Ambulatory Services

**Primary Care Network (Gates Medical Associates) - Nurse Practitioner/Physician Assistant (245890)**

PT or FT position available. Monday – Friday, daytime hours.

Exciting opportunity for an experienced NP or PA to join a busy Family Medicine practice and become part of an interdisciplinary team that provides patient care utilizing the Patient Centered Medical Home model. This is a fast-paced office in the Rochester suburb of Gates, NY area. The providers care for newborns, children, teenagers, and adults across all ages and medical issues. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, and patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. An APP with greater than 2 years of active primary care practice is favored; however, other strong applicants with a passion for primary care will be considered. An APP mentoring program is available for all new hires along with thoughtful onboarding. The candidate must possess NYS NP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

**Primary Care Network (Southview Internal Medicine) - Nurse Practitioner / Physician Assistant (246157)**

FT position available. Five days per week, daytime hours.

Opportunity to join a very busy Internal Medicine Practice in the Brighton, NY area and become part of an interdisciplinary
Available Positions

team that provides patient care utilizing the Patient Centered Medical Home model. The practice specializes in providing medical care for adult patients over the age of 18. Responsibilities include: evaluation and management of acute/chronic illnesses, ordering/interpreting/communicating diagnostic tests and results, complete physical exams, Wellness visits, hospital/ED follow-ups and Transitional Care Management, collaboration with network based physicians and medical team regarding patient care, facilitating appropriate referrals to specialists or community-based agencies, opportunities for office based procedures, patient education/counseling intended to maintain or restore physical/emotional health and function, and educational support for various learners consistent with the goals of the UR teaching institution. Ultimately, the APP will have the opportunity to establish a team supported patient panel. Excellent communication and collaboration skills are essential with the ability to exercise independent judgement and initiative. The office is looking for an organized and motivated APP with greater than 2 years of clinical practice in primary care. The candidate must have completed NYS NP/PA certification along with licensure and have applied for DEA registration prior to hire/start date.

Cancer Center

Radiation Oncology in the Southern Tier (Dansville Location) - Nurse Practitioner/Physician Assistant (246198)

FT position available, Monday to Friday, 8 hours shifts

An opportunity to work in collaboration with the Regional Radiation Oncology Medical Faculty and APP's in the Dansville office in the provision of clinical care for patients undergoing treatment for cancer at the University of Rochester. The team seeks a good decision-maker, with proven success in making timely decisions. This person must be able to work effectively in a fast-paced outpatient environment dealing with a wide range of disease. Must be adept at planning and prioritizing work. Must be flexible in their approach and demeanor in order to align with shifting demands of evolving circumstances. Responsibilities include direct patient care including evaluation and management of acute illness and chronic symptom management, follow-up, coordination of services, and patient and family education. The APP will be working collaboratively with our Radiation Oncology teams. Involvement in clinical trial accrual. Serves as clinical liaison between faculty, APP's, Residents and administration. Participates in department meetings relevant to clinical duties. Excellent communication skills with proven ability in exercising independent judgement and initiative. Experience as an advanced practice provider is strongly desired, though new graduates may be considered. The APP will participate in the education of learners (students, Residents and new employees), using clinical learning experiences, knowledge sharing and skill training.

Surgical Oncology - Breast Center - Nurse Practitioner/Physician Assistant (246461)

FT position available, daytime hours, Monday – Friday

Opportunity to work in a multidisciplinary clinic in the Pluta Cancer Center of Wilmot Cancer Institute, which includes Surgical Oncology, Medical Oncology, Radiation Oncology, Imaging Sciences, nursing, social work and clerical staff. This position will work alongside Breast Surgical Oncology to coordinate care for patients across the disciplines, establishing an effective communication interface with all of the disciplines. Will provide direct care to patients with breast disease, including but not limited to clinic preparation, clinic, education and PRAT (PRe-Operative Assessment and Teaching) visits, surgeries,
Available Positions

post-operative care and symptom management. Will assist in development of process improvement and quality indicators to help assure best practice standards. Will assist with development of curriculum for educational activities in the multidisciplinary Breast Center. Participation in community outreach and event activity will be encompassed in this role.

