FT position, 40 hours, primarily D/E, split care coordination and clinical time

Challenging clinical opportunity for a highly motivated and well-organized individual to facilitate care of complex pediatric patients during the hospitalization and in transition from hospital to home. Accountabilities include, but are not limited to, functioning as a liaison with the varied interdisciplinary teams to formulate safe discharge plans with family, patient education needed for discharge, policy revision and development, education on the unit and service level, and evidence based performance improvement endeavors. Significant opportunity to partner with adult ICU as well as community resources to meet family needs. Excellent interpersonal, communication and problem solving skills are necessary with staff, families, and interdisciplinary team members, as there will be opportunities to represent the PICU on service and hospital based committees. Flexibility in schedule as needed for optimal coordination of care. Opportunity to add clinical bedside care hours to make FT position BSN degree and 5 years PICU experience preferred.

6 South - Pediatric Cardiac Care Center - Level I - II (230559)

FT positions available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit standard.

Exciting opportunities await RN's looking to work in a fast paced pediatric unit caring for surgical and medical patients with cardiac disease. The Pediatric Cardiac Care Center provides state of the art nursing care to children and young adults with congenital heart defects undergoing cardiothoracic surgery, and cardiology patients with known or newly diagnosed cardiac disease. This specialized unit delivers comprehensive care through a multidisciplinary approach from admission through discharge. The ideal candidate must demonstrate strong critical thinking and communications skills, and be able to manage highly acute, complex patients in a rapidly changing environment.

Available Positions

AC-6 - Ambulatory Pediatrics - Level II (232673)

FT (40 hours) / PT (24 hours) position available; mostly days with occasional Saturdays and evening hours per unit needs.

Ambulatory Pediatrics is seeking a team oriented pediatric registered nurse to join our multidisciplinary team focused on serving a diverse population of patients and families. Seeking strong candidate with career focus on promoting health equity and inclusion. This is a fast-paced environment providing family centered care within a variety of outpatient clinic settings including primary care and specialty care. Nurse must have 2 years pediatric nursing experience, preferably outpatient or community health based. Requires excellent problem solving, prioritization, and communication skills. Must be flexible to adjust to the changing needs of all of our ambulatory care areas. American Sign Language or Spanish fluency preferred but not required.

AC6 - Pediatric Practice - Registered Nurse/Telemedicine RN Coordinator - Registered Nurse, Level II (238419)

FT (40 hrs) position available; mostly days with occasional Saturdays and evening hours per unit needs.

Pediatric Practice is seeking a team oriented pediatric registered nurse to join our multidisciplinary team focused on serving a diverse population of patients and families. Seeking strong candidate with career focus on promoting health equity and inclusion. This is a fast-paced environment that provides family centered care that concentrates on meeting the primary care and complex medical needs of our patients and families. A portion of this position will be centered on our Telemedicine Program. The RN would work collaboratively with the multidisciplinary Telemedicine Team which includes school health providers to integrate care within Rochester City School District. The RN will support the telemedicine technicians offsite who interface with patients and their families while utilizing equipment to obtain clinical information for the provider visit, such as, accurate photos, videos and point of care testing. Training on all equipment and technique will be provided. Nurse must be comfortable navigating a variety of technology. Nurse must have 2 years pediatric nursing experience, preferably outpatient or community health based. Requires excellent problem solving, prioritization, and communication skills. Must be flexible to adjust to the changing needs of all of our ambulatory care areas. American Sign Language or Spanish fluency preferred but not required.

Department of Pediatric Allergy and Immunology - Registered Nurse - Level II (235946)

FT/PT position available; mostly days

The Department of Pediatric Allergy is seeking a team oriented yet independent pediatric nurse to work within our multidisciplinary team to provide patient and family centered outpatient care. This position involves nursing care in clinic that will include patient monitoring and assessment while administering allergy shots, allergy testing, oral food/drug challenges, and food allergy trials as well as other clinic/patient support duties. When not in clinic this position will provide telephone triage/management to support the care of the patients seen by The Division of Pediatric Allergy. Nurses must have 2-3 years nursing experience with pediatric experience preferred but not required. Excellent problem solving, prioritization and communication skills are required. Must be able to use independent judgment skills within the support of the multidisciplinary

Available Positions

team. Telephone Triage and phlebotomy skills preferred but not required.

