Opportunities for APP (NP or PA)

Job Qualifications

External applicants interested in applying should apply online. To access our website go to [www.rochester.edu/people/nursing](http://www.rochester.edu/people/nursing).

Internal applicants should email their resume to Nursing Recruitment.

The candidate must have or be eligible for NYS NP/PA certification along with licensure.

Ambulatory Services

**Allergy, Immunology and Rheumatology (AIR) - Rochester, NY - Nurse Practitioner/Physician Assistant (249926)**

FT position available (40hrs). Five days/week (M-F), daytime hours.

Exciting opportunity for FNP/PA in an ambulatory setting in the rapidly growing Allergy, Immunology, and Rheumatology division. The role includes providing care to a variety of new and follow up pediatric and adult patients with a focus on allergic disorders. Responsibilities include: evaluation and management of acute and chronic allergic conditions for patients age 6+, ordering and interpreting diagnostic tests and communicating results (including labs, imaging, allergy skin testing, pulmonary function testing, and food and medication challenges), providing coverage for subcutaneous immunotherapy clinics and infusion centers, triaging new referrals for urgency, and participation in the education of learners (NP/PA students and new employees) consistent with the goals of the UR teaching institution. Occasional travel to other offices in Monroe County (Greece, Brockport) or regional sites (Batavia, Geneseo, Canandaigua) may be asked if provider coverage is needed. The APP will have an opportunity for participation in department-based education initiatives. APP mentoring and support is available to all new hires. Must demonstrate excellent communication and critical thinking skills and be able to work both independently and in a team-based setting. Will consider motivated new NP/PA graduates. Requires certification in NYS as FNP or PA as well as national certification. BLS certification is required.

**Primary Care Network (Bushnell's Basin Family Medicine & Med-Peds) - Nurse Practitioner/Physician Assistant (248941)**

PT or FT position available. Monday – Friday, daytime hours.

Exciting opportunity for an experienced NP or PA to join a busy Family Medicine/Med-Peds practice and become part of an interdisciplinary team that provides patient care utilizing the Patient Centered Medical Home model. This is a fast-paced office in the Bushnell's Basin, NY area. The providers care for newborns, children, teenagers, and adults across all ages
Available Positions

and medical issues. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, and patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. Only APPs with greater than 2 years of active primary care clinical practice are being considered at this time. An APP mentoring program is available for all new hires along with thoughtful onboarding. The candidate must possess NYS NP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

**Primary Care Network (UR Primary Care - Williamson) - Nurse Practitioner/Physician Assistant (248879)**

FT position available. Five days per week, daytime hours.

Exciting opportunity to join a busy Internal Medicine Practice in the Williamson, NY area and become part of an interdisciplinary team that provides patient care utilizing the Patient Centered Medical Home model. The practice specializes in providing medical care for adult patients over the age of 18. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. An APP with greater than 2 years of active primary care practice is favored. An APP mentoring program is available for all new hires along with thoughtful onboarding. The candidate must have completed NYS FNP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

**Urology - Sawgrass Location - Nurse Practitioner/Physician (248859)**

FT position available. Monday-Friday. No on-call responsibilities.

The position would be primarily clinical with training and involvement in basic urologic procedures. Fast-paced clinic. Collaborates with the Urology team in providing care to the patients in the pre-operative and post-operative period. Office visits include new, follow ups and postoperative, and urgent patients. Completes dictations on all visits. Evaluates patient, orders necessary tests, consults with urology team, occasional pre-
Available Positions

admission testing for emergent surgeries. Strong communication and clinical skills required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Certified NYS NP, MS degree required or Certified NYS PA required. Urology experience preferred.