Requirements: Current, active certification as an NP with NYS and active license as an RN with NYS. Prefer 3 – 5 years of experience as an Advanced Practice Provider. Must have excellent communication and team facilitation skills.

**Wilmot Cancer Institute - Lymphoma - Nurse Practitioner/Physician Assistant (245917)**

Full Time position available. Monday through Friday, primarily daytime hours with 4, 10 hours available

This is an opportunity for an APP to join the interdisciplinary team at the Wilmot Cancer Institute in providing care to patients with lymphoma. The team seeks a good decision-maker, with proven success at making timely decisions. This person must be able to work effectively in a fast-paced outpatient environment dealing with a wide range of diseases. Must be adept at planning and prioritizing work and communicate well in a team environment. Must be flexible in their approach and demeanor in order to align with the shifting demands of evolving circumstances. Responsibilities include evaluation and management of acute illness, chronic symptom management, acute and long-term follow-ups, coordination of services, and patient and family education. Candidate will work as a collaborative member of the APP team and provide coverage to support the needs of the group. This opportunity may include the development of proficiencies in procedures such as bone marrow biopsy or other procedures, along with the development of expertise in chemotherapy administration and clinical trial enrollment. Excellent organizational and team skills are essential. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Cardiovascular Center**

**42800 - Cardiac ICU - Nurse Practitioner/Physician Assistant (240696)**

FT position available, D/N, 13 hour shifts, weekends & holidays per unit policy.

Exciting opportunity to work in a well-established high performing APP group. Responsibilities include direct care for all cardiac surgery and cardiology ICU patients. Our CICU is a quaternary referral Shock Program with high volume ECMO, Impella, and VADs. Independent management (including invasive procedures) in collaboration with dedicated CICU intensivists. Other responsibilities include routine management of post-operative cardiac surgery patients (CABG, valves, TAVR, Aortic replacement, VAD, transplant, etc), post cath lab ICU patients (PCI / Stent, IABP, Impella), participation in QA/PI, educational conferences and rounds, and student precepting. Applicant must be motivated, flexible, and independent and possess excellent clinical skills in critical care. Applicants should have 2 years recent relevant experience and be NCCPA certified or NYS NP eligible. Will consider exceptional new grads.

**Adult Inpatient Cardiac Surgery Step-Down - Nurse Practitioner/Physician Assistant (246120)**

FT or PT position available, days and evenings, weekends and holidays per unit policy

Exciting opportunity to work in a well-established practice as part of a collaborative team providing care to pre- and post-
Available Positions

operative patients within the Division of Cardiac Surgery. Our patient population includes those undergoing CABG, open valve or minimally invasive valve replacements/repairs (including TAVRs), and patients post-ECMO. Key job responsibilities include providing direct care, assessment, evaluation, and intervention on arrhythmia management, wound care, surgical follow-up, drain care, and medical optimization. Must have strong communication skills as this role collaborates closely with other members of the interdisciplinary team to achieve excellent patient outcomes both during hospitalization and after discharge. Familiarity with core measures and performance improvement commitment is required. NYS licensed (PA/NP), Master's degree required (ACNP preferred for NPs). Nationally certified or eligible for certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Cardiac Critical Care (Cardiac Intensive Care Unit) - APP FELLOWSHIP - Nurse Practitioner/Physician Assistant (242250)

FT positions available, rotating D/N, 13-hour shifts, weekends and holiday as needed