Golisano Children's Hospital Critical Care Flex Team - Level III (234294)

FT positions available, D/N, 12 hour shifts, weekends and holidays per unit policy, occasional on-call responsibilities.

This dynamic position requires the ability to work in a fast-paced environment with changing priorities. The position offers exposure to a variety of critical care specialties including the NICU, PICU, PCCC, and Peds ED. Team members will develop a diverse skill base and expertise in the care of critically ill pediatric patients. The ideal candidates will be able to demonstrate strong critical thinking, communication, and organizational skills. Must have a minimum of 2 years of critical care experience.

Neonatal Intensive Care - Level II (234886)

FT positions available. D/N, or straight nights, 8 and 12 hour shifts, every other weekend and holidays per unit policy.

The NICU is the only one of its kind in the Finger Lakes Region. It's a highly specialized, nationally recognized center providing the highest level of care available for sick or premature newborns, including advanced treatment for respiratory failure and heart disease. Demonstrates ability to work in a high tech, fast paced environment. Excellent organizational and conflict resolution skills. Commitment to customer focused, family centered care. Pediatric experience preferred.

Pediatric Cardiac Catheterization/EP Lab - Registered Nurse, Level II (238189)

FT position available, Monday through Friday, primarily days, with on-call responsibilities.

Function as a member of the Pediatric Cardiology team with primary responsibilities in the Pediatric Cardiac Catheterization/EP Lab. Primary responsibilities include providing direct care to pediatric and adult cardiology patients undergoing cardiac catheterization procedures, including pre-procedural assessments, patient education, and discharge planning. Act as circulation nurse during procedures. Assist with patient management, and telephone triage for patients undergoing cardiac catheterization. Additional responsibilities include control room role for hemodynamic/interventional procedures, including hemodynamic and rhythm monitoring, creation of patient data reports, and procedural documentation. Ideal candidate has enthusiasm for learning and working in a team. Pediatric experience and 3 years of acute care experience preferred, but not required.

Pediatric Emergency Department (Peds ED) - Registered Nurse - Level II (233411)

FT position available, D/E/N, 8 and 12 hour shifts, holidays and weekends per unit policy, on-call responsibilities.

The Peds ED offers family centered care to those under the age of 19, seeking care for urgent and emergent issues. The unit is comprised of 18 general care beds, 1 critical care bed, 4 urgent care beds and the use of the 7 bed trauma bay which we share with the adult ED. The tertiary care offered at GCHaS has a complex case mix. From treat and release to acute critical care/trauma the staff are trained to function in a fast paced and challenging environment. Minimum of one year experience in pediatric acute care or ED experience. Provide direct care to pediatric patients/families in a fast paced

Available Positions

collaborative environment. Demonstrates good interpersonal skills, strong prioritization and organizational skills, flexibility and clinical competence.

Pediatric Endocrinology - Registered Nurse, Level II (238417)

Part-time (20hrs) position available; mostly days

The Division of Pediatric Endocrinology is seeking an autonomous, yet team oriented pediatric nurse to work within our multidisciplinary team to provide patient and family centered care. This is a fast-paced outpatient division that provides care to children with Endocrine based disease processes. Nurses work collaboratively with NPs, MDs, and other members of the team to provide comprehensive care involving telephone triage and care management, as well as phone-based patient education and family support. Nurses must have 2-4 years pediatric nursing experience as well as excellent problem solving, prioritization and communication skills. Must be able to use independent judgment with the support of the NP and MD team. Telephone Triage skills and knowledge about Diabetes preferred but not required. Spanish language fluency preferred but not required. Diverse applicants encouraged to apply.

Pediatric Imaging Sciences - Golisano Children's Hospital - Level II (233710)

FT (36 or 40) position available, D/E; staggered 8/10/12 hr shifts available; straight evening hours available.