Cancer Center

*Radiation Oncology in the Southern Tier (Dansville Location) - Nurse Practitioner/Physician Assistant (246198)*

FT & PT position available, Monday to Friday, 8 hours shifts

An opportunity to work in collaboration with the Regional Radiation Oncology Medical Faculty and APP’s in the Dansville office in the provision of clinical care for patients undergoing treatment for cancer at the University of Rochester. The team seeks a good decision-maker, with proven success in making timely decisions. This person must be able to work effectively in a fast-paced outpatient environment dealing with a wide range of disease. Must be adept at planning and prioritizing work. Must be flexible in their approach and demeanor in order to align with shifting demands of evolving circumstances.

Responsibilities include direct patient care including evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and patient and family education. The APP will be working collaboratively with our Radiation Oncology teams. Involvement in clinical trial accrual. Serves as clinical liaison between faculty, APP’s, Residents and administration. Participates in department meetings relevant to clinical duties. Excellent communication skills with proven ability in exercising independent judgement and initiative. Experience as an advanced practice provider is strongly desired, though new graduates may be considered. The APP will participate in the education of learners (students, Residents and new employees), using clinical learning experiences, knowledge sharing and skill training.

*Wilmot Cancer Institute - Stem Cell Transplant & Cellular Therapy/Acute Leukemia Service - Nurse Practitioner/Physician Assistant (249853)*

FT position D/N. Weekend and holidays per unit policy.

This is an opportunity for a motivated APP to join the growing Stem Cell Transplant/Cellular Therapy and Malignant Hematology group at the Wilmot Cancer Institute. This APP role is primarily inpatient. Responsibilities include evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. This opportunity also includes the development of proficiencies in procedures such as bone marrow biopsy, intrathecal chemotherapy administration, and chemotherapy/biotherapy certification. Excellent organizational and team skills essential. Strong onboarding process/structure that supports new graduate applicants. Must be NYS eligible for NP or PA certification. ACLS/BLS/DEA certifications required.

*Wilmot Cancer Institute Thoracic/Head and Neck - Nurse Practitioner/Physician Assistant (249962)*

Full Time position available, Monday through Friday, daytime hours; 4, 10 hour days a possibility
Available Positions

Great opportunity to work as part of an interdisciplinary team in providing care to oncology patients in the Wilmot Cancer Institute, with a specific focus providing care to patients with thoracic/ head and neck malignancies. Responsibilities include direct patient care including evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and family education. Will be working closely with the thoracic / head and neck medical oncology team and involvement in clinical trial accrual. Excellent communication skills with proven ability in exercising independent judgment and initiative. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Must be NYS eligible for NP/PA certification.

Cardiovascular Center

42800 - Cardiac ICU - Nurse Practitioner/Physician Assistant (240696)
FT position available, D/N, 13 hour shifts, weekends & holidays per unit policy.

Exciting opportunity to work in a well-established high performing APP group. Responsibilities include direct care for all cardiac surgery and cardiology ICU patients. Our CICU is a quaternary referral Shock Program with high volume ECMO, Impella, and VADs. Independent management (including invasive procedures) in collaboration with dedicated CICU intensivists. Other responsibilities include routine management of post-operative cardiac surgery patients (CABG, valves, TAVR, Aortic replacement, VAD, transplant, etc), post cath lab ICU patients (PCI / Stent, IABP, Impella), participation in QA/PI, educational conferences and rounds, and student precepting. Applicant must be motivated, flexible, and independent and possess excellent clinical skills in critical care. Applicants should have 2 years recent relevant experience and be NCCPA certified or NYS NP eligible. Will consider exceptional new grads.