The APP Fellowship in Cardiac Critical Care is a 1-year post-graduate specialty training program for strong PAs and NPs with a desire for Cardiac Intensive Care. The program is both clinical and didactic, focusing on both Cardiac Surgery and Cardiology with the UR Cardiac Care service-line. The fellowship Program includes a core program of Cardiac Critical Care, Cardiac Surgery and Cardiac Shock. Several rotations meant to enhance the core CICU provider education include in depth, hands on training in all aspects of Mechanical Circulatory Support (VA/VV/RVAD ECMO, LVAD, RVAD, Impella, IABP), Cardiac Catheterization & Electrophysiology Labs, Echocardiography, Advanced Heart Failure (Heart Transplant and LVAD), among others. The NP/PA Fellow will provide Cardiac Critical Care for adult and adult congenital Cardiac Surgery and Cardiology patients in the UR CICU and Cardiac Care service-line. Our NP/PA Fellows will work collaboratively with Cardiac Critical Care Intensivists, Cardiac Surgeons, Cardiologists, the PA/NP groups, as well as nursing staff. Excellent communication and teamwork required. NPs require a Master's degree (or pending) as an Acute Care NP, an active/pending NYS licensure in good standing and current/pending national certification as an NP; min of 3 years of experience as an RN (strongly prefer 5) with at least one year of leadership experience or equivalent combination of education and experience. PAs require completion of an ARC-PA approved Physician Assistant program, New York State licensure in good standing/pending and current/pending certification by the NCCPA. APP Fellows will demonstrate clinical competence, superior verbal and written communication skills, interpersonal effectiveness and customer relations skills, computer competence and must have an active desire to learn. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Applications for the 2023-2024 Fellowship class will be accepted starting December 15th, 2022. Application Deadline: March 1st, 2023.

Critical Care Services

31800 - Burn Trauma ICU - Nurse Practitioner/Physician Assistant (242490)

Ideally 2 years' experience in an advanced practice role, preferably with a neurology/neurosurgical patient care setting.

**Neurology (General Adult Neurology) - Nurse Practitioner/Physician Assistant (244048)**

FT position available, Monday-Friday

Exciting opportunity to join an interdisciplinary team in caring for adult patients with a variety of neurologic diagnoses, including headache, seizure, Parkinson's disease, peripheral neuropathy, and other chronic neurologic conditions. You will partner with nationally-renowned physician experts, dedicated nursing, social work, and technical staff in providing state-of-the-art care to patients and families. Major responsibilities include providing direct and indirect care for patients seen in the ambulatory setting. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Requirements: NYS NP or PA license/ CPR, national certification by ANCC or ACNP.

**Neurology (Headache Center) - Nurse Practitioner/Physician Assistant (246158)**

FT position, Days, Monday-Friday, no holidays required

Exciting opportunity to work with a collaborative team in the Comprehensive Headache Center, caring for a variety of patients with headache disorders including migraine with and without aura, tension-type, cluster, post-traumatic, post-concussive, and chronic daily headaches. Responsibilities include evaluation, development of individualized treatment plans including acute and preventive drug therapy, education, trigger identification and management, trigger point, occipital, Botox and other peripheral nerve injections. Must have excellent organizational, communication, and interpersonal skills. Requirements: 1-2 years of experience as NP or PA in neurology, acute medicine, or primary care is preferred. Other experience will be considered. Must have national certification through ANCC or ACNP.

**Neurosurgery (Brain and Spinal Tumor Program) - Nurse Practitioner / Physician Assistant (246289)**

Full Time position available

Neurosurgical Oncology APP: Successful candidate will partner with the director of the Wilmot Cancer Center Brain and Spinal Tumor Program to provide superior care for patients undergoing brain, spinal tumor, traumatic and degenerative spine surgery at the University of Rochester. This will include helping to enroll and coordinate patients for clinical trials of experimental therapeutics. Both inpatient and outpatient care will be encompassed in the position at Strong Memorial and Highland Hospital. The successful applicant will also function as part of the larger neurosurgery faculty medical practice encompassing fourteen physicians and APPs. National certification required. Experience in Neurosurgery or Neurology desired.