Minimal on call responsibilities for weekends and holidays. This unique unit seeks passionate and motivated individuals to care for a wide variety of inpatients and outpatients across the pediatric age spectrum undergoing diagnostic CT, MRI, PET MRI, Ultrasound, and GI/GU imaging. Population also includes sedated procedures, including pre and post/minimal to deep sedation and general anesthesia for IR and MRI. Although predominately pediatric, this area also cares for adult patients undergoing cardiac CT, MRI and PET/MRI. Must be flexible and able to adapt/prioritize readily to changing responsibilities in a fast paced environment. Strong assessment, excellent communication and good IV skills are essential. Expectation is to provide high quality patient and family centered care, especially in challenging situations. 2-3 years of acute pediatric or mixed adult/pediatric experience required. Radiology, Pediatric Critical Care, Pediatric PACU or Pediatric ED experience preferred. PALS & ACLS certification required within 1 year of hire.

Pediatric Operating Room - Level I - II (234674)

FT positions available. D/E/N, 8/10/12 hour shifts, holidays, weekends, and on-call responsibilities.

Seeking enthusiastic individuals, excited to be a part of a multidisciplinary team that cares for pediatric patients across the age continuum. Specialties include general surgery, urology, dental, OMFS, neurosurgery, plastics, burns, ENT, and orthopaedics. On-call responsibilities with a 30 minute response time required. Requires a nursing degree from an accredited Nursing Program and an active New York State RN license in good standing. New graduates welcomed!

Pediatric Specialty Nurse for the Division of Developmental and Behavior Pediatrics - Level II (236575)

PT (24hr) position available; mostly days

Available Positions

The Clinical Services of Developmental and Behavioral Pediatrics (DBP) are seeking an autonomous, yet team oriented pediatric nurse to work within our multidisciplinary team to provide patient and family centered care. This is a fast-paced outpatient program providing care to children with intellectual and developmental disabilities. This position involves telephone triage and care management, as well as phone-based patient education and family support to families receiving care through DBP. RNs work collaboratively with NPs, MDs, psychologists and others on the DBP team. 2-3 years of pediatric or Behavioral Health nursing experience preferred as well as excellent problem solving, prioritization and communication skills. Must be able to use independent judgment with the support of the NP team. Telephone Triage skills and disability knowledge preferred but not required. Spanish language fluency preferred but not required. Diverse applicants encouraged to apply.

Pediatric Surgical Suite - Registered Nurse-Level II (233446)

FT position available, D/E, 8, 10, and 12 hour shifts, occasional nights and week-ends per unit need. Holiday and on-call responsibilities

The APP will also help to ensure continuity of patient care by coordinating communication among the ED, inpatient, OR, and outpatient Neurosurgery teams, and assisting in patient education and family updates. The APP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skills training. Qualifications: Applicant must demonstrate excellent communication skills with an ability to make

Available Positions

independent decisions in the management of complex stroke and cerebrovascular disease patients. Extensive on-the-job training will also be provided. Must be NYS NP/PA licensed. Must possess or obtain national certification within 6 months of hire.

Neurology - Adult Epilepsy - Nurse Practitioner/Physician Assistant (237423)

FT position- Monday- Friday, days. No weekends or holidays

Exciting opportunity to work in a Level 4 Comprehensive Epilepsy Center caring for people with medically intractable epilepsy in the outpatient setting. We are a large, specialized, regional program diagnosing and treating patients with epilepsy that have not fully responded to initial therapy, offering traditional and advanced medication management, epilepsy surgery, device therapy (vagus nerve stimulation (VNS), deep brain stimulation (DBS) and responsive neuro stimulation (RNS), diet therapy (ketogenic diet, Modified Atkins Diet), education, and psychosocial support to patients and families. We use a team-based care model with clerical staff, technologists, nurses, advanced practice providers, epileptologists, neurosurgeons, social workers, psychologists, psychiatrists, other allied disciplines, and community support agencies such as EPI (Epilepsy-Pralid) working together to provide the best outcomes with the highest quality-of-life achievable. The APP will provide direct care in the inpatient and outpatient setting. In the inpatient role, working directly with the Epilepsy team (consisting of an Attending physician and variably fellows, residents, psychologists and other providers), the APP will evaluate and manage new admissions and daily visits of patients on the Epilepsy Monitoring Unit. In the outpatient setting, the APP will evaluate and manage follow-up patients during clinic visits (often alternating visits with the epileptologist), including managing antiseizure medications, ordering and interpreting lab studies, neuroimaging study results and EEG results, programming vagus nerve stimulator devices, evaluating efficacy of treatment and adjusting therapy as needed. The APP will also provide indirect care for patients including responding to patient phone calls, MyChart messages, follow up on lab and other test results, prescription renewals, and form completion, with the assistance of a nurse and clerical staff. There is an extensive comprehensive onboarding process prior to independent function. Onboarding to epilepsy care will be individualized with specialty education primarily provided by the physicians (epileptologists), with support from our other APPs and the rest of the team. Our goal is that the fully trained APP will be able to practice comfortably in an autonomous fashion with input from the physicians whenever needed and especially on a regular basis in complex cases. Requirements: NY State license and certification (or eligible). Previous neurology experience ideal. Previous APP experience preferred, but new graduates with the right attitude and motivation will be considered.

