patients independently. Will direct bill for services. Past experience in urgent care, ED, and/or ENT highly preferred. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Requirement: Current certification through NYS as an NP/PA. Ability to meet productivity targets.

### ***Employee Health - Strong Memorial Hospital - Nurse Practitioner (251087)***

Full time position—M-F daytime hours 4 10 hour days a possibility after orientation

Unique, challenging opportunity to provide Employee Health onboarding services as well as evaluation and treatment of workplace-related injuries and illness for healthcare workers. Become a member of a collaborative team that provides care based upon evidence-based practice and NYS Workers Compensation treatment guidelines. Responsibilities include onboarding physical exams, treatment for blood borne pathogen exposures, work related contagion exposures, company requested evaluations, longitudinal treatment for work related injuries and illnesses: medication management, ordering and interpreting diagnostic tests, referrals for treatments-physical therapy, chiropractic treatment, referral to specialists and disability evaluations. Many opportunities for patients, employer and staff education. Work independently. Collaborate as needed with network-based physicians. Excellent communication and collaboration skills. Ability to work in a team environment. Independent judgement and critical thinking. An NP with 2 or more years of adult NP experience is preferred,

Other experience will be considered. Must have national certification through ANCC or ACNP.

## Available Positions

### ***Neurosurgery - Elmira - Nurse Practitioner/Physician Assistant (250459)***

Full time position in the Department of Neurosurgery in Elmira with a clinical focus on Spinal and Cranial disorders.

As part of a collaborative interdisciplinary healthcare team the APP would participate in assessment, diagnostic evaluation, surgical and postoperative care of patients. Inpatient care is centered at Arnot Ogden Medical Center in Elmira. Outpatient care is delivered in our Big Flats Office. There will also be clinic and operating room rotations at St. James Mercy in Hornell.

Experience in Neurosurgery or Neurology is desirable. National certification required within three months of hire. Nurse Practitioners would need to complete an RNFA course. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

### ***Pain Management - Neurosurgery - Nurse Practitioner/Physician Assistant (252014)***

FT position available, Monday – Friday, office based practice

Opportunity to join our nationally recognized program which is focused on the treatment of acute and chronic pain in the setting of spinal disorders and neurological disease. This program was named a Clinical Center of Excellence by the American Pain Society in 2013, the only academic medical center program in the nation to earn designation that year. This candidate will join a multidisciplinary team that brings together clinicians from diverse specialties (nursing, neurology, neurosurgery, anesthesiology, radiology). Patients with chronic nerve injury pain due to spinal disease, peripheral nerve trauma, trigeminal neuralgia, and neuropathies are the focus of this rapidly growing collaboration with leading institutions across the region. Experienced APP desired with proven clinical skills. Experience in Pain Management, Neurology and Neurosurgery desired. Practice is based in Rochester. Referral triage, telephone management, and participation in research activities will account for approximately 15% of professional time. Outpatient patient management responsibilities include new and follow up visits including procedures, with a team of Pain Management Specialists. Occasional call for collaborating physician. Candidates must have excellent organizational and communication skills. National Certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Responsibilities include: Work-up and conservative management and treatment of: Overactive bladder with and without urinary incontinence; Interstitial cystitis/ radiation cystitis; Pessary fitting and pessary care and Urinary tract infections. Additional responsibilities: Understanding of urogynecological operative procedures, and in- office procedures; Preoperative education, teaching; Participation in the clinical education of Fellows, Residents and Medical Students and Teaching of group classes/ patient education. Requirements: NP or PA Certification required from approved program; Experience with routine gynecologic outpatient care preferred; Prior urogynecology, urology, or geriatric experience helpful but not required (extensive on the job training will be provided); Desire to work with population with average age range of 60 and Familiarity

## Available Positions

with electronic medical records a plus.

### ***High Risk Obstetrics/Maternal - Fetal Medicine - Nurse Practitioner/Physician Assistant or Certified Nurse Midwife (251444)***

PT position, 28 hours ( eligible candidates who are interested in part-time positions are also encouraged to apply, further details will be provided after applications are reviewed)

Exciting opportunity for an advanced practice provider (APP) to work in collaboration with Maternal-Fetal Medicine (MFM) Faculty and other APPs in provision of clinical care for patients with complex obstetric needs. The position would focus on the pregnancy care of high-risk obstetric patient population. MFM offices are located at Lattimore Road and Red Creek Drive. There are multiple specialty areas and focuses within these offices, including prenatal care and consultations, as well as the Diabetes in Pregnancy program (DiPP), the pregnancy loss clinic, and genetics clinic. The APP as part of the MFM multidisciplinary team provides direct patient care and management, in-basket management, follow up and education for complex Maternal-Fetal Medicine patients. Learners including fellows, residents, APP students, and medical students rotate through these offices. APPs are expected to aid in multidisciplinary care management for all patients in the practices, including coverage of electronic/phone-based patient questions, result and order follow-up, regional care coordination, and participation in delivery care planning teams. Cross-coverage and support of the MFM APP cohort would be expected.