**Neurosurgery's Division of Cerebrovascular Disease and Stroke - Nurse Practitioner/Physician**
Available Positions

**Assistant (245937)**

Full time, experienced NP or PA

Exciting opportunity for an experienced and highly motivated APP to join the URMC Department of Neurosurgery's Division of Cerebrovascular Disease and Stroke. The successful candidate will work on an interdisciplinary team, and will provide medical care to patients in an outpatient setting, with some inpatient patient support. General responsibilities include: Work independently and collaboratively with members of the hospital's interdisciplinary cerebrovascular disease care teams. Obtain comprehensive history and physicals. Perform physical examinations and diagnostic tests. Coordinate, review, and follow up on diagnostic imaging, laboratory testing, and procedures. Clearly communicate diagnostic testing results to providers and patients. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Pain Management - Neurosurgery - Nurse Practitioner/Physician Assistant (245671)**

FT position available, Monday – Friday, office based practice

Opportunity to join our nationally recognized program which is focused on the treatment of acute and chronic pain in the setting of spinal disorders and neurological disease. This program was named a Clinical Center of Excellence by the American Pain Society in 2013, the only academic medical center program in the nation to earn designation that year. This candidate will join a multidisciplinary team that brings together clinicians from diverse specialties (nursing, neurology, neurosurgery, anesthesiology, radiology). Patients with chronic nerve injury pain due to spinal disease, peripheral nerve trauma, trigeminal neuralgia, and neuropathies are the focus of this rapidly growing collaboration with leading institutions across the region. Experienced APP desired with proven clinical skills. Experience in Pain Management, Neurology and Neurosurgery desired. Practice is based in Rochester. Referral triage, telephone management, and participation in research activities will account for approximately 15% of professional time. Outpatient patient management responsibilities include new and follow up visits including procedures, with a team of Pain Management Specialists. Occasional call for collaborating physician. Candidates must have excellent organizational and communication skills. National Certification required. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Orthopaedic Services**

**Orthopaedic Department / Trauma Division - Nurse Practitioner/Physician Assistant (246463)**

FT position available, primarily days. Weekends and evenings as required.

Work collaboratively with busy orthopedic trauma service and all members of the health care team to provide high quality care to outpatient orthopedic trauma patients. Prior APP experience or orthopedic experience preferred. Strong communication and clinical skills required. Must be eligible for billing. The candidate must be NYS eligible for NP or PA certification.
Available Positions

**Orthopaedic Surgery/Adult Reconstruction - Nurse Practitioner/Physician Assistant (245230)**

Full-time position available, primarily days. Weekends and holidays as required.

Work collaboratively with all members of a busy surgical practice to provide high quality care to outpatient patients undergoing total joint replacement of the hip/knee. Strong communication and clinical skills required. Must be eligible for billing. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Pediatric Services**

**Department of Pediatrics-Complex Care Center - Nurse Practitioner/Physician Assistant (237986)**

Full Time Days M-F with on call responsibilities

The Complex Care Center (CCC) provides interdisciplinary care to youth and adults (age > 12) with pediatric onset conditions including developmental disabilities, sickle cell disease, cystic fibrosis, cerebral palsy, among others. Clinical services at the CCC include primary care, dentistry, physical//respiratory therapies, dietician, and behavioral health. The CCC provides complex and coordinated care through one single point of entry through the engagement of multiple clinical departments and service lines. National certification as Family Nurse Practitioner or Physician Assistant registered in New York State. Preferred one year of experience as a Nurse Practitioner/PA in primary care including experience with intellectual and developmental disabilities. The position will encompass teaching, research, quality improvement and provide clinical care.

