Available Positions

Pediatric Services

**Department of Pediatrics-Complex Care Center - Nurse Practitioner/Physician Assistant (237986)**

Full Time Days M-F with on call responsibilities

The Complex Care Center (CCC) provides interdisciplinary care to youth and adults (age > 12) with pediatric onset conditions including developmental disabilities, sickle cell disease, cystic fibrosis, cerebral palsy, among others. Clinical services at the CCC include primary care, dentistry, physical/respiratory therapies, dietician, and behavioral health. The CCC provides complex and coordinated care through one single point of entry through the engagement of multiple clinical departments and service lines. National certification as Family Nurse Practitioner or Physician Assistant registered in New York State. Preferred one year of experience as a Nurse Practitioner/PA in primary care including experience with intellectual and developmental disabilities. The position will encompass teaching, research, quality improvement and provide clinical care.

**Division of Pediatric Cardiology - Adult Congenital Heart Center - (FNP) Family Nurse Practitioner/Physician Assistant (241629)**

Full Time position available (40 hours per week)

Advanced Practice Provider ( APP; Family Nurse Practitioner, Adult Gero or Physician Assistant) to join our growing Adult Congenital Heart Disease (ACHD) team. The candidate will practice in an advanced role to provide comprehensive inpatient and outpatient care for adults with congenital heart disease. The candidate will assume responsibilities in assessing, diagnosing, and initiating treatment independently and in collaboration with clinicians and staff with expertise in the care of adults with congenital heart disease. The candidate is expected to participate in education of providers at different levels and participate in research in collaboration with a multidisciplinary team. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**NICU - Pediatric Nursing - Neonatal Nurse Pediatric Nurse Practitioner/Physician Assistant (238053)**

FT position available, 13-hour, D/N rotation with flexibility, 4 weekend shifts every 6 weeks, weekends may fluctuate up based on unit needs

Provide direct care and management of patients in the GCH Level IV Regional Perinatal Center, 68 bed Neonatal Intensive Care Unit, in collaboration with Neonatology Faculty. Participates in delivery room stabilization and management of neonates. Acts as a consultant to birth center and newborn nursery as needed. Develops care policies and protocols for NICU patients in conjunction with the neonatology attending. Contribute to nursing and quality assurance programs related to the NICU. Supervise clinical experiences for NP students in the NICU. Demonstrate support for the School of Nursing philosophy of integrating practice, education, and research. Minimum Qualifications: Eligibility for PA/NP licensure in NYS. NICU nursing experience or previous experience as an APP required. If previous experience as an APP is not within the NICU setting, a NICU rotation as a student APP required.
Available Positions

**Pediatric Cardiac Care Center - Nurse Practitioner/Physician Assistant (239943)**

FT position, Tier 3 position which include day/evening/night/weekend/holiday coverage rotations.

In collaboration with a multidisciplinary team, the APP participates in clinical evaluation and management of pediatric cardiac ICU patients. Responsibilities include direct patient care for all ICU level pediatric cardiac surgical and pediatric cardiology patients. Responsibilities will include assessment of patients completing H&Ps, daily notes, care coordination, follow up on ECG/Cardiac testing, and patient/family education. Additional responsibilities include participating in QI and research projects, educational conferences, and APP student precepting. Applicant should be highly motivated with excellent clinical skills, sound judgement, and able to work in a high acuity environment. Prefer applicants to have 1-2 years of relevant experience, but will consider exceptional new graduates. Requirements include: NY state licensure as an NP with National Certification within 3 month of appointment or Board-Certified PA. 1-3 years of pediatric cardiac experience preferred.

**Pediatric Hematology Oncology - Pediatric Nurse Practitioner/Physician Assistant (239341)**

FT position available (40 hours), 4 10 hour days (mainly weekdays with rotating Saturday morning coverage)

Exciting opportunity for an experienced NP/PA who enjoys being part of a hardworking interdisciplinary team to provide care for pediatric patients with hematologic and oncologic disorders. Oversight of patients receiving chemotherapy, blood products, and monoclonal antibodies in the infusion center is included in the responsibilities of office visits for patients. Lumbar punctures for chemotherapy and bone marrow biopsies are a large role of the NP/PA in this outpatient clinic. This role also encompasses direct patient care in a fast-paced clinical setting, participation in research protocols in the delivery of state of the art care, coordination of treatment planning including admission, follow-up appointments, and discharge planning. Educational accountabilities include teaching of patients, families, staff, residents and interfacing with home care companies to ensure provision of care. The ideal candidate for this position will have experience in the NP/PA role, excellent written and verbal communication skills, and at least 1 year of previous oncology experience.