Candidates must have excellent communication skills, self-motivation for on-going learning, flexibility and teamwork experience. While work is supported by MFM faculty, who are available at all times, the candidate would need to be able to work independently to see and support patients. Candidates must be NYS NP, PA, or CNM licensed, and eligible for certification. Shifts include daily patient visits and care management, with a minimum of 8 sessions/week . While not required, fetal monitoring experience, perinatal loss certification, nutritionist degree, diabetes experience/certifications, and/or IBCLC certifications would be welcome, as would bilingual skills (any language).

### Orthopaedic Services

#### ***Orthopaedic Inpatient/Outpatient Canandaigua/FFT - Nurse Practitioner/Physician Assistant (251281)***

FT/PT position available, primarily days with some evenings/weekends.

Experienced APP needed for busy practice involving orthopedic care in Canandaigua. The position is a wonderful blend of ED consults, OR work and clinic-based follow-up. The APP will be part of the orthopedic group working in Canandaigua, closely aligned to the surgeons. There is significant independent work, therefore the APP must have orthopedic experience. Specifically, the APP will work in FFT hospital covering orthopedic consults in the ED, OR work, and outpatient clinic time at our new Canandaigua office. The APP should be comfortable with fracture reduction and management, nail bed/lac repairs, and be comfortable working independently. The successful candidate will join other APPs in a professionally rewarding environment - clinically challenging with tremendous opportunities for advancing skills. Candidate must possess excellent communication skills and a willingness to learn new skills. Prior NP/PA experience required, with preferred orthopedic experience . The APP will participate in the education of learners (students and new employees), using

## Available Positions

clinical learning experiences, knowledge sharing and skill training .

### Pediatric Services

#### ***Pediatric Acute Care APP Fellowship - Pediatric Nurse Practitioner/Physician Assistant (252814)***

Full time position available- days and nights with weekends and holidays as needed

The APP Fellowship in acute care pediatrics is a post graduate, 12-month education program for NPs and PAs interested in working at the University of Rochester Golisano Children's Hospital. The program will encompass both didactic instruction and clinical experiences targeting new graduate APPs or those with limited acute care pediatric experience. The program will build upon graduate academic training to broaden and develop the fellow's knowledge and skill set in acute care pediatrics. The program will include side by side education with the Pediatric Residency program and multiple pediatric subspecialty physician fellowships. The program includes core rotations in pediatric cardiac intensive care, pediatric intensive care and pediatric hospital medicine with specialty rotations targeting enhanced education for the acute care pediatric provider. Additional didactics will include: procedural skill labs, high fidelity simulations, and mentorship for QI or research involvement. The ideal candidate will have excellent communication skills, an enthusiasm for learning, a strong work ethic, the ability to work well in a team-based environment, and excellent critical thinking skills. Requirements: Eligible for PNP/PA NYS licensure and national certification.

#### ***Pediatric Cardiac Care Center - Nurse Practitioner/Physician Assistant (252794)***

Full time position available- days and nights with weekends and holidays per unit requirements

The Pediatric Cardiac Care Center APP works in collaboration with a multidisciplinary team to provide evidence-based care in a critical care setting. The APP participates in clinical evaluation and management of pediatric ICU patients with responsibilities including direct patient care for all ICU level pediatric cardiac surgical, pediatric cardiology, and PICU overflow patients. Additional responsibilities include participating in QI and research projects, educational conferences, and APP student precepting. The applicant should be highly motivated with excellent clinical skills, sound judgement, and able to work in a high acuity, fast paced environment. The ideal candidate will have excellent communication skills, an enthusiasm for learning, a strong work ethic, the ability to work well in a team-based environment, and excellent critical thinking skills. Prefer applicants to have 1-2 years of relevant experience, but will consider exceptional new graduates. Requirements: Eligible for PNP/PA NYS licensure and national certification.

#### ***Pediatric Genetics - Family Nurse Practitioner/Physician Assistant (248405)***

Full time position.