**NICU - Pediatric Nursing - Nurse Practitioner (NNP, PNP) / Physician Assistant (245925)**

FT position available, 13-hour, D/N rotation with flexibility, 4 weekend shifts every 6 weeks, weekends may fluctuate up based on unit needs

Provide direct care and management of patients in the GCH Level IV Regional Perinatal Center, 68 bed Neonatal Intensive Care Unit, in collaboration with Neonatology Faculty. Participates in delivery room stabilization and management of neonates. Acts as a consultant to birth center and newborn nursery as needed. Develops care policies and protocols for NICU patients in conjunction with the neonatology attending. Contribute to nursing and quality assurance programs related to the NICU. Supervise clinical experiences for NP students in the NICU. Demonstrate support for the School of Nursing philosophy of integrating practice, education, and research. Minimum Qualifications: Eligibility for PA/NP licensure in NYS. NICU nursing experience or previous experience as an APP required. If previous experience as an APP is not within the NICU setting, a NICU rotation as a student APP required.

**Neonatal ICU - APP Fellowship - Nurse Practitioner/Physician Assistant (242567)**

FT, D/N, 8-13 hour shifts, weekends and holidays as needed

The APP Fellowship in Neonatology at The University of Rochester Medical Center is a 12-month post-graduate specialty training program for Nurse Practitioners and Physician Assistants. The program is 75% clinical and 25% didactic and
Available Positions

Available Positions includes side-by-side education with the UR Medicine Pediatric Residency and Neonatal Fellowship programs. The APP Fellowship includes a core program of neonatal medicine and also several specialty rotations meant to enhance neonatal provider education. Neonatal medicine rotations include experiences in the Golisano Children's Hospital Level IV NICU, Newborn Nursery and Birthing Centers. In addition, Fellows participate in Neonatal skills labs and NICU simulations. The program also offers protected time throughout the fellowship to enrich the academic experience with participation in quality or research projects. Qualifications: Nurse Practitioners require a Master's degree in Nursing, an active NYS licensure in good standing, and eligible for national certification. Physician Assistants require completion of an AMA approved Physician Assistant program, NYS licensure in good standing, and eligible national certification as a Registered Physician Assistant. The program is designed for new graduate APPs or those with experience looking to change specialties.

**Pediatric Cardiac Care Center - Nurse Practitioner/Physician Assistant (239943)**

FT position, Tier 3 position which include day/evening/night/weekend/holiday coverage rotations.

In collaboration with a multidisciplinary team, the APP participates in clinical evaluation and management of pediatric cardiac ICU patients. Responsibilities include direct patient care for all ICU level pediatric cardiac surgical and pediatric cardiology patients. Responsibilities will include assessment of patients completing H&Ps, daily notes, care coordination, follow up on ECG/Cardiac testing, and patient/family education. Additional responsibilities include participating in QI and research projects, educational conferences, and APP student precepting. Applicant should be highly motivated with excellent clinical skills, sound judgement, and able to work in a high acuity environment. Prefer applicants to have 1-2 years of relevant experience, but will consider exceptional new graduates. Requirements include: NY state licensure as an NP with National Certification within 3 month of appointment or Board-Certified PA. 1-3 years of pediatric cardiac experience preferred.

**Pediatric Hematology Oncology - Pediatric Nurse Practitioner/Physician Assistant (244032)**

FT position available (40 hours), primarily days, 8-hour shifts.

Exciting opportunity for an experienced NP/PA who enjoys being part of a hardworking interdisciplinary team to provide care for pediatric patients with hematologic and oncologic disorders. Oversight of patients receiving chemotherapy, blood products, and monoclonal antibodies in the infusion center is included in the responsibilities of office visits for patients. Lumbar punctures for chemotherapy and bone marrow biopsies are a large role of the NP/PA in this outpatient clinic. This role also encompasses direct patient care in a fast-paced clinical setting, participation in research protocols in the delivery of state of the art care, coordination of treatment planning including admission, follow-up appointments, and discharge planning. Educational accountabilities include teaching of patients, families, staff, residents and interfacing with home care companies to ensure provision of care. The ideal candidate for this position will have experience in the NP/PA role, excellent written and verbal communication skills, and at least 1 year of previous oncology experience.

