Ambulatory Services

**ENT - Outpatient Otolaryngology - Nurse Practitioner/Physician Assistant (246952)**

FT position available (40 hours), daytime hours, no weekends or call

This is an exciting opportunity for an experienced NP/PA to join our team, working in an interdisciplinary otolaryngology office that integrates education and clinical care. Responsibilities will include diagnosing and treating patients with a variety of acute otorhinolaryngologic problems. Opportunity to learn/complete many in-office procedures. This position is suited for a self-motivated NP/PA who possesses strong organization, effective communication, and critical thinking skills. Must be a team player. Will direct bill for services. Past experience in urgent care, ED, and/or ENT highly preferred. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Requirement: Current certification through NYS as an NP/PA. Ability to meet productivity targets.

**Primary Care Network (Pulsifer Medical Associates) - Nurse Practitioner/Physician Assistant (246866)**

FT position available. Monday – Friday, daytime hours.

Exciting opportunity for an experienced NP or PA to join a busy Internal Medicine practice and become part of an interdisciplinary team that provides patient care utilizing the Patient Centered Medical Home model. This is a fast-paced office in the Rochester suburb of Brighton, NY area. The practice specializes in providing medical care for adult patients over the age of 18. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, and patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will
Available Positions

have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. An APP mentoring program is available for all new hires along with thoughtful onboarding. The candidate must possess NYS NP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

**Primary Care Network (Southview Internal Medicine) - Nurse Practitioner / Physician Assistant (246157)**

FT position available. Five days per week, daytime hours.

Opportunity to join a very busy Internal Medicine Practice in the Brighton, NY area and become part of an interdisciplinary team that provides patient care utilizing the Patient Centered Medical Home model. The practice specializes in providing medical care for adult patients over the age of 18. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. The office is looking for an organized and motivated APP with greater than 2 years of clinical practice in primary care. The candidate must have completed NYS NP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

**Cancer Center**

**Radiation Oncology in the Southern Tier (Dansville Location) - Nurse Practitioner/Physician Assistant (246198)**

FT position available, Monday to Friday, 8 hours shifts

An opportunity to work in collaboration with the Regional Radiation Oncology Medical Faculty and APP's in the Dansville office in the provision of clinical care for patients undergoing treatment for cancer at the University of Rochester. The team seeks a good decision-maker, with proven success in making timely decisions. This person must be able to work effectively in a fast-paced outpatient environment dealing with a wide range of disease. Must be adept at planning and prioritizing work. Must be flexible in their approach and demeanor in order to align with shifting demands of evolving circumstances. Responsibilities include direct patient care including evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and patient and family education. The APP will be working collaboratively with our Radiation Oncology teams. Involvement in clinical trial accrual. Serves as clinical liaison between faculty, APP's, Residents and administration. Participates in department meetings relevant to clinical duties. Excellent communication skills with proven ability in exercising independent judgement and initiative. Experience as an advanced practice provider is strongly desired, though new graduates may be considered. The APP will participate in the education of learners (students,

Residents and new employees, using clinical learning experiences, knowledge sharing and skill training.

**Surgical Oncology - Breast Center - Nurse Practitioner/Physician Assistant (246461)**

FT position available, daytime hours, Monday – Friday

Opportunity to work in a multidisciplinary clinic in the Pluta Cancer Center of Wilmot Cancer Institute, which includes Surgical Oncology, Medical Oncology, Radiation Oncology, Imaging Sciences, nursing, social work and clerical staff. This position will work alongside Breast Surgical Oncology to coordinate care for patients across the disciplines, establishing an effective communication interface with all of the disciplines. Will provide direct care to patients with breast disease, including but not limited to clinic preparation, clinic, education and PRAT (PRe-Operative Assessment and Teaching) visits, surgeries, post-operative care and symptom management. Will assist in development of process improvement and quality indicators to help assure best practice standards. Will assist with development of curriculum for educational activities in the multidisciplinary Breast Center. Participation in community outreach and event activity will be encompassed in this role.

Requirements: Current, active certification as an NP with NYS and active license as an RN with NYS. Prefer 3 – 5 years of experience as an Advanced Practice Provider. Must have excellent communication and team facilitation skills.