Adult Congenital Heart Center - Family Nurse Practitioner/Adult Gero - Nurse Practitioner/Physician Assistant (No Pediatric Nurse Practitioners) (248952)
Full Time position available (M-F, 40 hours per week, no holidays)

Exceptional opportunity to join our rapidly growing Adult Congenital Heart Disease program and be part of a multidisciplinary team committed to delivering top-tier care to adults with congenital heart disease. The selected candidate will offer professional consultations and direct patient care in inpatient and outpatient settings, complying with a multidisciplinary care model and established protocols. Your duties will encompass the evaluation and management of acute and chronic cardiac conditions, execution and interpretation of diagnostic tests, meticulous maintenance of patient records, facilitation of specialist referrals, performance of office-based procedures, and delivery of education to patients and families, all aligned with our academic mission. We are searching for an experienced Advanced Practice Provider (APP) with a strong passion for cardiology and a commitment to lifelong care. While prior experience in cardiology is preferred, it is not mandatory. Essential qualifications include outstanding communication and organizational skills and proficiency in essential computer software such as Excel, Word, PowerPoint, etc. Required credentials include NYS NP/PA certification, National NP board certification, BLS, and ACLS. New hires will benefit from a comprehensive educational program and a thorough onboarding process. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
Available Positions

Adult Inpatient Cardiac Surgery Step-Down - Nurse Practitioner/Physician Assistant (250082)
FT or PT position available, days and evenings, weekends and holidays per unit policy

Exciting opportunity to work in a well-established practice as part of a collaborative team providing care to pre- and post-operative patients within the Division of Cardiac Surgery. Our patient population includes those undergoing CABG, open valve or minimally invasive valve replacements/repairs (including TAVRs), and patients post-ECMO. Key job responsibilities include providing direct care, assessment, evaluation, and intervention on arrhythmia management, wound care, surgical follow-up, drain care, and medical optimization. Must have strong communication skills as this role collaborates closely with other members of the interdisciplinary team to achieve excellent patient outcomes both during hospitalization and after discharge. Familiarity with core measures and performance improvement commitment is required. NYS licensed (PA/NP), Master’s degree required (ACNP preferred for NPs). Nationally certified or eligible for certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Ambulatory Cardiology - Nurse Practitioner/Physician Assistant (249741)
Part time 20 hour position Monday through Friday. Two 10 hour shifts once orientation complete.

We are looking for an energetic, self-motivated individual with exceptional organizational skills to provide direct patient care to ambulatory cardiology patients at our nationally recognized facilities. The individual should possess excellent communication and documentation skills, be flexible, and be able to work independently. The APP will provide direct patient care, assessment and intervention including ordering and follow up of appropriate testing and procedures. The APP will also work alongside our entire Cardiology team in our Monroe County Offices. This position requires frequent communication between APP, Cardiologists, patients and staff. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Must be NYS eligible for NP/PA certification. Certified NYS NP, MS degree required or Certified NYS PA required. Cardiology experience preferred.

Exciting opportunity to work with a collaborative team in a subspecialty of Neurology caring for patients with multiple sclerosis and other neuroimmunologic disorders. Focus will be on direct care of outpatients including evaluation and management of acute disease exacerbations as well as chronic symptoms. Will work in collaboration with other providers and disciplines as well as community service agencies such as the Upstate NY chapter of the National Multiple Sclerosis Society to provide coordinated care. Must have excellent organizational, communication, and interpersonal skills.

Requirements: 1-2 years of experience as an NP or PA in neurology, acute medicine, or primary care is preferred but all other experience will be considered. Must have national certification through ANCC or ACNP. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
Available Positions

**Neurology (Neuromuscular Disease) - Family Nurse Practitioner/Physician Assistant (248324)**

FT position available, Monday-Friday

Exciting opportunity to join an interdisciplinary team in caring for pediatric and adult patients with a variety of hereditary and acquired neuromuscular disorders and peripheral neuropathies. You will partner with nationally-renowned physician experts, dedicated nursing, social work, and technical staff in providing state-of-the art care to patients and families. Major responsibilities include providing direct and indirect care and procedures (skin biopsies) for patients seen in the ambulatory setting. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Requirements: NYS NP or PA license and national certification.