This APP position invites skilled and compassionate applicants motivated to learn about the field of metabolic genetics. As an Advanced Practice Provider in Pediatric Genetics, you will be pivotal in assessing, diagnosing, and providing comprehensive care to individuals and families with metabolic genetic disorders such as PKU, Fatty Acid Oxidation Disorders, Fabry Disease, and several others. You will work closely with our multidisciplinary team of genetic counselors,

## Available Positions

physicians, dieticians, and nurses to offer exceptional medical care. Responsibilities: Conduct thorough assessments of adult and pediatric patients' medical histories and genetic risk factors. Perform physical examinations and order appropriate tests Management of patients with inborn errors of metabolism including those who may need enzyme replacement therapy. (Patients are primarily outpatient with some inpatient care involvement) Monitor patients' ongoing metabolic health and provide necessary interventions and referrals. Routine communication with The New York State Newborn Screening and external providers Indirect patient care responsibilities include preclinical case reviews, prescription management, patient and parent phone calls, interacting with various state and home care agencies, and participating in weekly rounds and meetings for the metabolic service as well as Division meetings for Clinical Genetics. Bedside and didactic education of medical students, residents, observers, and MS Genetic Counselling students. Research opportunities available and encouraged for interested applicants This position requires candidates with strong pediatric and adult clinical skills, the ability to work with a multidisciplinary team, excellent organizational abilities, and an enthusiasm to learn about this area of cutting-edge medicine and technology. Selection of candidates will also be based on proficiency in communication, sensitivity to patient needs, and some demonstration of basic science skills in undergraduate training, such as biochemistry and genetics. This job is performed during standard daytime hours, no weekend coverage required. Requirement: Current certification through NYS as an FNP/PA.

#### ***3-9000 Adult Inpatient Comprehensive Psychiatric Emergency Program (CPEP) - Psychiatric***

## Available Positions

### ***Nurse Practitioner (252968)***

Full Time position available Monday through Friday Days

This is an exciting opportunity to work in multiple areas in the department of psychiatry. The role will be split between adult inpatient and CPEP. The NP will work with a psychiatrist and social worker on 3-9000 caring for a team of 6 acute adult psychiatric patients. The NP will go to CPEP in the afternoon and will provide psychiatric evaluations and assessments, interventions and disposition planning for patients who present to the emergency room with urgent psychiatric mental health needs. Strong interpersonal skills, good organizational skills, and flexibility a must. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: NYS Licensure as a Psychiatric Nurse Practitioner and ANCC Board Certification (certification required by end of first year of employment). At least one year of experience as a psychiatric nurse practitioner in an acute clinical setting preferred.

### ***Brighter Days Pediatric Mental Health Urgent Care - Psychiatric Nurse Practitioner (253379)***

Full Time position available, day/evening and weekends. No on-call responsibilities.

Full Time position available, day/evening and weekends. No on-call responsibilities. The Psychiatric Nurse Practitioner working in the Brighter Days Pediatric Mental Health Urgent Care will provide psychiatric evaluations and assessments, interventions and disposition planning for patients who present to the urgent care with mental health needs. The Psychiatric Nurse Practitioner will have accessibility to psychiatrist consultation within a dynamic multidisciplinary team. Strong communication, interpersonal and organizational skills a must. Urgent Care is a 7day/week service so the NP must also be flexible with scheduling needs of the service. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: NYS Licensure as a Psychiatric Nurse Practitioner and ANCC Board Certification (certification required by end of first year of employment). At least one year of experience as a psychiatric nurse practitioner in an acute clinical setting preferred.

### ***Integrated Family/Adult Psychiatric Mental Health Nurse Practitioner (251741)***

FT position available, M-F Days

We are seeking a highly skilled PMHNP to join our behavioral health team at Strong Internal Medicine (SIM). Part of the General Medicine Division at URM, SIM's purpose is to help its diverse patients live full and healthy lives—and the practice is equipped to do so. An NCQA-recognized Patient-Centered Medical Home, SIM's highly team-based care model includes attending physicians, internal medicine residents, advanced practice providers, registered nurses, social workers, behavioral health providers, clinical pharmacists, registered dietitians, care managers, and administrative support. The PMHNP will play a crucial role in providing direct and consultative psychiatric mental health services to adult patients within our integrated primary care clinic. As an embedded member of our primary care team, you will collaborate with clinicians to identify high-risk patients with behavioral health and medical comorbidities, develop person-centered treatment plans, and ensure access to specialty psychiatric and substance use care as needed. You will also be part of the overall BH integration

## Available Positions

team at SIM, which is part of the Division of Collaborative Care in the Department of Psychiatry, and you will have access to a psychiatrist through that division for consultation and support. Responsibilities: - Conduct psychiatric diagnostic evaluations and provide psychopharmacology support for adult patients. - Serve as a resource for primary care providers, offering consultative support and brief warm handoff evaluations throughout the day. - Educate primary care residents, nurses, and other providers on mental health disorders and psychotropic medications through formal in-services and education sessions. Qualifications: - Licensed Psychiatric Nurse Practitioner in NYS with ANCC Certification. - DEA license required. - Minimum 2 years of experience as a psych NP; integrated care experience preferred. To apply, please submit your resume to Nursing Recruitment, Box 619-19. EOE Minorities/Females/Protected Veterans/Disabled.