**Wilmot Cancer Institute - Leukemia - Nurse Practitioner/Physician Assistant (246677)**

Full Time position available. Monday through Friday with 4, 10hr days possible

This is an opportunity for a motivated APP to join a distinguished Malignant Hematology practice at the Wilmot Cancer Institute. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, hospital/ED follow-ups, facilitating coordination of services, and patient/family education/counseling. The APP will have the opportunity to develop proficiencies in procedures including bone marrow biopsy and chemotherapy orders/administration. The APP will have involvement in clinical trial accrual. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. The APP will work as part of a comprehensive team and provide cross-coverage as needed within the group. The APP will work closely with nursing and ancillary staff to ensure triage of in-basket and patient calls. The candidate must possess NYS NP/PA certification along with licensure prior to hire/start date.

**Cardiovascular Center**

**42800 - Cardiac ICU - Nurse Practitioner/Physician Assistant (240696)**

FT position available, D/N, 13 hour shifts, weekends & holidays per unit policy.

Exciting opportunity to work in a well-established high performing APP group. Responsibilities include direct care for all cardiac surgery and cardiology ICU patients. Our CICU is a quaternary referral Shock Program with high volume ECMO, Impella, and VADs. Independent management (including invasive procedures) in collaboration with dedicated CICU intensivists. Other responsibilities include routine management of post-operative cardiac surgery patients (CABG, valves,
Available Positions

TAVR, Aortic replacement, VAD, transplant, etc), post cath lab ICU patients (PCI / Stent, IABP, Impella), participation in QA/PI, educational conferences and rounds, and student precepting. Applicant must be motivated, flexible, and independent and possess excellent clinical skills in critical care. Applicants should have 2 years recent relevant experience and be NCCPA certified or NYS NP eligible. Will consider exceptional new grads.

**Adult Inpatient Cardiac Surgery Step-Down - Nurse Practitioner/Physician Assistant (246120)**

FT or PT position available, days and evenings, weekends and holidays per unit policy.

Exciting opportunity to work in a well-established practice as part of a collaborative team providing care to pre- and post-operative patients within the Division of Cardiac Surgery. Our patient population includes those undergoing CABG, open valve or minimally invasive valve replacements/repairs (including TAVRs), and patients post-ECMO. Key job responsibilities include providing direct care, assessment, evaluation, and intervention on arrhythmia management, wound care, surgical follow-up, drain care, and medical optimization. Must have strong communication skills as this role collaborates closely with other members of the interdisciplinary team to achieve excellent patient outcomes both during hospitalization and after discharge. Familiarity with core measures and performance improvement commitment is required. NYS licensed (PA/NP), Master's degree required (ACNP preferred for NPs). Nationally certified or eligible for certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Critical Care Services**

**31800 - Burn Trauma ICU - Nurse Practitioner/Physician Assistant (242490)**

FT position available, rotating shifts, weekends & holidays per unit policy.

Exciting opportunity to work in a well-established practice. Responsibilities include direct care for patients on the trauma service. Direct care responsibilities include admission work-ups, daily management (including procedures and transfer/discharge). Other responsibilities include participation in QA/PI, educational conferences and rounds, student precepting, and support of unit based nurses and leadership. Provide direct care and management of patients in the GCH Level IV Regional Perinatal Center, 68 bed Neonatal Intensive Care Unit, in collaboration with Neonatology Faculty. Participates in delivery room stabilization and management of neonates. Acts as a consultant to birth center and newborn nursery as needed. Develops care policies and protocols for NICU patients in conjunction with the neonatology attending. Contribute to nursing and quality assurance programs related to the NICU. Supervise clinical experiences for NP students in the NICU. Demonstrate support for the School of Nursing
Available Positions

philosophy of integrating practice, education, and research. Minimum Qualifications: Eligibility for PA/NP licensure in NYS. NICU nursing experience or previous experience as an APP required. If previous experience as an APP is not within the NICU setting, a NICU rotation as a student APP required.