**Neurosurgery - Nurse Practitioner/Physician Assistant (249443)**

FT position available. Primarily days. 4, 10 hour days potentially available after successful completion of orientation

Exciting opportunity for motivated APP to work with an interdisciplinary team in the management of Neurosurgery patients. The Primary work location will be Strong Memorial Hospital, with occasional time spent at FFTH and RGH. Must demonstrate a high level of clinical competence in the care of Neurosurgical patients. This position will include a majority of outpatient care of the neurosurgery patient. Strong communication skills required. Must be NYS NP/PA license and national certification. We strongly prefer an APP with experience caring for neurosurgical patients. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Pain Management - Neurosurgery - Nurse Practitioner/Physician Assistant (248653)**

FT position available, Monday – Friday, office based practice

Opportunity to join our nationally recognized program which is focused on the treatment of acute and chronic pain in the setting of spinal disorders and neurological disease. This program was named a Clinical Center of Excellence by the American Pain Society in 2013, the only academic medical center program in the nation to earn designation that year. This candidate will join a multidisciplinary team that brings together clinicians from diverse specialties (nursing, neurology, neurosurgery, anesthesiology, radiology). Patients with chronic nerve injury pain due to spinal disease, peripheral nerve trauma, trigeminal neuralgia, and neuropathies are the focus of this rapidly growing collaboration with leading institutions across the region. Experienced APP desired with proven clinical skills. Experience in Pain Management, Neurology and Neurosurgery desired. Practice is based in Rochester. Referral triage, telephone management, and participation in research activities will account for approximately 15% of professional time. Outpatient patient management responsibilities include new and follow up visits including procedures, with a team of Pain Management Specialists. Occasional call for collaborating physician. Candidates must have excellent organizational and communication skills. National Certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
Available Positions

OB/GYN Department

*Department of OBGYN - Gender Diverse Surgical Support Program - Nurse Practitioner/Physician Assistant (247843)*

PT position (20 hours), M-F, primarily day shift

Join our dynamic, interdisciplinary, Gender Diverse Surgical Support Program dedicated to helping youth and adults in our community reach their fullest potential. This exciting opportunity to become part of a multidisciplinary team requires promotion of equitable healthcare of the highest order to young adults and adult patients and their families. The Gender Diverse Surgical Support Team is dynamic and progressive, with a biopsychosocial approach and clinical expertise in sexual and reproductive health, and health care for transgender and gender diverse young adults and adults. The position includes outpatient clinical work. Primary responsibilities include: Provision of direct patient care for outpatient Gender Diverse patients in-person and telehealth visits. Care coordination, as well as interfacing with specialty groups, interdisciplinary team members and community partners. Provision of patient and family health education. Strong communication and interpersonal skills required; must be able to respectfuely and inclusively navigate discussions cross-culturally with staff, patients, and families. Experienced NP or PA strongly preferred. Current NYS license and FNP or PA registration required.

*High Risk Obstetrics/Maternal - Fetal Medicine - Nurse Practitioner/Physician Assistant or Certified Nurse Midwife (249517)*

FT position, 40 hours (eligible candidates who are interested in part-time positions are also encouraged to apply, further details will be provided after applications are reviewed)

Exciting opportunity for an advanced practice provider (APP) to work in collaboration with Maternal-Fetal Medicine (MFM) Faculty and other APPs in provision of clinical care for patients with complex obstetric needs. The position would focus on the pregnancy care of high-risk obstetric patient population. MFM offices are located at Lattimore Road and Red Creek Drive. There are multiple specialty areas and focuses within these offices, including prenatal care and consultations, as well as the Diabetes in Pregnancy program (DiPP), the pregnancy loss clinic, and genetics clinic. The APP as part of the MFM multidisciplinary team provides direct patient care and management, in-basket management, follow up and education for complex Maternal-Fetal Medicine patients. Learners including fellows, residents, APP students, and medical students rotate through these offices. APPs are expected to aid in multidisciplinary care management for all patients in the practices, including coverage of electronic/phone-based patient questions, result and order follow-up, regional care coordination, and participation in delivery care planning teams. Cross-coverage and support of the MFM APP cohort would be expected.