**Pediatric Hospitalist - Nurse Practitioner (PNP or FNP) / Physician Assistant (240051)**

FT position available, day/night rotation with weekends/holidays

In collaboration with a multidisciplinary team, the APP participates in clinical evaluation and management of pediatric hospitalized patients. The APP will be providing inpatient care to infants/children/adolescents with a variety of acute/chronic health issues. This is a unique opportunity to work collaboratively with Pediatric Hospital Medicine/Ren/Chi/Heme Onc specialties. Additional responsibilities include participating in QI and research projects, educational conferences, collaborating with residents and APP student precepting. Applicant should be highly motivated, have excellent clinical & interprofessional communication skills, and be able to work in a high acuity environment. Requirements include: NY state licensure as an NP with National Certification within 3 month of appointment or Board Certified PA. 1 year of pediatric inpatient experience preferred, but will consider exceptional new graduates.

**Pediatric Primary Care Practice - Pediatric Nurse Practitioner/Physician Assistant (241019)**

PT position available (24 hours)
**Available Positions**

Work at Strong Pediatric Practice, a very busy urban pediatric clinic. This exciting opportunity to become part of a dynamic APP team requires being able to promote equitable healthcare of the highest order to a variety of diverse pediatric patients and their families. Seeking candidate who understands the economic and social conditions of the Rochester Community that could influence health status and healthcare delivery in underserved areas. Primary responsibilities include provision of direct patient care for well child visits, follow-up of chronic health issues, and acute illness visits. Additional responsibilities include care coordination, as well as interface with some community agencies involved in the care of the children within the practice. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Comfort working in a busy environment essential. Strong communication skills required; must be able to navigate discussions cross-culturally with staff, children, and families. Pediatric and trauma informed care experience preferred. Current NYS license and PNP registration required and national certification preferred.

**Pediatric Sedation - Nurse Practitioner/Physician Assistant (241024)**

M-F Days, FT or (2) PT positions available

Exciting opportunity to provide patient care in a new role within the Pediatric Sedation Service. The APP will work in collaboration with the Pediatric Imaging and Sedation teams, as well as the Pediatric Critical Care Attendings to provide comprehensive care to pediatric sedation patients in the inpatient and outpatient setting. Role will include providing minimal and moderate sedation including nitrous oxide, providing consultation and coordination for patients requiring procedural sedation, working with our ISD/EPIC team to continue to improve EHR tools for the sedation team, and assistance with the strategic growth of the program. APP will also assist in the development of clinical practice guidelines and participate in program related quality assurance/performance improvement activities, as well as provider education regarding the sedation program both locally and regionally. APP will work to develop and maintain relationships with inpatient and outpatient care teams to provide assistance in organizing care for complex sedation cases. Experience in pediatrics is required. The ideal candidate will have experience in sedation, critical care and/or pediatric procedural/perioperative care. The ideal candidate must have extremely strong clinical skills, especially in emergency situations. The candidate must have excellent written and oral communication skills and should be comfortable giving presentations in front of a large audience. PALS certification required. Pediatric Acute Care Post-Masters Certificate strongly encouraged within three years of hire. Qualifications: Nurse Practitioners require a Master's degree in Nursing, an active NYS licensure in good standing, and eligible for national certification. Physician Assistants require completion of an AMA approved Physician Assistant program, NYS licensure in good standing, and eligible national certification as a Registered Physician Assistant.

**Psychiatric Department**

**Comprehensive Psychiatric Emergency Program (CPEP) - Psychiatric Nurse Practitioner (242013)**

Part Time position available, D/E/N and rotating weekends No on-call responsibilities.