**Neonatal ICU - APP Fellowship - Nurse Practitioner/Physician Assistant (242567)**

FT, D/N, 8-13 hour shifts, weekends and holidays as needed

The APP Fellowship in Neonatology at The University of Rochester Medical Center is a 12-month post-graduate specialty training program for Nurse Practitioners and Physician Assistants. The program is 75% clinical and 25% didactic and includes side-by-side education with the UR Medicine Pediatric Residency and Neonatal Fellowship programs. The APP Fellowship includes a core program of neonatal medicine and also several specialty rotations meant to enhance neonatal provider education. Neonatal medicine rotations include experiences in the Golisano Children's Hospital Level IV NICU, Newborn Nursery and Birthing Centers. In addition, Fellows participate in Neonatal skills labs and NICU simulations. The program also offers protected time throughout the fellowship to enrich the academic experience with participation in quality or research projects. Qualifications: Nurse Practitioners require a Master's degree in Nursing, an active NYS licensure in good standing, and eligible for national certification. Physician Assistants require completion of an AMA approved Physician Assistant program, NYS licensure in good standing, and eligible national certification as a Registered Physician Assistant. The program is designed for new graduate APPs or those with experience looking to change specialties.

**Pediatric Cardiac Care Center - Nurse Practitioner/Physician Assistant (239943)**

FT position, Tier 3 position which include day/evening/night/weekend/holiday coverage rotations.

In collaboration with a multidisciplinary team, the APP participates in clinical evaluation and management of pediatric cardiac ICU patients. Responsibilities include direct patient care for all ICU level pediatric cardiac surgical and pediatric cardiology patients. Responsibilities will include assessment of patients completing H&Ps, daily notes, care coordination, follow up on ECG/Cardiac testing, and patient/family education Additional responsibilities include participating in QI and research projects, educational conferences, and APP student precepting. Applicant should be highly motivated with excellent clinical skills, sound judgement, and able to work in a high acuity environment. Prefer applicants to have 1-2 years of relevant experience, but will consider exceptional new graduates. Requirements include: NY state licensure as an NP with National Certification within 3 month of appointment or Board-Certified PA. 1-3 years of pediatric cardiac experience preferred.

**Pediatric Hematology Oncology - Pediatric Nurse Practitioner/Physician Assistant (244032)**

FT position available (40 hours), primarily days, 8-hour shifts

Exciting opportunity for an experienced NP/PA who enjoys being part of a hardworking interdisciplinary team to provide care for pediatric patients with hematologic and oncologic disorders. Oversight of patients receiving chemotherapy, blood products, and monoclonal antibodies in the infusion center is included in the responsibilities of office visits for patients. Lumbar punctures for chemotherapy and bone marrow biopsies are a large role of the NP/PA in this outpatient clinic. This role also encompasses direct patient care in a fast-paced clinical setting, participation in research protocols in the delivery of
Available Positions

state of the art care, coordination of treatment planning including admission, follow-up appointments, and discharge planning. Educational accountabilities include teaching of patients, families, staff, residents and interfacing with home care companies to ensure provision of care. The ideal candidate for this position will have experience in the NP/PA role, excellent written and verbal communication skills, and at least 1 year of previous oncology experience.

**Pediatric Hospital Medicine - Pediatric Nurse Practitioner / Physician Assistant (246459)**

FT position available (40 hours), 12 hour shifts, days/nights/weekends and holidays

Exciting opportunity to work in a fast pace inpatient pediatric setting. Responsibilities include direct care for pediatric patients in collaboration with attending. Responsibility includes admission work ups, daily management of patients within Golisano Children's Hospital, and discharges with a heavy emphasis on discharge planning and interdisciplinary rounding. Other responsibilities include participation in educational conferences, and support of unit-based nurses and leadership. We are looking for an APP with a vested interest and desire to work with children with hematology and oncology diseases. Surgical Department

Ambulatory Colorectal Surgery - Nurse Practitioner/Physician Assistant (246197)

Full-time position available. Monday – Friday

Exciting opportunity to work collaboratively with our colorectal surgery team of surgeons, residents, advance practice providers (APP's) and secretarial staff to manage the colorectal surgery outpatient population. Candidate must possess strong communication skills, have a high level of clinical competency, demonstrate flexibility and have a firm team work ethic. Will be working in our specialty clinics- colorectal anal physiology (CPC), anal-rectal disorders, and Inflammatory bowel disease (IBD) and colorectal cancer. Responsibilities will include assisting surgical attending providers with outpatient clinic management, and run an independent clinical practice. Emphasis on evaluation, implementing a treatment plan and follow up care of the surgical patient from the preoperative phase through post hospital recovery. Must be New York State eligible for NP/PA certification for independent billing.