Candidates must have excellent communication skills, self-motivation for on-going learning, flexibility and teamwork experience. While work is supported by MFM faculty, who are available at all times, the candidate would need to be able to work independently to see and support patients. Candidates must be NYS NP, PA, or CNM licensed, and eligible for certification. Shifts include daily patient visits and care management, with a minimum of 8 sessions/week. While not required, fetal monitoring experience, perinatal loss certification, nutritionist degree, diabetes experience/certifications, and/or IBCLC certifications would be welcome, as would bilingual skills (any language).
Available Positions

Psychiatric Department

**Comprehensive Psychiatric Emergency Department (CPEP) - Psychiatric Nurse Practitioner (247183)**

Full Time positions available, day/evening and weekends  No on-call responsibilities.

The Psychiatric Nurse Practitioner working in the Comprehensive Psychiatric Emergency Program will provide psychiatric evaluations and assessments, interventions and disposition planning for patients who present to the emergency room with urgent psychiatric mental health needs. The Psychiatric Nurse Practitioner will also be responsible for conducting consults for patients in the medical ED. The Psychiatric Nurse Practitioner will have accessibility to psychiatrist consultation within a dynamic multidisciplinary team. Strong communication, interpersonal and organizational skills a must. CPEP is a 24/7 service so the NP must also be flexible with scheduling needs of the service. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Qualifications:  NYS Licensure as a Psychiatric Nurse Practitioner and ANCC Board Certification (certification required by end of first year of employment). At least one year of experience as a psychiatric nurse practitioner in an acute clinical setting preferred.

**Telepsychiatry/In-Person Consultation - Division of Geriatric Psychiatry - Psychiatric Nurse Practitioner (248302)**

Full-time (40 hours)

The Psychiatric Nurse Practitioner will work in a supportive and collaborative telepsychiatry practice primarily serving patients in long-term care facilities with behavioral and/or mental health needs. This model is consultative in nature and has proven success through a multi-level systems approach including one-on-one telepsychiatry, Project ECHO and a nurse engagement specialist. This individual will provide psychiatric consultation via video communication for residents of long-term care facilities across New York State. The individual that occupies this position must have strong interpersonal and organizational skills, be flexible in nature to meet the needs of the resident/facility, utilize a collaborative approach to patient care as well as a desire to contribute to an evolving program. Function autonomously while conducting psychiatric evaluations and making psychotropic medication recommendations, including opportunities to simplify medication regimes. Support transition of individuals from psychiatric centers to nursing homes. Collaborate with healthcare providers, social workers, and nurses while providing psychoeducation to bolster use of nonpharmacological interventions. One day per week will be on-site at The Highlands at Brighton, caring for patients on the specialized Neurobehavioral Unit, which includes weekly, synchronous dialogue with the interprofessional team. Qualifications: ANCC Board Certification and NYS Licensure as a Psychiatric Nurse Practitioner. 3—5 years of geriatric experience preferred. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
Available Positions

Surgical Department

**Colorectal Surgery - Ambulatory - Nurse Practitioner/Physician Assistant (248861)**

Full-time position available. Monday – Friday

Exciting opportunity to work collaboratively with our colorectal surgery team of surgeons, residents, advance practice providers (APP’s) and secretarial staff to manage the colorectal surgery outpatient population. Candidate must possess strong communication skills, have a high level of clinical competency, demonstrate flexibility and have a firm team work ethic. Will be working in our specialty clinics- colorectal anal physiology (CPC), anal- rectal disorders, and Inflammatory bowel disease (IBD) and colorectal cancer. Responsibilities will include assisting surgical attending providers with outpatient clinic management, and run an independent clinical practice. Emphasis on evaluation, implementing a treatment plan and follow up care of the surgical patient from the preoperative phase through post hospital recovery. Must be New York State eligible for NP/PA certification for independent billing.