**Pediatric Hospital Medicine - Pediatric Nurse Practitioner / Physician Assistant (246459)**

FT position available (40 hours), 12 hour shifts, days/nights/weekends and holidays.

Exciting opportunity to work in a fast pace inpatient pediatric setting. Responsibilities include direct care for pediatric
Available Positions

patients in collaboration with attending. Responsibility includes admission work ups, daily management of patients within Golisano Children's Hospital, and discharges with a heavy emphasis on discharge planning and interdisciplinary rounding. Other responsibilities include participation in educational conferences, and support of unit-based nurses and leadership. We are looking for an APP with a vested interest and desire to work with children with hematology and oncology diseases. The position will also include care management of children with chronic complex needs, GI and nephrology patients. Applicate must be motivated, flexible and independent and possess excellent clinical skills. Requirements: Pediatric experience preferred; NYS licensure as PNP or PA preferred, will consider FNP.

Psychiatric Department

**Alzheimer's Disease Care, Research and Education (ADCARE) - Nurse Practitioner (246221)**

Full time position available, Monday -Friday days.

Under general supervision of the Principle Investigator, the AD-CARE Nurse Practitioner functions within the full scope of nursing practice, which includes being responsible for the process of patient identification, assessment, planning, implementation, monitoring, evaluation and coordination of care to meet the patient's health care needs. The FNP will collaborate with clinical trial study team to ensure safe, quality care during the patient's entire course of participation in a clinical research trial. Other specific responsibilities include clinical trial coordination, obtaining patient and caregiver consent and past medical history, verifying patient clinical trial eligibility, administering clinical assessment scales, completing physical and neurological exams, and administering study medication. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

Required: NYS RN license; Master's Degree in Nursing, ANCC or Board Certified Eligible.

**Medical and Pediatric Emergency Department at SMH - Psychiatric Nurse Practitioner (244440)**

FT position available, 10 hour shift (evening/night), occasional weekends.

Provide psychiatric evaluations, interventions and consultations, including obtaining collateral information, in the Medical ED for patients whose primary or significantly secondary reason for being in the Medical ED is psychiatric related but the patient’s initial presentation does not require a CPEP level of care. Phone consultation with CPEP psychiatrist is available and retriage to CPEP appropriate for patients who are evaluated to likely need psychiatric admission or require further stabilization in a CPEP environment. The NP will also be able to treat and release patients that do not need to be seen by a psychiatrist. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. Qualifications: ANCC Board Certified as a Psychiatric Nurse Practitioner and at least one year experience as an NP in some kind of an acute psychiatric setting.

**Psychiatric Consultation Liaison Service - Psychiatric Nurse Practitioner (244629)**

Full time position available, Monday through Friday, Days. No call.

As an integrated/embedded psychiatric consultant, the NP will work as a member of a multidisciplinary team in providing
Available Positions

psychiatric evaluations and recommendations to a large medical inpatient service. The NP will work collaboratively with Nursing/APP/HMD leadership and staff as requested, providing liaison activities such as educational offerings, assistance with behavioral management of patients, and debriefings. The NP will also participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training. The ideal candidate will have strong communication skills, enjoy working with multiple disciplines, and be a strong advocate for patients with psychiatric illness. Required: NYS RN license; Master's Degree in Psychiatric Mental Health Nursing, ANCC Certified or Board Eligible. New graduates are welcome to apply and further develop their practice within this highly experienced mentoring multidisciplinary team.

Surgical Department

**Ambulatory Colorectal Surgery - Nurse Practitioner/Physician Assistant (246197)**

Full-time position available. Monday – Friday

Exciting opportunity to work collaboratively with our colorectal surgery team of surgeons, residents, advance practice providers (APP's) and secretarial staff to manage the colorectal surgery outpatient population. Candidate must possess strong communication skills, have a high level of clinical competency, demonstrate flexibility and have a firm team work ethic. Will be working in our specialty clinics- colorectal anal physiology (CPC), anal-rectal disorders, and Inflammatory bowel disease (IBD) and colorectal cancer. Responsibilities will include assisting surgical attending providers with outpatient clinic management, and run an independent clinical practice. Emphasis on evaluation, implementing a treatment plan and follow up care of the surgical patient from the preoperative phase through post hospital recovery. Must be New York State eligible for NP/PA certification for independent billing.