### ***Strong Ties Assertive Community Treatment (ACT) Team - Psychiatric Nurse Practitioner (253722)***

FT position available, M-F

Exciting opportunity for a psychiatric nurse practitioner to work collaboratively as part of a multi-disciplinary team providing evaluations, interventions and follow-ups in the community for persons with severe and persistent mental illness, with and without co-occurring substance use disorders. The NP will provide psychopharmacological evaluations and interventions to the 68 patients enrolled with the ACT team, as well as collaborate with inpatient, ED, and community agency providers to support patients in their treatment. On call responsibilities per team leadership. Excellent team, interpersonal, and communication skills is a must. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

### ***Telepsychiatry/In-Person Consultation - Division of Geriatric Psychiatry - Psychiatric Nurse Practitioner (248302)***

Full-time (40 hours)

The Psychiatric Nurse Practitioner will work in a supportive and collaborative telepsychiatry practice primarily serving patients in long-term care facilities with behavioral and/or mental health needs. This model is consultative in nature and has proven success through a multi-level systems approach including one-on-one telepsychiatry, Project ECHO and a nurse engagement specialist. This individual will provide psychiatric consultation via video communication for residents of long-term care facilities across New York State. The individual that occupies this position must have strong interpersonal and organizational skills, be flexible in nature to meet the needs of the resident/facility, utilize a collaborative approach to patient care as well as a desire to contribute to an evolving program. Function autonomously while conducting psychiatric evaluations and making psychotropic medication recommendations, including opportunities to simplify medication regimes. Support transition of individuals from psychiatric centers to nursing homes. Collaborate with healthcare providers, social workers, and nurses while providing psychoeducation to bolster use of nonpharmacological interventions. One day per week will be on-site at The Highlands at Brighton, caring for patients on the specialized Neurobehavioral Unit, which includes weekly, synchronous dialogue with the interprofessional team. Qualifications: ANCC Board Certification and NYS Licensure as a Psychiatric Nurse Practitioner. 3—5 years of geriatric experience preferred. The NP will also participate in

## Available Positions

the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

### Surgical Department

#### ***Perioperative First Assist - Nurse Practitioner/Physician Assistant (253448)***

FT position available

Under the direction of the Director of Perioperative Services and the direction and responsibility of the attending physician, the NP/PA will provide surgical first assistance during the inpatient operative procedure. In addition, the NP/PA will have responsibilities outside of the operating room, such as screening patients to determine the needs for medical attention, reviewing patient records to determine health status, taking patient history, performing physical examination, and recording pertinent patient data. The NP/PA dictates notes for consultations and progress notes with accuracy and efficiency as appropriate per patient. The NP/PA participates in rounds with the surgeon pre or post-operatively and will assist with the management and coordination of care as appropriate. During emergency situations, the NP/PA will be initiating appropriate evaluation and therapy. Preferred Qualifications: Able to work effectively in an environment notable for complex, sometimes contradictory information. Will only consider experienced APP with surgical aseptic technique and experience in robotic surgeries, for example: OB/GYN; Cardio Thoracic; General Surgery; Urology; and ENT. No new graduates. Required qualifications: Completion of an accredited graduate-level NP/PA program. Licensed as an Advanced Practice Provider and American Heart for the Provider BLS. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

#### ***Thoracic/Foregut - Nurse Practitioner/Physician Assistant (252277)***

FT position, outpatient, days

Exciting opportunity for an expanding practice! Thoracic surgery encompasses surgery on the chest wall and organs contained within the thoracic cavity. Foregut surgery addresses problems in the esophagus, stomach and proximal intestine. It is a diverse population and is an amazing opportunity to an APP that wants to work within a truly collaborative environment, caring for a wide variety of patients from reflux disease to oncology needs. We are seeking an energetic APP to help cultivate clinical and procedural skills, examples include but are not limited to providing and facilitation of care through broader access, surgical candidacy, survivorship clinics, acute surgical clinics, feeding tube management, and drain management. We have a unique care and delivery model that requires expert practice for both acute hospitalized patients, post-surgical, oncology surveillance and survivorship. We have a dedicated orientation process that is tailored to the meet the individual needs of the APP, that includes 1:1 time routinely with our Attending's for case and radiology review. Take advantage of our shadow opportunity to truly get a feel of our team. New graduates welcomed. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