Pain Management - Neurosurgery - Nurse Practitioner/Physician Assistant (236858)

FT position available, Monday – Friday, office based practice

Opportunity to join our nationally recognized program which is focused on the treatment of acute and chronic pain in the setting of spinal disorders and neurological disease. This program was named a Clinical Center of Excellence by the American Pain Society in 2013, the only academic medical center program in the nation to earn designation that year. This candidate will join a multidisciplinary team that brings together clinicians from diverse specialties (nursing, neurology, neurosurgery, anesthesiology, radiology). Patients with chronic nerve injury pain due to spinal disease, peripheral nerve

Available Positions

trauma, trigeminal neuralgia, and neuropathies are the focus of this rapidly growing collaboration with leading institutions across the region. Experienced APP desired with proven clinical skills. Experience in Pain Management, Neurology and Neurosurgery desired. Practice is based in Rochester. Referral triage, telephone management, and participation in research activities will account for approximately 15% of professional time. Outpatient patient management responsibilities include new and follow up visits including procedures, with a team of Pain Management Specialists. Occasional call for collaborating physician. Candidates must have excellent organizational and communication skills. National Certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

OB/GYN Department

OB/GYN - Nurse Practitioner/Physician Assistant (236939)

Per diem position, Days and Weekends

Exciting opportunity for an advanced practice provider to manage obstetrical inpatients at Strong Memorial Hospital. APP to assist in the admission process and management of postpartum patients in conjunction with the inpatient Obstetrical team. Daily responsibilities include but are not limited to evaluation of acute patient issues, writing orders, scheduling consults/testing and coordinating care and discharges. Seeking a collaborative- minded provider interested in women's health, quality improvement, and interested in working with multidisciplinary team including nursing, anesthesia, social work, and OB/Gyn. If previous experience as an APP is not within the NICU setting, a NICU rotation as a student APP required.

Pediatrics Endocrine - Nurse Practitioner/Physician Assistant (238424)

PT position (32 hours), primarily days

NP/PA position available in the Division of Pediatric Endocrinology at UR Medicine. This is an exciting opportunity for an NP/PA who enjoys being part of an interdisciplinary team that provides specialty care to children with diabetes and other endocrine disorders. Primary responsibilities will include provision of direct patient care to children with Type 1 and Type 2 diabetes in a busy outpatient clinical setting. Patient care includes patient/family education regarding diabetes management, assessment of diabetes data and blood sugar control and making appropriate management changes, monitoring for and treating co-morbid conditions, ordering testing, assessing and addressing psychosocial aspects of a chronic condition. The role will also involve significant telephone management with families and school nurses including oversight of RN phone management as well as are coordination with other disciplines. The ideal candidate for this position will have experience in the NP/PA role, skills in working with children and families. Strong written and verbal communication skills and comfort working in a busy environment are important. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Psychiatric Department

Comprehensive Psychiatric Emergency Program (CPEP) - Psychiatric Nurse Practitioner (237885)

Full Time position available, days, evenings and rotating weekends. No on-call responsibilities.