The Psychiatric Nurse Practitioner working in the Comprehensive Psychiatric Emergency Program will provide psychiatric evaluations and assessments, interventions and disposition planning for patients who present to the emergency room with
Available Positions

urgent psychiatric mental health needs. The Psychiatric Nurse Practitioner will have accessibility to psychiatrist consultation within a dynamic multidisciplinary team. Strong communication, interpersonal and organizational skills a must. CPEP is a 24/7 service so the NP must also be flexible with scheduling needs of the service. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: NYS Licensure as a Psychiatric Nurse Practitioner and ANCC Board Certification (certification required by end of first year of employment). At least one year of experience as a psychiatric nurse practitioner in an acute clinical setting preferred.

**Psychiatric Consultation Liaison Service - Psychiatric Nurse Practitioner/Physician Assistant (239570)**

Full time position available, Monday through Friday Days. No call.

Psychiatric Nurse Practitioner or Physician Assistant with experience in Psychiatry. Work as a member of a multidisciplinary team in providing psychiatric evaluations and recommendations as a consultant to a large medical/surgical inpatient service. Work collaboratively with med/surg nursing leadership and staff as requested, providing liaison activities such as educational offerings, assistance with behavioral management of patients, and debriefings. The NP/PA will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Required: NYS RN license; Master's Degree in Psychiatric Mental Health Nursing, ANCC Certified or Board Eligible or masters prepared PA, eligible for certification.

**Psychiatry Acute Services Float Provider - Nurse Practitioner (241085)**

FT position, M-F days

The Psychiatry Acute Services Float Provider is a dynamic full-time opportunity to work in Acute Psychiatry, providing care across the lifespan for all Department of Psychiatry Acute Services including Adult and Child Inpatient, Child Partial Program, Comprehensive Psychiatric Emergency Program and Geriatric Inpatient Psychiatry. The Psychiatry Acute Services Float Provider is a critical member of the multidisciplinary team including MD, NP, Nursing, Psychology, Social work and Activities therapy. The NP provides diagnostic and psychotherapeutic services including psychopharmacologic intervention, individual assessment and individual, group and family psychotherapy intervention. While prior acute services psychiatric experience is of benefit, this is an ideal position for a novice NP who desires acquisition of lifespan experience in assessment and management of acute psychiatric conditions, while doing so within the support of a multidisciplinary team approach to care. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. NYS RN License. Master's Degree in Psychiatric Mental Health Nursing and NYS license as a Psychiatric Nurse Practitioner.

Available Positions

evaluations, interventions and follow-ups in the community for persons in a mental health or mental health/substance use crisis. The nurse practitioner will provide crisis services in the field with a crisis specialist partner, as well as providing psychiatric consultation to a team in the field via tele psychiatry as indicated and consistent with OMH approval. In collaboration with the psychiatrist on the team, may provide psychopharmacological interventions as clinically indicated so support crisis stabilization. Excellent interpersonal and communication skills is a must. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: must be a licensed as a Psychiatric Nurse Practitioner in NYS and possess ANCC Certification as a Psychiatric Nurse Practitioner. At least one year of experience in an acute setting required.

**Strong Recovery Addiction Services - Department of Psychiatry - Psychiatric Nurse Practitioner (240442)**

FT position Monday through Friday Days with flexibility, limited on call

Work as a member of an interdisciplinary treatment team providing psychopharmacological and psychotherapeutic interventions in a comprehensive outpatient setting for patients across the lifespan in treatment for substance use disorders with mental health concerns and/or co-morbid psychiatric illness. Strong Recovery promotes recovery from addiction and co-occurring disorders (such as mental illness) through an integrated care model. Our services are staffed by a multidisciplinary team providing full spectrum outpatient addiction treatment services to patients across our region. The Psychiatric Nurse Practitioner is an essential member of the team providing direct clinical care to persons with substance use disorders through assessment for and prescription of all FDA approved medications for addiction treatment (MAT) as well as psychopharmacological evaluation and treatment for co-occurring psychiatric disorders. Requires NYS License as RN; NYS Certificate as Nurse Practitioner in Psychiatry and a Waiver 2000 for buprenorphine prescribing. Preferred experience as a Psychiatric Nurse Practitioner in mental health and substance use disorders treatment. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Surgical Department**