**General Surgery/Trauma - Nurse Practitioner/Physician Assistant (249057)**

FT positions available. Primarily days and evenings, 10 hr shifts, weekends

Exciting position for a motivated NP/PA to participate in the management of patients admitted to the Trauma/EGS service. This NP/PA will work with other APPs in providing comprehensive clinical care to general surgery and trauma patients. Responsibilities will include daily clinical management, participation in interdisciplinary care, and developing programs consistent with service priorities. Prefer applicants with at least 3-5 years of experience, critical care, wound care or internal medicine background. Will consider new graduates. For NPs- RNFA experience preferred. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Surgical APP Fellowship - Nurse Practitioner/Physician Assistant (249642)**

FT, D/N, 8-12 hour shifts, weekends and holidays as needed

The Surgical APP Fellowship is an exciting opportunity for nurse practitioners and physician assistants to participate in a 1-year postgraduate specialty training. The intensive clinical fellowship includes a core program focusing on the care of the surgical patient with rotations through ambulatory and inpatient settings. Fellows will gain experience in several of the surgical subspecialties within the department of surgery within URMC. In addition, there are several specialty training experiences to enhance the surgical APP fellow education which include both didactic and clinical experiences. Training methods include clinical immersion, didactic lectures and self-guided learning, and on-line and in person training modules. Qualifications: Nurse Practitioners require a Master’s degree in Nursing, an active NYS licensure in good standing, and eligible for national certification. Physician Assistants require completion of an AMA approved Physician Assistant program, NYS licensure in good standing, and eligible national certification as a Registered Physician Assistant.
Available Positions

**Surgical Oncology - Soft Tissue - Nurse Practitioner/Physician Assistant (248863)**

FT daytime hours M-F

Exciting new opportunity for an advanced practice provider to join the Division of Surgical Oncology in the treatment of soft tissue cancers. This is an opportunity to work among a dynamic interdisciplinary team that provides cancer related care to patients with soft tissue cancers. Responsibilities include: evaluation and management of new and established patients, ordering/interpreting/communicating diagnostic test and results, post-surgical follow ups, and ongoing survivorship visits. Opportunities exist for office-based procedures, and patient support and education. Participates in departmental meetings relevant to clinical duties. Ultimately, the APP will have an opportunity to grow a skill set to exercise independent judgement and initiative. Excellent communication and collaborative skills are a must. Experience as a advanced practice provider is strongly desired, though new graduates may be considered. The Candidate must possess a NYS NP/PA certification along with licensure or be eligible. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Transplant Services**

**Pre-Transplant - Nurse Practitioner/Physician Assistant (248848)**

FT outpatient position available (40 hours), Primarily Days, Monday thru Friday 8-hour shifts (No Holiday or Call)

Opportunity for a Nurse Practitioner or Physician Assistant to work in a fast paced, clinically challenging environment. Primary responsibilities include working collaboratively with transplant surgery/hepatology and a multidisciplinary care team to provide care for patients under evaluation and listed for liver transplant. Responsibilities include treatment of decompensated liver disease. Management of acute and chronic liver disease. Including medication management, ordering and reviewing testing. The successful candidate will work collaboratively with transplant hepatologists, surgeons, and transplant coordinators within the program. Candidate must have excellent communication skills and be comfortable working in a dynamic multidisciplinary setting. Attendance at divisional/departmental weekly and monthly conferences is expected. Involvement in research, committees, developing and maintain policy and procedures is encouraged. The candidate will serve as a resource on end-stage liver disease and liver transplantation to internal and external health care providers. The NP/PA is responsible for direct patient care, documentation of care delivered, adherence to hospital and nursing policies, procedures and practice standards, education of patients and staff, assurance of service excellence, completion of state and hospital required reviews of practice and participation in performance and quality improvement and other activities as required. The successful candidate will work collaboratively within the multidisciplinary Transplant Team including MD, APP, Social Workers, Dieticians, and RNs. Strong clinical and communication skills required.