**Colorectal Department - Anal Dysplasia Clinic - Nurse Practitioner/Physician Assistant (244063)**

FT day position available

Dynamic new position and exciting opportunity working in the established and growing Anal Dysplasia specialty clinic to perform High Resolution Anoscopy (HRA) for patients at risk for HPV associated anogenital diseases such as anal cancer, anal dysplasia, and anal condyloma. Seeking provider interested in program development to grow the practice. New clinic space in 2025. Working collaboratively with interdisciplinary health care team consisting of advanced practice providers, support staff, and surgeons to provide optimal outcomes for patients undergoing anal cancer screening. Candidates must have excellent critical thinking verbal and written communication skills. Further qualifications include possessing computer competence and have an active desire to learn. Needs to be willing to care for varied patient population and demonstrate decisive judgment and ability to work at top of licensure. In addition to performing HRA responsibilities, include interpreting pathology/cytology reports, obtaining detailed patient histories, performing human papillomavirus teaching and risk reduction counseling. A job requirement is to complete the high-resolution Anoscopy course offered by the International Anal Dysplasia society. The department will financially sponsor this training. The position requires certification and licensure in NYS as a Nurse Practitioner. Requires a Master's Degree in Nursing or related field and an active New York State license in good standing. Physician Assistant requires completion of an AMA approved Physician Assistant program,
Available Positions

licensure in good standing, and certified as a registered Physician Assistant. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Colorectal Surgery (Inpatient) - Nurse Practitioner/Physician Assistant (245643)**

Full time position, primarily days with weekends and holidays as needed for the division of colorectal surgery.

Work in an empowering and collaborative relationship with surgeons within the Division of Colorectal Surgery, providing supportive and independent care to primarily inpatients under the care of Colorectal Surgery. Responsible for direct patient care, with opportunity to expand into the out-patient clinics. Required: adherence to hospital and nursing policies, procedures and practice standards, education of patient and staff, and assurance of service excellent. Candidate must possess communication, organizational and interpersonal skills. As well as a willingness to learn new skills and a firm team work ethic. Completion of a state and hospital required reviews of practice, participation in performance improvement and other activities as required. Must be NYS licensed. National certification is required, and if NP, if not currently certified must be done within three months. Prior surgical experience is preferred. Must be ANCC or ACNP Board Certified if NP and PAs are required completion of ARC-PA accredited PA program. Willing to train new graduates. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Department of Surgery - Hepatobiliary, Pancreatic and Gastrointestinal Surgery - Nurse Practitioner/Physician Assistant (243452)**

FT position available, daytime hours, Monday – Friday

Exciting opportunity to work in the Department of Surgery, alongside Surgical Subspecialties, Surgical Oncology, Medical Oncology, Radiation Oncology, Imaging Sciences, nursing, social work and clerical staff. Will coordinate and provide care for patients across the disciplines by establishing an effective communication interface. Will provide direct care to patients with HPB/GI needs, including initial evaluations, preparation of patients for surgery through education and pre-operative work-up, outpatient post-operative care and symptom management. Will assist in development of process improvement and quality indicators to help assure best practice standards. Will assist with development of curriculum for educational activities in the multidisciplinary HPB/GI team. Requirements: NYS License PA candidates or valid license to practice as an NP in NYS. Must have excellent communication and team facilitation skills. The APP will participate in the education of learners (students and new employees), using clinical learning experiences, knowledge sharing and skill training.

**Nutrition Support - Nurse Practitioner/Physician Assistant (246460)**