Available Positions

The Psychiatric Nurse Practitioner working in the Comprehensive Psychiatric Emergency Program will provide psychiatric evaluations and assessments, interventions and disposition planning for patients who present to the emergency room with urgent psychiatric mental health needs. The Psychiatric Nurse Practitioner will have accessibility to psychiatrist consultation within a dynamic multidisciplinary team. Strong communication, interpersonal and organizational skills a must. CPEP is a 24/7 service so the NP must also be flexible with scheduling needs of the service. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: NYS Licensure as a Psychiatric Nurse Practitioner and ANCC Board Certification (certification required by end of first year of employment). At least one year of experience as a psychiatric nurse practitioner in an acute clinical setting preferred.

Program for Mental Health and Gender Wellness in Obstetrics and Gynecology - Division of Collaborative Care and Wellness - Psychiatric Nurse Practitioner (237672)

Part-time (20 hours)

The Psychiatric Nurse Practitioner will work in a highly supportive and collaborative general obstetrics and gynecology practice primarily serving patients with Medicaid insurance as a part of the Program for Mental Health and Gender Wellness (MHGW). A key goal of MHGW is to improve access and reduce health disparities in our community, particularly among patients of color. Our multidisciplinary team works together to provide assessment, education, consultation, and treatment for OB/Gyn patients who have mental health needs. The Psychiatric Nurse Practitioner will be a key member of this team and: provide consultations to ob/gyn providers, primary care physicians, and psychiatrists; prescribe for a small subset of pregnant patients; and conduct e-consults and phone consults. Qualifications: ANCC Board Certification and NYS Licensure as a Psychiatric Nurse Practitioner. Weekly supervision with a psychiatrist with reproductive health expertise will be provided. The individual that occupies this position must have strong interpersonal and organizational skills, a collaborative approach to patient care as well as the desire to contribute to an evolving program. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. The University of Rochester Medical Center is located in a culturally diverse and vibrant community in upstate New York. We are an Affirmative Action/Equal Opportunity University that values diversity. Members of underrepresented groups, including people of color and those with disabilities, are encouraged to apply.

Strong Behavioral Health Mobile Crisis Team - Psychiatric Nurse Practitioner (237837)

FT position available, day/evening M-F, with some weekends also.

Exciting opportunity for a psychiatric nurse practitioner to work collaboratively as part of a multi-disciplinary team providing evaluations, interventions and follow-ups in the community for persons in a mental health or mental health/substance use crisis. The nurse practitioner will provide crisis services in the field with a crisis specialist partner, as well as providing psychiatric consultation to a team in the field via tele psychiatry as indicated and consistent with OMH approval. In collaboration with the psychiatrist on the team, may provide psychopharmacological interventions as clinically indicated so support crisis stabilization. Excellent interpersonal and communication skills is a must. The NP will also participate in the

Available Positions

education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: must be a licensed as a Psychiatric Nurse Practitioner in NYS and possess ANCC Certification as a Psychiatric Nurse Practitioner. At least one year of experience in an acute setting required.

Telepsychiatry - Division of Geriatric Psychiatry - Psychiatric Nurse Practitioner (237785)

Part-time (24 hours)

The Psychiatric Nurse Practitioner will work in a supportive and collaborative telepsychiatry practice primarily serving patients in long-term care facilities with behavioral and/or mental health needs. This model is consultative in nature and has proven success through a multi-level systems approach including one-on-one telepsychiatry, Project ECHO and a nurse engagement specialist. This individual will provide psychiatric consultation via video communication for residents of long-term care facilities across New York State. The individual that occupies this position must have strong interpersonal and organizational skills, be flexible in nature to meet the needs of the resident/facility, utilize a collaborative approach to patient care as well as a desire to contribute to an evolving program. Function autonomously while conducting psychiatric evaluations and making psychotropic medication recommendations, including opportunities to simplify medication regimens. Support transition of individuals from psychiatric centers to nursing homes. Collaborate with healthcare providers, social workers, and nurses while providing psychoeducation to bolster use of nonpharmacological interventions. Qualifications: ANCC Board Certification and NYS Licensure as a Psychiatric Nurse Practitioner. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Available Positions

Opportunities for Clinical Nurse Specialist