**Center for Perioperative Medicine (CPM) - Nurse Practitioner/Physician Assistant (241898)**

FT position available, primarily days, Monday – Friday

Primarily responsible for working with preoperative surgical patients for both hospital and ambulatory surgical centers through the Center for Perioperative Medicine (CPM). The major goals of CPM are to ensure the patient is optimally prepared for surgery, thereby enhancing patient outcomes and minimizing preventable OR cancellations and delays. In the CPM you will work collaboratively with anesthesiologists, surgeons, and nursing staff as well as with our group of established APPs. Preferably able to work with adult and pediatric patients but will consider experienced adult APP with NYS NP/PA licensure, MS degree, 3-5 years medical/surgical experience preferred. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
Available Positions

**First Assist - Nurse Practitioner/Physician Assistant (241422)**

FT position available

Under the direction of the Medical Director of Perioperative Services and the direction and responsibility of the attending physician, the APP will provide surgical first assistance during the inpatient operative procedure. In addition, the APP provider will be screening patients to determine the needs for medical attention, reviewing patient records to determine health status, taking patient history, performing physical examination, and recording pertinent patient data. Dictates notes for consultations and progress notes with accuracy and efficiency as appropriate per patient. Participates in rounds with the surgeon pre or post-operatively and will assist with the management and coordination of care as appropriate. During emergency situations, the APP provider will be initiating appropriate evaluation and therapy. Preferred Qualifications: Able to work effectively in an environment notable for complex, sometimes contradictory information. Surgical aseptic technique and experience in surgery: OB/GYN; Cardio Thoracic; General Surgery; Urology; ortho and ENT. Required qualifications: Completion of an accredited graduate-level Advanced Practice Provider (APRN or PA) program. Licensed as an Advanced Practice Provider and American Heart for the Provider BLS. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. NP's need first assist certification.

**General Surgery - Nurse Practitioner/Physician Assistant (242090)**

FT positions available. Primarily (4) 10 hour days in addition to 1 in 2 call responsibility.

Exciting position for a motivated NP/PA to participate in the management of patients in a busy outpatient general surgery practice. This NP/PA will work with a general surgeon in the ambulatory clinic (Strong West & Strong Memorial Hospital) and as a first assist in the outpatient OR (Strong West & Sawgrass Surgery Center). Responsibilities will include daily clinical management including documenting patient assessment, history, physical, diagnoses and care plan. Assisting with phone triage of outpatient General Surgery patients & identifying the need for consultation with general surgeon or other healthcare professionals. Performing minor procedures in the office setting. Applicants must have 3-5 years of experience, critical care background helpful. For NPs- RNFA experience preferred. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Vascular Inpatient - Nurse Practitioner/Physician Assistant (241133)**

FT position available, 10-hour days, 1 weekend/mo.

Will work collaboratively with faculty and APPs from the Division of Vascular Surgery in the evaluation and management of inpatients referred for vascular surgery care. Applicant must be motivated, flexible, independent and possess excellent clinical and communication skills. Participates in the educational program for surgical residents and nursing staff. MSN required, NYS NP or PA licensed. Must possess or obtain national certification within 3 months of hire. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.
Available Positions

Transplant Services

**Liver Transplant - Physician Assistant (241871)**

Monday thru Friday, 8am – 4:30pm. No weekend or holidays required.

This is an exciting opportunity with the abdominal transplant program for a highly organized PA who is interested in complex medical and surgical patients. Specialized position treating patients with hepatobiliary malignancies who come from around the country to receive care at our center. Transplant is a highly collaborative and multidisciplinary environment where the PA would work with surgeons, hepatologists, other APPs, RN coordinators, dedicated Pharmacists, Dietitians and Social Workers, among others. The position also affords the rewarding opportunity to work with living liver donors. Primary responsibilities include pre- and post-operative management of patients undergoing transplant for colorectal liver metastases and other liver malignancies; medical and surgical evaluation of living liver donor candidates. Qualifications: Highly preferred Board Certified PA with experience working with complex surgical patients. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Must be eligible for billing.