Colorectal Department - Anal Dysplasia Clinic - Nurse Practitioner/Physician Assistant (244063)

FT day position available

Dynamic new position and exciting opportunity working in the established and growing Anal Dysplasia specialty clinic to perform High Resolution Anoscopy (HRA) for patients at risk for HPV associated anogenital diseases such as anal cancer, anal dysplasia, and anal condyloma. Seeking provider interested in program development to grow the practice. New clinic space in 2025. Working collaboratively with interdisciplinary health care team consisting of advanced practice providers, support staff, and surgeons to provide optimal outcomes for patients undergoing anal cancer screening. Candidates must have excellent critical thinking verbal and written communication skills. Further qualifications include possessing computer competence and have an active desire to learn. Needs to be willing to care for varied patient population and demonstrate decisive judgment and ability to work at top of licensure. In addition to performing HRA responsibilities, include interpreting pathology/cytology reports, obtaining detailed patient histories, performing human papillomavirus teaching and risk reduction counseling. A job requirement is to complete the high-resolution Anoscopy course offered by the International Anal Dysplasia society. The department will financially sponsor this training. The position requires certification and licensure in NYS as a Nurse Practitioner. Requires a Master's Degree in Nursing or related field and an active New York State license in good standing. Physician Assistant requires completion of an AMA approved Physician Assistant program, licensure in good standing, and certified as a registered Physician Assistant. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Department of Surgery - Hepatobiliary, Pancreatic and Gastrointestinal Surgery - Nurse
Available Positions

**PracticeN/Physician Assistant (243452)**

FT position available, daytime hours, Monday – Friday

Exciting opportunity to work in the Department of Surgery, alongside Surgical Subspecialties, Surgical Oncology, Medical Oncology, Radiation Oncology, Imaging Sciences, nursing, social work and clerical staff. Will coordinate and provide care for patients across the disciplines by establishing an effective communication interface. Will provide direct care to patients with HPB/GI needs, including initial evaluations, preparation of patients for surgery through education and pre-operative work-up, outpatient post-operative care and symptom management. Will assist in development of process improvement and quality indicators to help assure best practice standards. Will assist with development of curriculum for educational activities in the multidisciplinary HPB/GI team. Requirements: NYS License PA candidates or valid license to practice as an NP in NYS. Must have excellent communication and team facilitation skills. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Transplant Services**

**Pre-Transplant and Post-Transplant - Nurse Practitioner/Physician Assistant (246848)**

FT outpatient position available (40 hours), Primarily Days, Monday thru Friday 8-hour shifts (No Holiday or Call)

Opportunity for a Nurse Practitioner or Physician Assistant to work in a fast paced, clinically challenging environment. Primary responsibilities include working collaboratively with transplant surgery/hepatology and a multidisciplinary care team to provide care for pre-surgical and post-liver transplant recipients. The APP will provide direct patient care of pre and post-transplant patients, including management of complications and disease recurrence, ordering and reviewing testing, and management of immunosuppression. Additionally, completion of state and hospital required reviews of practice and participation in performance and quality improvement and other activities as required. Candidate must have excellent communication skills and be comfortable working in a dynamic multidisciplinary setting. Attendance at divisional/departmental weekly and monthly conferences is expected. Involvement in research, committees, developing and maintaining policy and procedures is encouraged. The candidate will serve as a resource on end-stage liver disease and liver transplantation to internal and external health care providers. The successful candidate will work collaboratively within the multidisciplinary Transplant Team including surgeons, hepatologists, APPs, Social Workers, Dieticians, and RNs. Strong clinical and communication skills required.
